Portland Resident Says No One Has More Reason Than She to Praise Tanlac.

"I've never seen such a change in anyone and I don't believe anybody has better reason for praising Tanlac than I have," declared Mrs. J. F. Brower, 662 East 81st street, Port-

"Nearly all my life I had awful in bed days at a time. My nerves seemed to collapse and I would al-

most go distracted over any little noise. Then about three years ago my stomach began to trouble me and I have simply suffered tortures from indigestion. I had to be extremely careful about even the little I did eat for gas made my heart palpitate until I could hardly breathe.

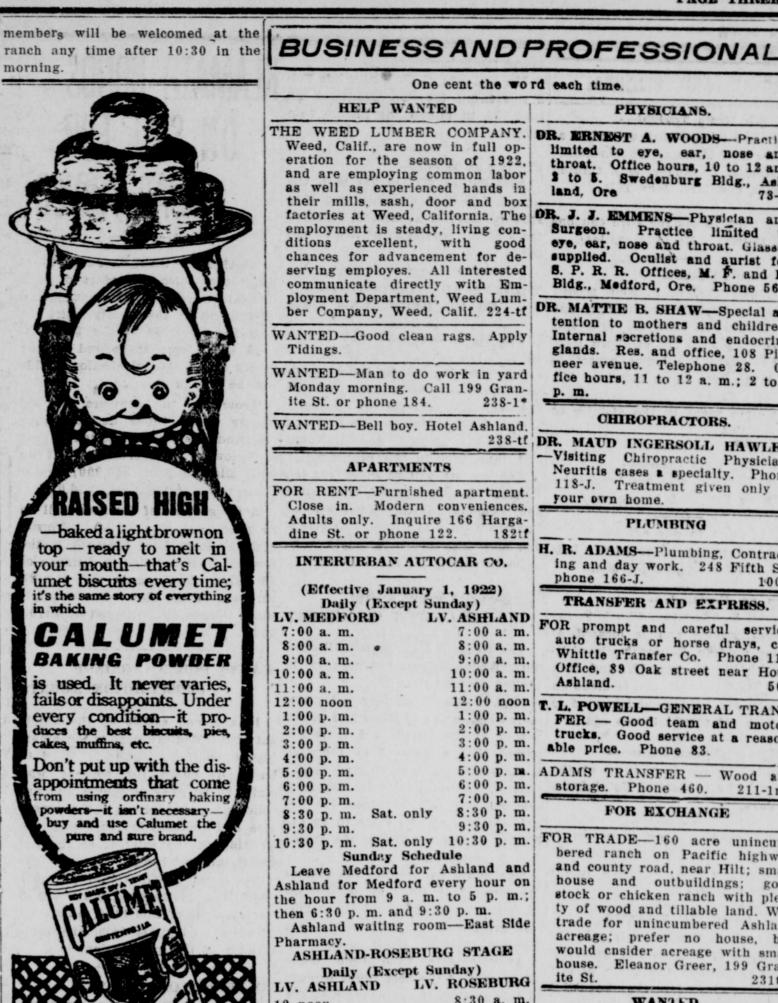

"I took Tanlac because a friend told me how much good it did her. Now I feel so well in every way can't tell there was ever anything the matter with me and I gladly give this statement in the hope that oth ers may profit from my experience.' Tanlac is sold by all good druggists.

HAROLD LLOYD IN A REAL HUMAN TOUCH

Harold Lloyd, appearing in the screen attraction at the Vining the atre tomorrow and Tuesday in a mirth-provoking and decidedly inter-

makes the three-electrode vacuum the esting comedy, "A Sailor-Made Man' most sensitive detector available. is providing a realistic prelude to the In actual tubes the point "G" on the presentation by an honest-to-good characteristic curves as shown in Fig. ness human touch, in which the kid-VIII and Fig. IX may not fall on such a point of the curve that symmetrical dies are the beneficiaries. The manchanges in grid potential will cause a agement has provided a large assortsymmetrical change in plate current, ment of duplicates of the big hornrimmed glasses, which are insepar

able from the make-up of Harole It then becomes necessary to apply a constant potential to the grid by Lloyd, as well as duplicates of the means of a battery in the grid cir-sailor hat he wears in the "Sailor cuit, called the "C" battery, to main- Made Man." These will be given to tain the grid at such a point on the the children who attend the perform characteristic curve that symmetrical ance, without cost other than th changes in grid potential will cause the maximum symmetrical current to asking.
