Winning a Senorita

TO BE successful in Spain—successful in love—one must be able to do something besides wave a muleta and dispatch angry bulls before the shouting multitude. Spanish brides are not won by cave man tactics. In fact the would-be bridegroom can't even call at the house. He must stand outside and play some musical instrument or sing. If he can't do either, he has to hire somebody to do it for him.

As Gallardo in "Blood and Sand," Rodolph Valentino, the Paramount motion picture star, was able to render the music most artistically.

Mrs. Hendrick Raises the Price On Her Husband

OAKLAND, Calif., Aug. 24.—If Mrs. Edith Spreckels Wakefield, divorced wife of the late John D. Spreckels Jr., capitalist, wants Rodney Kendrick, young San Francisco artist, she will have to pay Mrs. Nellie Kendrick, wife of the artist, \$25,000 or whatever the court will give her in an alienation of affection suit. Frank M. Carr, Mrs. Kendrick's attorney, so said here yesterday.

Mrs. Wakefield, who is suing her present husband, Frank Wakefield, San Francisco business man, for divorce, has expressed her love for the artist.

"Mrs. Kendrick decided today to go through with the alienation of affections suit," Carr announced yesterday. "The amount could not be less because of Mrs. Kendrick's 14-months-old child. Kendrick tried to see his wife in Alameda Sunday night to get her to drop the suit. He is trying to protect Mrs. Wakefield's interests. My client will also fight any divorce suit brought by Kendrick."

When informed of the proposed suit, Mrs. Wakefield said:

"I do not see how any suit can be filed for the alienation of Kendrick's affections, when Mrs. Kendrick spoke freely to every one of the fact that she wanted to divorce him."

Carr said he expected to file the complaint for Mrs. Kendrick in Oakland either Friday or Saturday of this week.

A CUCKOO.

A Philadelphia paper, running a "nature and science" series, queries its readers: "Have you seen this bird—the yellow-billed cuckoo?" To which a number have replied: "Yes, many a time. Habitat, restaurants, buying meals for women." The paper nonchalantly supplements this information with the following: "Mr. Cuckoo is a rather shiftless sort of father and husband."

BUILDING UP BUFFALO HERDS

Department of Agriculture Has Had Gratifying Success With This Part of Its Work.

Forty-six new buffalo calves are reported on three of the four game preserves maintained by the biological survey of the United States Department of Agriculture for the special protection of buffalo. On the national bison range, in Montana, there are 417 buffalo, including 28 calves born this spring. Fifteen calves are reported at the Wind Cave preserve, in South Dakota, and 3 at Niobrara, Neb.

The department has been very fortunate in maintaining the herds established at these three points and at Sullys Hill, North Dakota. There are relatively few large buffalo herds now scattered over the country, and the biological survey has made special efforts to provide suitable ranges and protection for what threatened a few years ago to become an extinct species of native American animal.

POSITIVELY THE LAST PUBLIC DEMONSTRATION OF THE

HARTMAN RETORT

for extracting

OIL FROM SHALE

8 P. M.—MAC'S GARAGE ON PIONEER ST.

It had been intended to give a private demonstration for the benefit of some people from Medford, Weed and Portland, who are interested, but upon the urgent request of a number of Ashland folks, who have not yet seen the demonstrator at work, it was decided to give

ONE MORE PUBLIC EXHIBITION

Those who have not seen the demonstrator at work, actually producing oil from the rock, within three-quarters of an hour after the retort is started, should not fail to be on hand. It will be the last time the demonstrator will be seen at work in public. It is interesting to the point of fascination, and whether you contemplate investing or not, you will be welcome.

For the convenience of those who are interested and want to know in detail the plans of the Hartman Syndicate, the office at 29 First street will hereafter be kept open until 9 p. m. This is done in order to give those whose time is occupied during the day, to call in the evening, when all information will be cheerfully furnished them.

The shares today are selling at Ten Dollars each. They will never be sold for less and the day the Hartman Retort starts to work on the Dead Indian holdings, there is every probability the values of these shares will jump and keep on the upward trend. Not a dollar's worth will be placed on the market beyond what is necessary for the work of construction and installation. Thereafter the subscription books will be closed.
