HUMANIZING THE POSTAL SERVICE

"There is no unimportant person or part of our service. It is a total of human units and their co-operation is the key to its success. In its last analysis, postal duties are accommodations performed for our neighbors and friends and should be so regarded, rather than as a hired service performed for an absentee employer."—Postmaster General Hubert Work.

"HELLO" BARRED IN BOSTON

According to Superintendent of Schools Burke the Word is Both Undignified and Slovenly.

Do not say "Hello" when you pick up the telephone. Avoid "Nope" and "Yep" in your conversation when you mean "No" or "Yes."

If Boston is going to sustain its reputation as the Athens of America, it must quit the use of these barbarisms, according to Jeremiah E. Burke, new superintendent of Boston schools.

It is more in accordance with Boston culture to say something like "This is Mr. Smith talking; with whom am I conversing?"

"There are many words," Superintendent Burke says, "which may be used in place of that moth-eaten, undignified and impolite word 'Hello.' Its use is condemned in Boston schools, particularly in classes in salesmanship where knowledge of dignified and grammatical English is essential. 'There is no excuse for the use of 'Nope' and 'Yep' in conversation. I believe that if Boston school children will check themselves in their use, parents at home will gradually dispense with their use."

"My advice to the children in Boston schools is:

"Don't be slovenly in the use of English. Slovenliness is the result of habit, and once tolerated, it is likely to cling to all of us until mature life."—Boston American.

ETIQUETTE THAT SEEMS ODD

Table Manners at the Time of Chaucer Were of a Decidedly Primitive Character.

Table manners at the time of Chaucer were described in a lecture by Kenneth Hare, author and poet, on "A Holiday in London in the Days of Chaucer." Etiquette in those days (the latter half of the Fourteenth century) demanded that meat should be held between two fingers and a thumb of the left hand, and no more, if one was to be received in polite society. After soup, pike roasted in claret and flavored with strange and varied spices was eaten. Then followed partridge roasted with saffron, cloves and ginger, and jam tarts and jelly.

It was the custom to change the cloth with the courses, and one read of one feast in which each new cloth was scented with a perfume appropriate to the dish. In Chaucer's day the bath in construction was not unlike a miniature pulpit, and a bouquet of sweet scented herbs was hung over it for the stream to draw out their refreshing qualities.

The Man in the Moon.

Observations made from August, 1920, to February, 1921, by Prof. William Henry Pickering of Harvard, who is one of the world's leading astronomers and an authority on lunar and Martian phenomena, tend, he asserts, to prove beyond doubt that life exists on the surface of the moon. The professor bases his assertions on a series of telescopic photographs of a crater with a circumference of 37 miles. Hundreds of photographic reproductions have, it is stated, proved irrefutably the springing up at dawn, with an unbelievable rapidity, of vast fields of foliage, which come into full blossom just as rapidly, and which disappear in a maximum period of 11 days. The plates also show that great blizzards, snowstorms and volcanic eruptions are frequent. "We find," says the professor, "a living world at our very doors where life in some respects resembles that of Mars—a world which the astronomical profession has in past years utterly neglected and ignored."

WEDNESDAY CLUB HAS DELIGHTFUL MEETING

The Wednesday club of the Presbyterian church held a delightful social meeting this week at the beautiful home of Mrs. J. L. Harner on upper Almond street.

The church china was on display at the meeting, and a large number of plates were paid for by the ladies and presented to the church. The musical program, which is to be given June 26 was brought up for discussion among other business matters.

The hostess was assisted in serving delicious refreshments, consisting of ice cream and cake, by Mesdames Maxey and Greer. The meeting marked the end of the season, and the club will not gather again until fall.

Special attention to tourists' supplies.

Detrick's Groceteria

"WE SELL FOR LESS"

FORD NEARS OUTPUT OF 5,000 a DAY

Dealers call for 194,750 cars, trucks and tractors for June.

Ford dealers in the United States have asked for a total of 194,750 Ford Cars, Trucks and Tractors to meet their June requirements, says a statement issued by the Ford Motor Company, Detroit, Michigan.

As a result, the estimated output for June has been boosted to 140,000, which is an increase of 10,000 over the present month, and, of course, will set up a new high record, in spite of the fact that the May output will show a substantial increase over the previous highest month.

Ford sales have been constantly increasing since the first of the year, the demand growing during the past two months faster than it has been possible to increase production.

Monday, May 16th, brought forth a new record of cars built for one day, the figures reaching 4873 at the close of the day's work. This was an increase of 16 over May 15th, when the previous high mark was established.

On May 18th, the six millionth Ford motor was assembled. No five million came off the line May 28th, 1921.

Ford officials state that every attempt is being made to build a sufficient number of cars and trucks to fill the retail requirements of their EIGHT THOUSAND dealers.
