**HAND-PAINTED SLIDES TO BE SHOWN THIS EVENING**

Arrangements have been completed whereby a large assortment of hand-colored slides painted by Miss Mabel Russell, of Ashland, will be shown this evening at the Presbyterian church at 8 o'clock, under the auspices of the chamber of commerce.

The slides portray many vivid and beautiful scenes in southern Oregon and northern California. There are pictures of Crater Lake in the snow, star light on the lake, the big trees, the raging forest fire and the desolation that follows, Lithia park, Lake of the Woods, and the glory of the sunrise on Mount Shasta.

These pictures could not be made by one less familiar with the scenes depicted and surely do justice to the places of beauty in our vicinity.

A fine musical program will be rendered during the showing of the pictures by some of Ashland's musical artists. Miss Berna Haight, Miss Bernice Yeo and Mrs. John Shortridge are on the program.

There will be no admission charged, but an offering will be taken in the interest of obtaining more slides for the auto camp collection.

**FARM REMINDERS FROM O. A. C. EXPERIMENT STATION**

**How to Combat Garden Pests**  
The excessive drought and hot days of this summer are particularly favorable to the development of insect pests. The red spiders are especially serious on beans, cane fruits and hops, though almost all garden crops, horticultural and field crops may suffer serious injury. Sulphur in some form is the standard insecticide for the red spider. For limited areas, dust sulphur, using if possible superfine dusting sulphur, will prove the easiest and most practical treatment. For hops, fruit trees, etc., where liquid sprays are being applied, self-boiled lime-sulphur, "atomic sulphur" or very dilute (1-100) lime sulphur may be used.

Use Black Leaf 40 for Thrips  
Thrips are particularly serious on garden crops, such as beans, broccoli and onions. Black leaf 40 and soap or kerosene emulsion as used for aphid control is the standard spray for this insect pest.

Weights of Fleeces Vary  
The weights of fleeces obtained from sheep varies greatly with the

individuals in the flock. If the flock was culled each year disposing of all animals that did not come up to the flock average of fleece weight the return in wool would be greatly increased. Individual fleeces have shown as much as a four-pound increase in the average weight of fleece over a period of eight years when this practice has been carried out.

with gas around my heart. Couldn't breathe," many people say. No such choking or anxiety if you will take Baalmann's Gas Tablets, which are prepared especially for stomach gas and particularly for all the bad effects from gas pressure against your most vital organ—your heart.

That empty, gone and gnawing feeling at the pit of your stomach will disappear; that anxious, nervous feeling, with heart palpitation, will vanish, and you will once more be able to take a deep breath, so often prevented by gas pressing your heart and lungs.

These unique tablets are sold by Elhart's Drug Store and other reliable druggists. Be sure to insist upon the genuine Baalmann's Gas Tablets in the yellow package. J. Baalmann, Chemist, San Francisco.

**UNDER STRIKE CONDITIONS BEST EXPLAINED BY CHAIRMAN BEN W. HOOPER OF THE UNITED STATES RAILROAD LABOR BOARD IN HIS STATEMENT OF JULY 1ST, READING AS FOLLOWS**

"In this case the conflict is not between the employer and the oppressed employees. The people of this country, through an act of congress, signed by President Wilson, established a tribunal to decide such disputes over wages and working conditions, which are submitted to it in a proper manner. It is the decision of this tribunal against which the shop crafts are striking.

"Regardless of any question of the right of the men to strike, the men who take the strikers' places are merely accepting the wages and working conditions prescribed by a government tribunal and are performing a public service. They are not accepting the wages and working conditions which an employer is trying to impose. For this reason public sentiment and full government power will protect the men who remain in their positions and new men who may come in.

Adequate provisions have been made for the full protection of all new employees, the same as old employees who have remained loyally at work. Applicants should apply to the office of the superintendent at Portland (Union station), or to the assistant superintendent at Roseburg.
