FORD DAY COUPONS Given with each dollar cash purchase.

6,000,000th FORD BUILT MAY 18th, 1922

Four out of five Ford Cars and Trucks Sold since 1908 still in operation

The six millionth Model "T" Ford Motor was produced May 18th, in the Ford Factory at Detroit. In other words, from the time back in 1908, when the Ford Motor Company began marketing the now famous Model "T" Motor Car until May 18th, 1922, a total of six million Ford Cars and Trucks have been produced.

Thus it will be seen that out of every five Ford Cars and Trucks sold to retail purchasers, in the United States alone during the past fourteen years, four are still in actual daily use, which is really remarkable when the hard service of commercial cars is taken into consideration.

That Ford products have been quite evenly distributed throughout the United States is borne out by the fact that through the sparsely settled communities in the West to the densely populated cities in the East, practically the same ratio of Ford cars and trucks to population exists.

Ohio leads with a total of 290,769 Ford Cars and Trucks in daily use; Illinois comes second, Pennsylvania third; Texas fourth, and Michigan fifth, with a total of 234,081.

An idea of the important part played by Ford Cars and Trucks in the daily transportation of goods and persons in the United States can be gained by realization of the fact that with the Ford Cars now in operation, averaging a minimum of 5000 miles per year each, they would pile up a total of twenty-five billion transportation miles—equivalent to more than a million trips around the world.

YELLOWSTONE NATIONAL PARK

Nature's Most Wonderful Laboratory and Out-of-Doors Paradise

The wildest geysers in the world, dancing amid thousands of boiling springs, their basins arrayed in gorgeous colors like gigantic flowers.

Here, too, are hills of sparkling crystal, hills of sulphur, hills of glass, mountains of every style of architecture, icy or frosted, mountains boiled soft like potatoes and colored like a sunset sky.—John Muir, the great naturalist.
