LITTLE TALKS ON THRIFT

By S. W. STRAUS, President American Society for Thrift. THE greatest of faults," says

ing the lessons that our mis-

takes teath us. Failure, on the other hand, comes through the repetition of one's errors. To eliminate mistakes, as the result of the close study of one's

personal problems, is efficiency. It is this quality that distinguishes the thrifty man from the man who is thriftless. The latter continues the mistakes of wasting money, time, energies and opportunities. The thrifty man learns in the school of experience that these things mean retrogression. While he makes his mistakes he is personally organized along such lines of efficiency that he is not likely to repeat them. His practices of thrift and self-denial have developed will-power and character. Therefore his mistakes become sources of strength. Instead of millstones about his neck he makes them stepping stones to greater accomplishments.

Do not bemoan your mistakes. If you are a young man or young woman standing today on the threshold of life do not imagine that you will go through the journey without displaying shortcomings. The question of your success or failure in life will not depend on whether you make mistakes. It will depend on your ability to take advantage of them, to avoid their repetition and utilize them as necessary lassons in the development of character and judgment.
