JACKSON HOT SPRINGS OPENING DANCE PAVILION

County officers attending the big opening dance at the Jackson Hot Springs open air dance pavilion Saturday night, highly complimented the management on having the largest crowd and the cleanest conducted dance for its size ever witnessed in southern Oregon. A close estimate of the dancers and spectators attending Saturday night would number around 1200 people. Every one was highly pleased with the surroundings and all pronounced the floor to be the largest and best open air pavilion in southern Oregon.

The management is sparing no expense to make Jackson Hot Springs pavilion the most popular place to dance in the valley. More accommodations are being added to the already fine establishment and there will be sufficient room for the parking of all cars and wraps will be taken care of inside the hall.

Every indication points toward a record crowd tonight and tomorrow night.

MINERS-OPERATORS ARE DEADLOCKED IN CONFERENCE

WASHINGTON, July 2.—President Harding's national coal conference held another protracted session behind closed doors today and then finally adjourned until Monday, July 10, without breaking the deadlock which developed Sunday, or without progressing toward a settlement of the nationwide coal strike.

Secretaries Hoover and Davis, however, said they regarded the situation as "hopeful," because the conference was still being held intact, and both combatant groups, despite their widening difficulties, were willing to continue the conference in order to satisfy the desire of the administration for a settlement of the strike.

Formal conversations between the warring leaders of the coal industry, led to heated arguments and the session is described as a stormy one.

Men Wanted

For Service as Railroad:

Machinists, boilermakers, blacksmiths, electricians, sheet metal workers, pipe fitters, copper smiths, tanners, car inspectors, car repair helpers.

All classes under strike conditions best explained by Ben W. Hooper, of the United States Railroad Labor Board, in his statement of July 1st, reading as follows:

In this case, the conflict is not between the employer and the oppressed employees. The people of this country, through an act of congress, signed by President Wilson, established a tribunal to decide such disputes over wages and working conditions which are submitted to it in a proper manner.

"It is the decision of this tribunal against which the shop crafts are striking. Regardless of any question of the right of the men to strike, the men who take the strikers' places are merely accepting the wages and working conditions prescribed by a government tribunal and are performing a public service. They are not accepting the wages and working conditions which an employer is trying to impose.

"For this reason, public sentiment and full government power will protect the men who remain in their positions and new men who may come in."

Adequate provisions have been made for the full protection of all new employees, the same as old employees who have remained loyally at work.

Applicants should apply to the Office of the Superintendent at Portland (Union Station) or to the Assistant Superintendent at Roseburg.
