MEXICO MAY GET GIGANTIC COLONY OF RUSSIAN JEWS

EL PASO, Texas, July 8.—A gigantic colonization plan, which would make the Mennonite movement of 20,000 people most insignificant in comparison, is being formulated in Mexico today.

If carried to completion the plan will give homes to millions of suffering Russian and Polish Jews.

It is proposed to colonize the persecuted Jews of Europe on vast tracts of land in Mexico.

Sixty-four thousand square miles of territory, chiefly along the Mexican-American border, is to be utilized for the colonization, according to the plan.

Advices received here from President Obregon, of Mexico, state that he is considering the proposal to give these Jewish immigrants the land required.

From New York come reports that Paul W. Rothinberg, a prominent Jewish leader, is heading a Jewish territorial organization which would hold title to the land to be granted to the Jews by the Mexican government.
