MILITIA ORDER AROUSES ANGER OF BROTHERHOODS

CLINTON, Ill., July 10.—A general strike of all the railway brotherhoods was threatened by the union heads when they learned that five more companies of Illinois guardsmen had been ordered into the down state strike zones. It is also reported that a number of the big roads are planning to withdraw a number of local passenger trains before the end of the week.

RAINY JULY FOURTH CAUSED BIG DRAIN ON DRY INSURANCE

NEW YORK, July 10.—Rain insurance companies that guarantee fair weather for baseball clubs, resort hotels, hot dog vendors, golf players and vacationists, got an awful wallop throughout June, and an even worse blow during the prolonged week-end which many stretched over to properly celebrate the Fourth of July.

The four big companies engaged in this business paid out more than \$500,000 to policyholders protected against bad weather over the Independence Day period.

The big hotels on the boardwalk at Atlantic City had nearly all taken out rain insurance for the holiday period. Concessions along the beach were similarly protected. The hotels, as a rule, insured themselves of gross receipts of a certain amount, and where these fell below the estimates, the insurance policy covered the difference. The Giants at the Polo Grounds, had a \$30,000 policy last Tuesday.

EUGENE, Or., July 10.—Oregon's marble halls, the noted Josephine caves, which have attracted more than 2000 tourists since the opening of the highway in the latter part of June, is also a marble mausoleum, an archive of the ages, having stored under its stalactite incrustations a fossilized record of faunal life which in all probability flourished on the western shores of this continent at that distant geologic time when man first appeared upon the earth, says Dr. Earl Packard, head of the University of Oregon, department of geology.

Dr. Packard, with a party of students in the geology department at the university, has just returned to Eugene from a stay of two weeks in southern Oregon examining geologic formations.

GREAT BRITAIN BEGINS PAYING HER WAR DEBT

NEW YORK, July 10.—Definite indications that Great Britain intends to begin service on her war debt in this country this fall was seen by local bankers in the arrival of gold bars valued at \$2,500,000 on the steamer Berengaria for the account of the British treasury and the announcement that another similar shipment is under way. The shipment was consigned to J. P. Morgan and Company, fiscal agents for the British government, who were requested to hold it "for instructions" later.

It was pointed out that the British government had no other commitments in this country so that the gold obviously was for war debt liquidation.

The sum of \$125,000,000 will be due the United States this October as interest on the British war debt. This gold shipment is the first that has been received here for the account of the British treasury in about a year and a half.

President Harding Extends Mailed Fist in Velvet Glove, Offering the Alternative of Government Operation or an Agreement Tonight.

WASHINGTON, July 10.—Confronted with the gravest industrial emergency the administration has faced, President Harding expected to point the way out of the national coal famine today, by addressing a communication to the miners and operators in joint conference.

The president told them flatly that they either must submit to arbitration by the government commission or the government will seize the mines to protect the public. Under this ultimatum, the miners would return to work immediately under the old wage scale. The factions have been given until tonight to make a decision.

Hamilton was alone on the truck, which he was driving for the Kruse Lumber company, when the engine stalled and backed into the ditch. He applied the brakes, but they would not hold, the machine turning completely over, pinning him underneath. The radiator burst and the scalding water poured over the unfortunate man until he was literally cooked. He lived only a few hours after he was brought to the hospital.
