NINE HUNDRED TRAINS TAKEN OFF SCHEDULES

AFTER FOUR WEEKS STRIKES ARE NO NEARER SETTLEMENT THAN EVER

Railway Executives and Union Leaders Are Apparently in Deadlock, Neither Side Showing Any Disposition to Arrive at Compromise.

CHICAGO, July 22.—With prospects of peace still remote, but with a hope still existing that an early adjustment may be reached, the strike of the railway shopmen today entered its fourth week.

It was the belief in some circles that the strike would never live to be a month old, but elsewhere the opinion prevailed that the walkout was destined to acquire considerable strength before it finally ended.

Pessimistic views of the situation arose from the apparent unyielding stand maintained by both the rail executives and the union leaders, neither side having shown any inclination to compromise.

Evidence that the strike is beginning to apply brakes to the wheels of the railway industry are piling up. Added announcements of the discontinuance of trains are coming in from all parts of the country. It is estimated 900 trains have been taken off the roads during the first three weeks of the strike.

Railway officials contend, however, that the coal shortage has caused more trains to be cancelled than the strike.

FAMOUS EDITOR IS UNDER ARREST FOR STRIKE SYMPATHY

TOPEKA, Kans., July 22.—Governor Henry J. Allen authorized the arrest of William Allen White, editor of the Emporia Gazette for defiance of the Kansas industrial court law by placing a placard sympathizing with the striking railroad shopmen in a window of the Emporia Gazette.

"I won't take down the sign. It is going to stay there in my window," the editor declared.

White and Governor Allen are lifelong friends, both publicly and personally.

CELEBRATE GOLDEN WEDDING AMID FRIENDS AND FLOWERS

Mr. and Mrs. R. H. Drew were very pleasantly surprised Friday evening, the golden anniversary of their wedding, when a number of friends and neighbors gathered at their home unexpectedly and made merry the occasion. Many beautiful bouquets and other remembrances were presented. The evening was passed in pleasant conversation and congratulations were tendered the happy couple on the many years they have passed so delightfully together, and for the pleasure they have given to their hosts of friends. During the evening ice cream and cake were served.

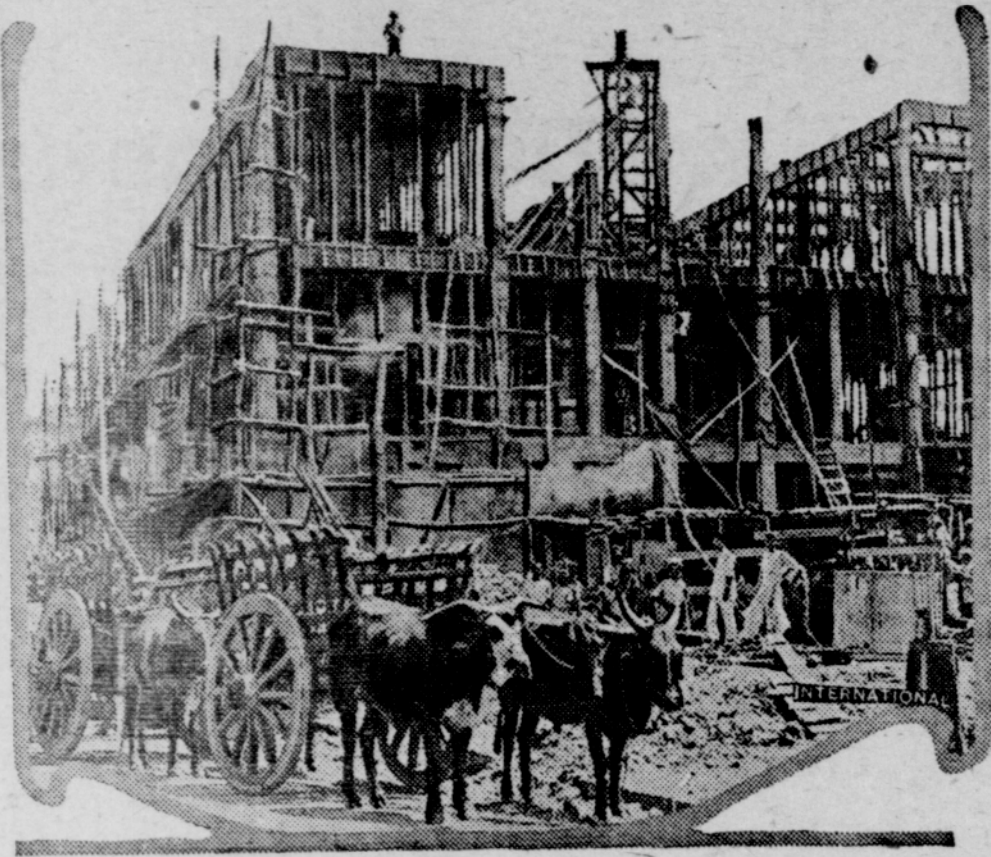

Mr. and Mrs. Drew were married in Bloomington, Ill., in 1872. They crossed the plains five years later, settling in Ellensburg, Wash. They came to Ashland 23 years ago, and today enjoy the respect and friendship of the entire community. The fact that Mr. Drew is familiarly accosted as "Dad" Drew, shows the affection that Ashland feels for him.

Among those present were: Mr. and Mrs. H. T. Elmore, Mr. and Mrs. H. Pracht, Mr. and Mrs. H. C. High, Mr. and Mrs. E. R. Isaac, Mr. and Mrs. L. G. Ferguson, Mrs. A. S. Payne, Mrs. Geo. Yates, Mrs. Elsie Churchman, Mrs. Russell Chaney, Mrs. Fred Putnam, Mrs. Glenn McWilliams, Mrs. Hoxie, Mrs. Maud Evans and J. H. McGee.

It is hoped that Mr. and Mrs. Drew live to celebrate their 60th anniversary here in Ashland.

Here from Washington—Mr. and Mrs. Y. Glenn and children, of Washington state, are visiting with the Henry Carter family on Vista street.

Concrete Buildings for Bombay

A view of one of the modern concrete buildings being erected in Bombay, India. When completed, these iron-beamed stone structures will stand in marked contrast to the old wooden buildings of the ancient city.

ROSENBLUM IS HELD GUILTY OF WHITE SLAVERY

Max Rosenblum, who was arrested at a local hotel on June 10 by Night Officer Wertz, in company with a girl who gave her name as "Billie" Ward, was acquitted by a federal jury as the result of the testimony of Miss Ward to the effect that she had persuaded Rosenblum to drive her from Seattle to San Francisco, and the plea of his attorney and of his wife and child.

Rosenblum and the Ward girl were arrested here as the result of a telegram from the sheriff at Seattle, asking the officers here to be on the lookout for a Ford truck bearing a Washington license number. Officer Wertz located the car in front of a local hotel and proceeded to locate the owner, who he found registered at the hotel as "J. L. Jarber and wife."

They were taken in charge and turned over to the federal authorities, and upon the preliminary hearing, they were bound over to the federal court at Portland for trial.

SCENIC HIGHWAY TO MT. ASHLAND NOW UNDER WAY

The Mount Ashland scenic highway got a running start this morning, when a gang of some 30 men was started out by Jesse Winburn to work on the two mile stretch of road between Brushy camp and Gribble's camp.

The government built the road as far as Brushy camp a number of years ago, but abandoned it there, and it has been used very little since that time. Gribble's camp lies in the saddle between Mount Wagner and Mount Ashland, and a road may be made to connect either peak from this point.

The commercial club trustees endeavored several years ago to put such a road up the mountainside as the present plan for the Mount Ashland scenic drive, and went so far as to start work on a portion of it and had practically the whole route surveyed. However, opposition was aroused, and rather than have any hard feelings, the project was dropped at that time.

SENATE COMMITTEE REPORTS FAILURE TO PRESIDENT

WASHINGTON, July 22.—President Harding was advised today by Chairman Cummins and Senators Watson of Indiana and Kellogg of Minnesota, of the senate interstate commerce committee of the unavailing efforts made by them in the conference with several leading eastern railroad executives last evening to obtain a basis for settlement of the rail strike.

Banks—\$250,000 mill destroyed by fire.

DAILY IRISH CASUALTIES

DUBLIN, July 22.—Fighting has broken out between Free Staters and irregular troops when a detachment of irregulars attacked the Four Courts hotel. They were driven off after an interval of heavy fighting. Twenty were killed in the fighting at Limerick, according to a revised casualties estimate.

COURTHOUSE TRIANGULAR ROW PROVES COSTLY

KLAMATH FALLS, July 22.—The triangular courthouse row is proving a very costly luxury. During the present year—the twelfth of the fight—warrants have been paid in the sum of \$3,909.45, for expenses incurred in connection with the various legal developments.

E. L. Elliott, a Klamath Falls attorney, is given \$2000 for professional services. One Portland attorney, Isham N. Smith, gets \$1000 for professional advice; another Portland firm gets \$500 for "legal advice," while an architect from Los Angeles is given \$234 for advice as to the possible cost of completion of the Hot Springs courthouse, which has been in a state of suspended construction for more than ten years.

All the evidence is in the case of Ward vs. Klamath county, which has been on trial during the past week, and Judge Skipworth has his decision under advisement.

DISTRIBUTION OF COAL BY SPECIAL COMMISSION

WASHINGTON, July 22.—Distribution of coal during the strike emergency through a special commission was understood today to be the administration plan to make certain the fuel necessary to continued railroad operation.

The matter was discussed at today's cabinet meeting and later it was understood that Secretary Hoover, acting for the president, had undertaken the formation of the commission. Formal announcement of the plan was expected today.

RAILROAD GUARD KILLED BY HOLD-UP MAN AT TRACY

TRACY, Calif., July 22.—Deputy Sheriff Frank Brennan, a guard in the Southern Pacific railroad yards here, was shot and killed, supposedly by one or two men seen running from the scene after the shots were heard.

Officers investigating the killing incline to the belief the killing was not due to a strike disturbance, but due to an attempted robbery.

Brennan was a resident of Stockton, where his widow and one child reside.

SEATTLE PLAYER SOLD TO CUBS FOR \$50,000

SEATTLE, July 22.—Frank G. (Stubby) Mack, Seattle's young right-handed pitcher, has been sold by the Chicago Pacific Coast league baseball club to the Chicago Americans for cash and players, it became known here today. The deal was reported to aggregate in the neighborhood of \$50,000.

STRIKE RUINING THOUSANDS OF LOCOMOTIVES

LACK OF ENGINE REPAIRS MAY BRING R. R. TRAFFIC TO STANDSTILL

In Three Weeks More It Is Said Thousands of Engines Will Have To Be Ordered Out of Commission under Rigid Inspection Laws

WASHINGTON, July 22.—The motive power of all the railroads of the country will be seriously crippled, if not brought to a dead standstill, before many weeks, if the strike of shopmen continues, it was stated in official quarters today.

By the middle of August, locomotives of all the railroads will be legally unfit for service. Only by violating or "stretching" the federal laws governing locomotive inspection, can the big pilots be kept moving after that time, it was said. Locomotives require constant "barbering" to keep them in condition and the laws governing their inspection are rigid.

The ensuing week will see thousands of engines ordered out of commission.

At Sacramento 1; Seattle 7.
At Oakland 1; San Francisco 4.

PRACTICE SCHOOL GRADUATES WILL RECEIVE DIPLOMAS

Seventeen eighth grade pupils, who have been attending the summer practice school and have made the required number of credits to permit them to graduate, will receive their diplomas on Thursday evening, July 27th.

The graduation exercises will be held in the Congregational church, beginning at 8 o'clock. Mrs. H. C. Galey will make the address to the graduates, and the diplomas will be presented by County Superintendent Mrs. Susanne Homes Carter.

The graduating students are those who were behind on two or three subjects at the end of the school year and took the opportunity the summer course offered to make up in six weeks what otherwise would have required half a school year.

Next week will see the end of the normal school as well as the practice school, and indications are at present that the course has been far more successful this year than last. With the interest shown by the authorities of the state normal school, as well as other educational leaders, it is believed a sound foundation has been laid for a permanent normal school for Ashland in the future.

CAMP FIRE PERMITS MUST BE OBTAINED IN OREGON

Due to the forest fire situation in Oregon, Acting District Forester E. N. Kavanagh has issued instructions to all federal forest officers in the state to require permits for camp fires on national forest lands, to be effective immediately. It is the first time that such a rule has been put into effect in Oregon.

"The forests are very dry, many fires are starting and the extreme necessity of care with fire in the woods was never so important, and the public is urgently asked to realize this danger to Oregon's most valuable resource," says Mr. Kavanagh.

This Tuna Put Up a Great Fight

Capt. John Larson of Beach Haven, N. J., is nursing a bruised arm as the result of his share in the landing of this 572-pound tuna fish in the outer pound nets about one mile off the beach. Before the seaman landed the monster three of his men were knocked overboard from the dory and the pound net was ripped in several places.

MEDFORD MAN POSSESSES MONEY-BACK GAS METER

Frank Roberts, of the Gates Auto company, whose residence is at the corner of South Orange and Tenth streets, Medford, is lucky today. He can have all the gas in his house that he needs and still not pay for it. The meter, which works on the slot machine principal and which requires the deposit of a quarter, has been robbed. Someone has pried the bottom loose and has escaped with all the quarters. Frank first noticed this yesterday. All that he has to do now is to drop in the quarter. It falls through and he picks it up again, at the same time getting 25 cents worth of gas.—Mail Tribune.

JAP CHAUFFEUR HARAKIRIES BECAUSE OF TIRE PUNCTURE

TOKIO, July 22.—Because of a tire puncture sustained while his royal master was riding in his machine, the chauffeur to Prince Hirohito, regent of Japan, committed harakiri.

FIGHT ON HALL RECOUNT WILL BE KEPT UP

SALEM, Or., July 22.—Despite the fact that with the re-registration point eliminated from the Charles Hall petition for a recount of primary election votes, it would now be possible for the governor to demur to the petition, such action will in all probability not be taken, it was learned here today.

Several allegations stand out prominently in the Hall petition, as follows:

That, in certain precincts, more votes were counted for Olcott than were cast.

That a large number of votes for Hall were rejected.

That persons registered as democrats and independents were permitted to vote the republican ticket.

That votes were erroneously counted in excess of the number of ballots cast.

That democrats wrote Olcott's name on democrat ballots and that the boards placed their votes to the governor's credit.

That election boards refused to allow Hall challengers to be present during the canvassing of votes.

LYRIC THEATRE IS TO REOPEN IN THE FALL

The Lyric theatre, after having been closed for a year or two, is to re-open in the fall. Manager Hurst of the Vining theatre has begun the work of rehabilitating the old show house. Painters have been at work the past couple of days treating the exterior to a new coat of paint. A new moving picture machine will be installed as well as a battery of fans. It is the intention to redecorate the interior and make it as attractive as possible.

Manager Hurst has not as yet announced what class of attractions he proposes to book, nor has he announced whether or not there will be any lowering of prices, although it is believed that this is probable.

It was too late in the season when Mr. Hurst took over the management of the Vining theatre, to book any road attractions, but it was a part of his plans when he took the lease, to book road attractions similar to those which are regularly produced at the Page theatre in Medford during the season. The Vining is admirably equipped for this class of attractions and he is of the opinion that there is a sufficiently large theatre-going public in Ashland to make the venture a success.

Leaves for Denver

Mrs. Anna Ziegler left this afternoon on train 53 for Denver, Colo., where she expects to spend the next two months visiting.

Road is now paved from Hood River to the Pacific coast.

EIGHT KILLED AND 40 INJURED IN TRAIN WRECK

BABE RESCUED ALIVE LOCKED IN ARMS OF ITS DEAD MOTHER

Family Wiped Out When Fast Express Runs Into Open Switch, Crashing Head-On Into Special Standing on Siding.

SPRINGFIELD, Ill., July 22.—Eight were killed early this morning when the fast "Meteor" express of the St. Louis & San Francisco railroad, ran into an open switch at Logan, and crashed head-on into a special train, which was standing on a siding.

More than 40 were injured, and several probably fatally. Both locomotives were demolished. The track was strewn with wreckage.

The dead are Engineer Ryan, Fireman Nealey, Mr. and Mrs. Andrew Hamner and Bernice, aged two years, and a ten-year-old sister of Mrs. Hamner.

Marjorie, the little baby of Mrs. Hamner, was found in her mother's arms. Her 12-year-old son, who was alive when taken from the wreck, died within an hour.

It was hours before the rescuers could make their way into the mass of steel wreckage and reach the dead bodies.

FOUR BANKS ARE LOOTED; PRIESTS ARE INTIMIDATED

LONDON, July 22.—Four banks at Dundalk, 45 miles northwest of Dublin, were raided and large sums stolen today, according to a Dublin dispatch. Several unarmed priests, who were passing one of the banks, attempted to capture the raiders, but were warned off by the latter's pistols.

BIDS ASKED FOR LANGELL VALLEY IRRIGATION DITCH

WASHINGTON, July 22.—Sealed proposals for the construction of 11 miles of canal in the Langell Valley division of the Klamath reclamation project will be received at the Klamath Falls office of the reclamation service up to 3 o'clock August 31st. In making this announcement today the reclamation service said the work involves moving 190,000 cubic feet of dirt.

ASHLAND AS HOST TO SUMMER NORMAL AT DRIVE AND PICNIC

A splendid drive, was the verdict of the Normal school attendants last evening, as they landed at the Lithia park picnic grounds after a drive through the valley as far as Gold Hill and back over the west hill road, and through Jacksonville. There were some 75 all told in the party, and appetites were whetted for the bountiful supply of sandwiches, cakes, coffee and ice cream provided by the chamber of commerce committee.

This was the second event in the entertainment of visitors essayed by the chamber of commerce this week, about 150 Epworth Leaguers having been welcomed Monday evening with a similar picnic in Chautauqua park.

President W. H. McNair, of the chamber of commerce, was much in evidence at both these affairs. Mayor Lamkin made an excellent welcoming address to the Epworth League convention. "No speaking program, however, was held at the normal picnic.

Extending Ashland hospitality to these various schools, institutes, and other visiting bodies has become no small part of the chamber of commerce work, but it is one way of showing Ashland's charms and attractions, and the old scriptural injunction, "Cast thy bread upon the waters, and after many days it shall return to thee," will undoubtedly be verified many times as a result of these efforts.
