> Bankers are supposed to represent business leadership. In most communities, the bankers are the men who set the pace for progressive and up-to-date business methods. They used to, here. They do so no longer.

Such an attitude on the part of Medford bankers is, in our opinion, a shame and a disgrace. It is not the money that matters. The Mail Tribune can worry along without assistance from the banks. It can continue to get out a good newspaper without bank advertising. It will get out a good Prosperity Week

It's not the money, but the spirit -the picayune spirit of small town tightwadism.

And they talk about reviving the old Medford spirit!

There is no mystery about good oil

It must be made from crudes carefully selected for their "oiliness" and stability. These crudes must be refined to preserve their original characteristics and to make them pure.

In selecting crudes for Zerolene the Standard Oil Company has the advantage of its own large production of practically every type of crude. The company is not compelled to use any particular crude because it happens to be the only one available.

Crudes selected for Zerolene are brought to our refineries in special pipe lines. They are refined by our own patented, high-vacuum process which preserves their "oiliness" and

No other refiner on the Pacific Coast uses any form of vacuum distillation. No other refiner in the United States uses as high a vacuum as this company.
