## Why You Are Asked To Invest in the Production of

# FROM SHALE

1st—It is a proved proposition; not an experiment.

2nd-The supply of shale in this county is almost inexhaustible.

3rd—The cost of production is small, compared with the price oil brings in the world markets, leaving a large margin of profit.

4th-It is not a gamble; within a half hour after the Hartman Retort starts operations, it is producing oil.

5th—It brings to Ashland an industry that means a large pay roll and dividends.

6th—It will put into circulation in this county more real money than was ever dreamed of by the greatest visionary.

7th—The Hartman Retort begins making money for its stockholders the day it starts operations.

8th—It is up to you to say when operations shall begin.

9th—There is absolutely no risk; no wells are to be sunk; it is not a prospect, but a certainty; your stock becomes a dividend payer practically from the moment of investment, and

10th-No other investment today can offer such a large and certain return to the

Here is a statement which you should study

## The Game of "Just Suppose"

Of course you've played it! Just suppose you hand this or had that.

Just suppose you were going abroad this summer and that you didn't have to count the pennies.

Just supposing is pleasant but profitless.
