

ASHLAND CLIMATE, without the aid of medicine, cures nine cases out of ten of asthma. This is a proven fact.

MALARIA GERMS cannot survive three months in the rich ozone at Ashland. The pure domestic water helps.

OLCOTT ORDERS PROSECUTIONS OF MOB VIOLENCE

BELIEF THAT EXECUTIVE IS AIMING AT KU KLUX IN JACKSON COUNTY

Has Instructed Attorney-General Van Winkle to Take Charge of Prosecution of Outrages of Night Mobs in This County.

SALEM, July 6.—Attorney-General Van Winkle has been instructed by Governor Olcott to take charge of the prosecution of alleged "outrages perpetrated by night mobs in Jackson county."

While the governor does not directly charge the Ku Klux Klan with responsibility for these alleged outrages, the correspondence between his office and United States Attorney General Daugherty, makes reference to "activities of the Ku Klux Klan in Oregon."

The action of the governor revealed the fact that no federal statute would apply to the situation in this state, after "local officers in Jackson county have failed to act."

It cannot be ascertained here where there has been any request made upon the governor for assistance in quelling "outrages perpetrated by night mobs in Jackson county," nor is there any record of any condition existing in this county with which the duly appointed officers have been unable to cope, to the extent that the governor would be called upon for assistance.

POMPADOUR CO. CLOSE CONTRACT TO SELL WATERS

The Pompadour Mineral Springs company has closed a contract for the sale of its bottled waters from the springs, which will run over a period of ten years.

Under the contract of sale, provision is made for effective advertising of the waters over the entire period of ten years.

In order to meet the requirements of the contract, a large building will be constructed for the bottling at the springs, and the grounds surrounding the building will be beautified and made attractive to visitors.

In building the plant, special attention will be given to the most modern method of bottling and Ashland lithia water will be furnished to the public in the best possible natural condition and all advertising will be based on the slogan of the best water in the country bottled in the most modern plant obtainable.

Shopmen Deserted Are Now Forced To Play Lone Hand

CHICAGO, July 6.—Promise that any reasonable offer for peace which the railroad management cares to make, will receive consideration by the striking shopcraft union heads, was made late today by Bert M. Jewell, union chief.

CHICAGO, July 6.—Striking shopmen, employees of the railroad of the country, are playing a lone hand following the refusal of maintenance of way union leaders to plunge that organization into the strike.

Peace between the maintenance men and the railroads came after an all-day session between union leaders and the members of the United States railroad labor board.

The board promised to reconsider the \$50,000,000 wage cut effective July 1. If the board finds that the cost of living has gone up instead of down since the last government figures were issued, and a new wage scale is worked out, it will be retroactive to July 1.

CIVIL WAR VETERAN OLDEST FORD DRIVER

E. K. Hall of 564 Liberty street, was awarded first prize for being the oldest person driving a car in the Ford parade Monday.

Mr. Hall was born in 1843 and is 79 years old, and a veteran of the civil war, having entered the army when in his teens, and going through four years of never-to-be-forgotten experiences, the greater share of which were anything but pleasant.

YOUTH DROWNED PINNED UNDER CAR IN DITCH

KLAMATH FALLS, July 6.—Joseph McDonald, 18, son of T. E. McDonald, pool hall proprietor of this city, was drowned in the shallow waters of an irrigation ditch near Fort Klamath on Wednesday, when the car he was driving left the road while crossing a culvert and overturned, pinning him beneath.

His girl companion was thrown from the car and escaped unhurt. She summoned help and McDonald was extricated within 15 minutes, but all efforts to revive him failed. He had been attending a dance at the Fort Klamath roundup and had borrowed a car to take the girl for a ride between dances.

STEAM PIPE BURSTS BADLY SCALDING CREAMERY FORCE

LINCOLN, Neb., July 6.—Three men are dying, three are so badly scalded they are not expected to recover, and several others were painfully burned as the result of a large steam pipe bursting in the plant of the Fremont creamery company at Crete.

The pipe burst in a room where the workers were changing their clothes preparatory for work. The rush of steam literally cooked everyone in the room.

AUTO ACCIDENT MAY COST DRIVER STATE LICENSE

An auto accident occurred Wednesday evening about 6 o'clock at the intersection of Oak and Main street, in which the Buick car belonging to Ed Weber, of Medford, was hit by a car driven by A. E. Anderson, of Ashland.

Mr. Weber was traveling north on Main street and had signaled that he would turn at the corner, but was compelled to come to a stop until another car traveling south had passed and it was during this stop that Anderson, coming down the hill at a good rate of speed, hit the hub of the Buick with the left front spring of his car, resulting in the springing of the body of the Buick entirely out of line, and the bending of the malleable iron spring holder on his own car at an angle of about 45 degrees, besides battering up the front of the car generally.

This is the second accident that Anderson has been in within two days, having run into a tourist on July 3d at the intersection of Third and B streets. It is said that the car he has been driving is without brakes, the lining being entirely worn out, and this is given as the cause of both the accidents.

He has also been driving his car about the city for some time with a California license attached.

Inasmuch as this is the second accident caused by the failure of the brakes, it is thought probable that his driver's permit will be revoked, in addition to any further punishment that may be dealt out to him.

Based on the principle that pure water has high electrical resistance, a meter has been designed to indicate the contamination of water in boilers.

All Kinds of Men at Rotary Clubs Convention

Men of all walks of life, from plumbers to naval officers and photographers to bank presidents, came together in a common cause at the annual international convention of Rotary clubs in Los Angeles. This picture shows a typical group of members of the widespread organization registering at the convention headquarters.

FOURTH OF JULY PRIZE WINNERS ARE ANNOUNCED

The list of prize winners for the Fourth of July parade and decorations has been completed and is as follows:

Best float from outside Ashland—First, Klamath Falls, Mrs. John Enders; second, Jackson county fair, Elton Beeson.

Best decorated Ashland float—First, Citizens bank; second, Mrs. J. H. Sugg.

Best decorated car—First, F. W. Hudson, first to Crater Lake 1922; second, Enders store.

Largest and best representation, outside Ashland—First, K. K. K., Medford; second, Jacksonville Children's floats—First, Lithian "bubbles"; second, Rogue river apple thinners.

Original stunts—First, Normal school; second, George and Martha Washington up-to-date.

Comis floats—First, Miss Katie Buchanan; second, L. F. Fitzwater; third, car No. 74.

Best decorated bicycle—First, L. H. Jacks.

Comic bicye—First, Joseph Hartley, Talent; second, William Brown and Loyal Leach (Mike and Ike).

Woman clown—First, Mrs. R. N. Nichols, Grants Pass.

Kid clowns—First, Elton Ramsay and Aldo Parr; second, Russell Parr and George Kinz.

Specials—First, National guard; second, American Legion.

First—Woods' stunt car; second, Don Dickerson.

Decorated store fronts—First, Swenson & McRae; second, Ford garage; special mention, Holmes grocery (sweet peas), Enders store, Dew Drop Inn, Square Deal grocery, Provost hardware.

Decorated residences—First, Mrs. O. Winter; second, Mrs. H. T. Elmore; special mention, Tony P. Franco.

ANOTHER HOTEL PROJECT WAS LAUNCHED TODAY

CONTEMPLATES CONSTRUCTION OF APARTMENT HOUSE AND HOSTELRY COMBINED

C. L. Stidd Outlines Plan at Forum Luncheon and Committee of Seven Is Appointed to Receive a Definite Proposition.

At the forum luncheon of the chamber of commerce in the Ashland hotel this noon, another hotel project was launched, which has in contemplation the formation of a local company to build a combination hotel and apartment house. C. L. Stidd, formerly field agent for the Union Savings company, of Portland, of which his brother is president, outlined the plan, which will be submitted in detail to a committee of seven appointed this afternoon by the directors of the chamber of commerce.

Prof. Reed, of the O. A. C., at Corvallis, was the guest of honor, but in view of the importance of Mr. Stidd's proposition, he confined his remarks to a ten-minute speech in which he declared the outstanding characteristic of the American people was the power of initiative, and a plea for the continuance and support of the farm bureau as an American institution best calculated to cultivate this dominant American characteristic in the farmer. He referred to Mr. Stidd as having been a student of the university, with whose achievements at that institution he was thoroughly familiar and pointed to him as an example of a young man highly endowed with the initiative power.

Mr. Stidd went straight to his subject after paying a glowing tribute to Ashland as a place of residence. He pointed out how bad the city was in need of an hotel for tourists and briefly outlined a plan for accomplishing this object. This contemplated the formation of a local company to take up approximately 65 per cent of the stock, the remaining 35 per cent to be sold in the open market.

Mr. Stidd's talk was listened to with close attention and at its conclusion Secretary Fuller moved that a committee of five be appointed to confer with him. E. V. Carfer asked that the membership of the committee be increased to seven and this being agreed to, a meeting of the board of directors was called to go into executive session at once. The result of this meeting was the appointment of the following committee:

C. H. Pierce, A. C. Ninninger, H. G. Enders Sr., C. B. Lamb, L. F. Ferguson, George W. Dunn, F. E. French, and J. W. Fuller, secretary.

As it is necessary for Mr. Stidd to be in Portland by Sunday at the latest, it is likely that the committee will make arrangements to receive his proposition at once, probably this evening or tomorrow.

Hitting on the high spots is safer when aviating than it is when motoring.

PHILADELPHIA, July 6.—Widespread interest has been aroused in Philadelphia's medical circles by the attempts at the West Jersey Homeopathic hospital, Camden, to save the life of Miss Mary Getman, 18 years old, whose neck was broken when she dived into shallow water at Clementon lake.

Although she is paralyzed from the shoulders down, physicians attending her hope the treatment they are using will eventually restore the use of her arms and legs.

Of English invention is a snap gauge that shows by a pointer on a dial how much over or under size a piece of work is in ten thousandths of an inch.

RECALL IS FILED AGAINST SHERIFF C. E. TERRILL

The petition for the recall of Sheriff Terrill has been filed at last and it is found that the greatest number of signatures to the petition are those of Ashland citizens. The filing was made yesterday by the Rev. W. Judson Oldfield, pastor of the Congregational church, of Ashland; Stella Leavitt, said to represent the W. C. T. U. of Ashland, and Minnie Bryant, said to represent the W. C. T. U. of this city. The petitioning party was accompanied by Attorney H. A. Canaday and Frank Redden of Medford, and two women.

It was claimed by those having the recall petitions in their charge that 1,000 names had been signed. It is claimed that a large per cent of the signers were women, and that the largest number of names were secured from Ashland precincts. From the 1700 names the signatures of about 200 signers, who have filed written and telephonic requests that their names be withdrawn, will be subtracted.

Petitions nominating D. M. Lowe farmer and fair exhibit collector, to make the race as the recall candidate, were also filed.

Under the law, the official whose recall is sought, is given five days to resign, which will not come to pass in this instance, as Sheriff Terrill has announced he will not. If the checking shows the required number of names—1235—it is then the duty of the county clerk to call a special election within 20 days, which would bring it the latter part of the last week of this month.

No specific charges are filed against Sheriff Terrill, the recall being based upon the following allegations:

"Non-performance of the duties of his office.

"For malfeasance in office as set forth in the published report of the 1921 grand jury, of which Mr. J. W. Eldon was foreman."

With the filing of the recall petitions, rumor got busy and on all sides it is reported that the crusade against the sheriff is only the beginning, and that petitions will later be filed in an effort to make a clean sweep of the county offices.

GIRL WITH BROKEN NECK WILL RECOVER

PHILADELPHIA, July 6.—Widespread interest has been aroused in Philadelphia's medical circles by the attempts at the West Jersey Homeopathic hospital, Camden, to save the life of Miss Mary Getman, 18 years old, whose neck was broken when she dived into shallow water at Clementon lake.

Although she is paralyzed from the shoulders down, physicians attending her hope the treatment they are using will eventually restore the use of her arms and legs.

Damage from fire and water combined is estimated at about \$200. Practically all the furniture was removed from the house and was not injured.

LOVELORN 16-YEAR-OLD GIRL ATTEMPTS SUICIDE

SACRAMENTO, July 6.—Despondent because her father had commanded her to quit keeping company with Joe Spielberger, of 1115 Twenty-first street, 16-year-old Frankie Gassaway, of Hagginwood, last evening attempted to commit suicide by firing a bullet into her right breast. Today she is at the White hospital, and is reported to be in a critical condition.

DEVALERA ESCAPES DISGUISED AS A HEARSE DRIVER

DUBLIN, July 6.—Although the republican irregular army has been broken up and all the rebel strongholds in Dublin captured by Free State troops, the Irish provisional government has set about preparing for a long guerilla warfare in the southern and western counties.

De Valera, commander of the republican irregulars in Ireland, escaped from here Tuesday night, disguised as a hearse driver. After slipping from his headquarters during a lull in the fighting, De Valera put on a coachman's coat and a battered plug hat and passed through the Free State lines, pretending to carry a corpse to a hearse.

CAR OVERTURNS BUT PASSENGERS ESCAPE INJURY

WEED, Calif., July 6.—While William T. King was returning to Weed from the dance at Yreka early Tuesday morning, he lost control of the car just out of Weed. The car ran off the road and turned over twice.

Although the car was loaded to capacity with passengers, fortunately no one was injured, all occupants being thrown clear. Two wheels were broken, however, and the machine was otherwise badly damaged. The car was the property of W. H. King, father of the driver and factory superintendent of Weed.

BABE GETS 14TH HOME RUN WITH THREE ON BASES

NEW YORK, July 6.—Babe Ruth whacked out his fourteenth home run of the season in the first game of the Yankee-Cleveland double header today. Mal was pitching, and the bases were full when Babe clouted the ball for a circuit walk.

BASEBALL RESULTS TODAY

American League
At New York 10-11; Cleveland 3-3.
At Philadelphia 5; Chicago 9.
National League
At Pittsburg 3; New York 6.
Pacific Coast League
(Yesterday's Games)
At Portland 3; San Francisco 7.
At Seattle 6; Los Angeles 7.
At Vernon 1; Sacramento 5.
At Oakland 4; Salt Lake 3.

ROOF OF KISTLER HOME IS DAMAGED BY BLAZE

A fire broke out about 1:30 o'clock Wednesday afternoon at the home of J. W. Kistler, on Mountain avenue, and burned the roof of one side of the house before the fire department was able to get it under control.

Damage from fire and water combined is estimated at about \$200. Practically all the furniture was removed from the house and was not injured.

70 INJURED IN SUBWAY PANIC AS FUSE BLOWS OUT

FRANTIC STRUGGLE OF MEN, WOMEN AND CHILDREN IN UNDERGROUND TUBE

Many Are Trampled in Mad Scramble for Safety and Some Fall Insensible from Suffocating Fumes of Burning Insulation.

NEW YORK, July 6.—Between 60 and 70 persons were slightly injured in a panic on the Lexington Avenue subway express, when the blowing out of a fuse caused a short circuit near the Fifty-ninth street station. The train stopped dead and soon filled with dense clouds of suffocating smoke from burning insulation. The injuries were caused in the wild scramble of men, women and children to get off the train, after some passengers had smashed windows and the guards had opened the doors. So far as known, none were seriously hurt.

The blowout was accompanied by a terrific explosion. Then all the lights went out. The firemen who first tried to reach the train, described the scene as a veritable inferno. Cries from the crowd arose above the crashes of shattered glass. Oaths of men, struggling to fight their way from the train, mingled with the prayers of panic-stricken men, women and children, who feared they were doomed.

Many passengers became insensible from the smoke and were stretched out upon seats and on the floor of the cars when the firemen reached them.

PANTHER HUNTING GOOD BUSINESS IN SISKIYOU

CECILVILLE, Calif., July 6.—Bounties were paid on four panthers by Siskiyou county in June.

Siskiyou shares with Pumas county the dubious honor of being the best panther hunting ground in the state, and it is in the wild and mountainous Salmon river watershed that these animals make their homes.

This county alone pays a bounty of \$30 on each scalp. With the generous state bounty and a good price for the skin when it is in the prime, panther hunting is remunerative as well as being good sport and has many followers on the Salmon and Klamath rivers.

An Indiana electrician has invented an electric welder which operates as well with an ordinary alternating lighting current as with a direct current.

Saw Mill Blaze Endangers Whole Town of Wendling

EUGENE, July 6.—The Booth-Kelly sawmill at Wendling burned to the ground today. Every able-bodied citizen of the town is aiding in fighting the blaze as the whole town is reported as threatened with destruction.

A special train, with fire fighters and apparatus has been rushed to Wendling from Springfield.

VICTIM OF WEED SHOOTING IN CRITICAL CONDITION

WEED, Calif., July 6.—Giuseppe Fortunata, one of ten men shot Sunday, when G. Sharboro ran amuck in Weed, is in quite a serious condition in the Weed hospital. In addition to a shattered right arm, he was shot in the back, considerable shot entering his kidneys. There is grave doubt as to his ultimate recovery. Reports from Yreka indicate that it probably will be necessary to amputate Sharboro's leg to prevent blood poisoning. Several relatives from Weed visited him Monday.
