PROGRESS IS MADE TOWARD FREEING MINERS JACKSON, Calif., Sept. 8.—The attack at the mass of mud, rock and debris in the depth of the Kennedy mine made better progress in the last 24 hours than had been anticipated, and the 47 miners entombed in the Argonaut mine since the fire broke out Sunday night, August 27, were many feet nearer rescue today, if they still live.

But the advance of the diggers has made no appreciable difference in the chance of any of the victims surviving, for the break into the Argonaut mine is still days away.
