**Interested in Ashland—**

Mr. and Mrs. R. W. Borst, of Fullerton, Calif., and Mr. and Mrs. W. J. West, of Weed, were visitors in the city Saturday and Sunday. The gentlemen are both prominent citizens of their respective communities and were in Ashland to look over the shale oil outlook in this vicinity and bought a good block of stock in the Hartman syndicate.

**NOTICE**

After being urged by a number of citizens of Ashland, I have decided to become a candidate for the office of mayor, and have filed my petition in legal form. Having served as a member of the council for the past two years, I believe that I am qualified to assist in carrying on the business of the city in a just and economical manner. I am aware that it will take a great amount of time in the council chamber, as well as on the outside, but I am willing to give that much for the welfare of the city which I have chosen as my home, and if elected I promise to serve the city to the best of my ability. I earnestly solicit your support in this campaign.

DR. W. E. BLAKE.

THE UNIVERSAL TRACTOR

**Henry Ford**

**HENRY FORD** was 35 years getting ready for the new price on the Fordson. He started as a farm boy, planning to get rid of the drudgery, long hours and low money return that has always faced the farmer.

He wanted to furnish you with a tractor that would not only do your work better and faster, but at lower costs—and the 170,000 Fordsons now in use have proved that he has accomplished these things.

What you get in the Fordson for \$395 f. o. b. Detroit is the greatest farm power unit ever offered.

Let us show you how a Fordson will cut farm costs, increase your bank account and take the drudgery out of farm work. Write, phone or call.

**Why You Are Asked To Invest in the Production of OIL FROM SHALE ON DEAD INDIAN**

**FACTS!**

- 1st—It is a proved proposition; not an experiment.
- 2nd—The supply of shale in this county is almost inexhaustible.
- 3rd—The cost of production is small, compared with the price oil brings in the world markets, leaving a large margin of profit.
- 4th—It is not a gamble; within a half hour after the Hartman Retort starts operations, it is producing oil.
- 5th—It brings to Ashland an industry that means a large pay roll and dividends.
- 6th—It will put into circulation in this county more real money than was ever dreamed of by the greatest visionary.
- 7th—The Hartman Retort begins making money for its stockholders the day it starts operations.
- 8th—It is up to you to say when operations shall begin.
- 9th—There is absolutely no risk; no wells are to be sunk; it is not a prospect, but a certainty; your stock becomes a dividend payer practically from the moment of investment, and
- 10th—No other investment today can offer such a large and certain return to the investor.
