

## ALL ORGANIZED LABOR THREATENS TO STRIKE

### Greatest Enjoining Order Ever Issued Works Up Leaders: May Become General.

EXECUTIVE COUNCIL OF A. F. OF L. TO MEET SEPTEMBER 9 TO DISCUSS RECOMMENDATIONS FOR COMPLETE WALK-OUT.

WASHINGTON, Sept. 2.—Inflamed and aroused by the most drastic restraining order ever issued by a court in an industrial dispute, organized labor today projected the menacing shadow of a general strike across the country in answer to what Sampel Gompers bitterly and contemptuously described as "government by injunction."

From merely a strike of 400,000 shopmen, endangering the transportation system of the country, the strike is now magnified to a point where it threatens to affect all organized labor and engulf all industry, labor leaders privately declared.

The executive council of the American Federation of Labor will meet here a week from today in what promises to be the most momentous gathering of labor leaders in years. The council will decide whether to recommend a general strike to the unions throughout the country.

#### U. S. TROOPS MAY BE CALLED BY GOVERNMENT

## TIMBER AT BEND IS HINDERANCE TO DAM

BEND, Or., Sept. 2.—As soon as the water holding possibilities of the Crane Prairie storage reservoir site are satisfactorily demonstrated, 39,000,000 feet of timber, only a little more than 7,000,000 feet of it saleable, must be logged from the site, according to estimates of officials of the Deschutes national forest, within which the reservoir will lie. Lodge pole pine covers the greater part of the forested area of the 7700 acre site. Yellow pine, while comparatively scarce, is of good quality, and negotiations for its sale are already under way, with local milling companies, says John Dubuis, consulting engineer for the North Canal company, which plans by storing surplus flow of the Deschutes river at Crane Prairie to make possible the reclamation of 20,000 acres of now arid land.
