

## A. F. L. LEADER SCORCHES ACT OF DAUGHERTY

### GOMPERS OPENS 67TH CONVENTION OF TYPOGRAPHICAL UNION

### MINNESOTIAN SEEKS TO IMPEACH ATTY

Representative Keller Charges Injunction an Infringement Upon Constitutional Rights, Referred to Judiciary Committee for Probe.

### ATLANTIC CITY, N. J., Sept. 11.

A bitter attack on Attorney General Daugherty was made by President Gompers, of the American Federation of Labor, in his speech opening the 67th convention of the International Typographical Union. Gompers described Federal Judge Wilkerson, who granted the injunction against the striking railroad shopmen, as Daugherty's pet.

WASHINGTON, Sept. 11.—An attempt to impeach Attorney General Daugherty was made in the house today by Representative Keller, republican, of Minnesota.

Keller charged that in obtaining the railroad strike injunction in Chicago, Daugherty had "abridged the freedom of speech and press and the peaceful assemblage, in violation of the constitution," and that he had failed to make prosecution when evidence had been laid before him.

Keller's charges were referred to the judiciary committee for investigation.

CHICAGO, Sept. 11.—Federal Judge Wilkerson declined to render a decision on the motion to set aside the government's restraining order in the railroad injunction proceeding before him, when Attorney Richard, counsel for the unions, had finished his argument.

The court announced it would not pass upon the motion until after counsel for the government had presented its evidence.

## CITY WATER SUPPLY IS LOW: CHLORINE FOUND NECESSARY

Ashland citizens are again clamoring about the city water being doctored with chlorine, which has been unusually evident during the past week-end.

Chlorine has been used in the water continually for over a year, with the amount cut down during the summer to a minimum, according to Water Superintendent Hosler, who has charge of the chlorine plant.

The reason given for the great amount of chlorine in the water the past few weeks, is that the water at the upper intake is so low that all the gas released is drawn into the pipes, whereas during the spring, when the water was high, quite a bit of the gas escapes, as only a small portion of the water goes into the water mains. It is quite noticeable that the chlorine is much stronger when the upper half of the city is sprinkling than when the lower part of the city is using the water. This is explained by Mr. Hosler, who states that the upper intake must supply all the water for the higher part of the city, while the lower part is supplied from the lower intake where there is a larger storage of water.

The last report on the condition of the water showed that, while not of the highest possible quality, yet is not considered as being really bad. Tests of water taken from the creek, however, show that it is not fit for human consumption, and should not be used with first boiling.

When asked what caused the water to become infested with the disease-carrying germs, Mr. Hosler stated that he was informed by the state authorities that picnicking and camping parties above the intakes were responsible for the condition of the water. This was the reason a

## PRISONER HEARS OVER RADIO PLAN TO FREE HIM ON MURDER COUNT

BOSTON, Sept. 11.—While listening to a radio concert with fellow prisoners, George Rollins, who, with his brother Charles, is locked up charged with murdering two A. & P. store managers, heard the news of an effort to free him.

With a party of other inmates, George was seated in front of the radio horn. The evening news bulletins were the first heard, in which were the pardoning of Jesse Murphy in Pennsylvania, and of the arrangements being made to bring him to Boston to face trial on charges of slaying the A. & P. store men. Murphy has confessed to the crime for which the Rollins brothers were convicted. George was over- come with joy at the news. His inmate companions cheered the news.

## RESTITUTION MADE AFTER 16 MONTHS

Sixteen months after his store was burglarized O. H. Johnson, jeweler, is again square with the world, and is singing the praises of the Pinkerton detective agencies and the work of H. W. Hatcher, local chief of police.

On the night of May 29, 1921, a piece of glass in the display window was removed, and three binoculars taken. Finger prints were obtained and a description of the stolen articles sent broadcast to every police station and jeweler in the country.

Recently a man was arrested at Longmont, Colo., for robbery of a post office. A check on him revealed he was wanted here. Johnson received two of his binoculars about three weeks ago, and a day or two ago received a check covering the cost of the third glass, from which was deducted the amount of the reward offered for the return of the glasses.

Chief of Police Hatcher, who was active in the apprehension of the robber, and J. R. Calloway, Longmont police chief, were both complimented greatly by Mr. Johnson for their untiring efforts and the great amount of correspondence necessary. As Calloway received the cash reward, Mr. Johnson showed his appreciation to the local officer by presenting him with a gold watch this morning.

## ENGINE WRECKED 2 DEAD; 2 MAY DIE

MACON, Ga., Sept. 11.—E. M. Lazur, a conductor, and Charlie King, a negro coal handler, were killed, while J. B. King, a fireman, and Walter Moody, a Macon, Ga., business man, were so badly injured they may die, when a railway engine went into a ditch near here.

Officials of the road said spikes had been removed from the track.

## MRS. KITTY HUNTSBERRY MARRIED AT BAKER, OR.

The many friends of Mrs. Kitty Huntsberry will probably be surprised to learn that she has again entered upon the sea of matrimony, having married a Mr. Hart, of Baker, Or., on Sunday, September 3, at that city.

Mr. Hart is a wealthy rancher of Baker county, but is not known in this part of the state. Mrs. Huntsberry is well known in this city, and has a host of friends who will wish her many years of wedded bliss.

guard was appointed some weeks ago to keep picnic parties out of the upper reaches of the canyon during the summer, and Mr. Hosler says he believes a guard should be kept in the canyon during all that part of the year when camping and picnicking are possible. He further stated it would be a profitable investment to fence in the water shed and keep out of it all persons except those having business there.

## War Doesn't Check Demand for Bibles in China

In spite of civil war and political upheavals in China, the American Bible society recently shipped from its headquarters in Shanghai to its sub-agency in Peking the largest single consignment of Bibles in the history of the society's work in China. The photograph shows coolies hauling a portion of this consignment through the streets of Shanghai. The complete shipment consisted of 104 cases containing 187,000 volumes.

## CRISIS IS PASSED BY MRS. HARDING AT WHITE HOUSE

WASHINGTON, Sept. 11.—After lingering between life and death for three days, Mrs. Harding is improving. A contemplated operation upon her kidneys has been deferred pending further developments, according to an official bulletin issued at the White House.

The president and others, who have been constantly in attendance on Mrs. Harding since she became critically ill, are greatly cheered by the encouraging reports coming from the sick room during the day.

## CASUALTIES MANY IN DOMESTIC ROW

PORTLAND, Or., Sept. 11.—This tale of real life, rivaling the fable about the "Horse that Jack Built," is a story about the cop that arrested the Jap that owned the dog that chased the cat and bit the cow that kicked the man and broke the arm that held the pail that spilled the milk; about the same cop who called the doctor, who called the ambulance and the humane society officials who called the veterinarian. The story:

Joe Niemy was milking his cow in his barn, near which K. Kasoaka kept his automobile. Kasoaka, with his white bulldog, was going into his garage when the dog spied a cat and chased it.

The cat led the chase near Niemy's cow, and when the dog saw the cat was going to get away it bit the cow instead. Whereupon the cow kicked Niemy, broke his arm and spilled the milk.

Patrolman Ingle, sent to the scene, notified the emergency hospital and the humane society. Niemy was sent to the hospital and a veterinarian was called to care for the cow. And then the cop completed his job by arresting Kasoaka for permitting a vicious dog to run at large.

## MODERN WOODMAN DEPUTY LEAVES FOR ROGUE RIVER

James Walsh, district deputy of the Modern Woodmen, left this morning for Rogue River, where he will meet Walter M. Pierce, democratic gubernatorial nominee, who is to deliver an address at that place tonight. From there, he will accompany Mr. Pierce to Grants Pass, where the latter will deliver an address Tuesday night.

Mr. Walsh will meet Deputy Head Consul Rees, of the Modern Woodmen, at Grants Pass Tuesday, and will escort him over the southern Oregon district, and make him acquainted with as many of the members as possible.

Mr. and Mrs. E. D. Briggs have returned from a short visit in California.

## BASEBALL RESULTS TODAY

National League  
At New York 7-7; Boston 6-6.  
American League  
At Philadelphia 4; New York 9.  
At Washington 11; Boston 3.  
Pacific Coast League  
(Yesterday's Games)  
At Portland 8-1; Los Angeles 1-2;  
At Oakland 1-2; Sacramento 4-0.  
At Vernon 0-4; Salt Lake 1-0.  
At Seattle 4-1; San Francisco 11-2.

## ASHLAND STATE BANK OPTIONED TO NEW PEOPLE

As reported in Saturday's Tidings the Ashland State bank has been sold, and a deposit of \$5000 has been put up to bind the deal. It is understood that the new owners will take charge of the institution in a short time.

J. C. Hopper, a wealthy stockman and banker from Hutchinson, Kans., is one of the heavy stockholders in the institution, and is associated with J. H. Fuller, C. W. Banta and a number of other Ashland citizens.

Mr. Hopper left the latter part of the week for southern California, where he will remain a short time, and the local members of the new organization are endeavoring to sell the balance of the stock before his return. Less than 50 shares remain on the market at the present time.

Inasmuch as Mr. Hopper is the heaviest stockholder, it is expected that he will be chosen as president of the bank, but according to the banking laws, he must establish a residence here before he is in a position to be placed in such an office.

The other officers of the bank will be selected as soon as certain details are worked out, but at present no information is obtainable as to who will hold the various places of trust.

## COTTAGE GROVE DOCTOR WELCOMES 1000 BABIES

COTTAGE GROVE, Or., Sept. 11.—During his residence of 18 years and six months in Cottage Grove, Dr. A. W. Kline has officially welcomed 1000 babies into the world. No. 1000 arrived a week ago at the Tom Queener home near this city, on the doctor's 64th wedding anniversary.

## SANTIAM FIREFIGHTERS WILL BE DISMISSED

ALBANY, Or., Sept. 11.—All observers and firefighters of the Santiam national reserve, ten in all, will be dismissed early this week, according to an announcement made by C. C. Hall, supervisor, here today. This action is taken since the fire danger for this season is practically at an end. Snow covered the higher peaks of the Cascades last week, and recent rains have dampened the lower parts of the forest reserve.

## MANY ARE KILLED DURING WEEK-END RIOTING AT DUBLIN

DUBLIN, Sept. 11.—(By courier to London.)—Many persons were killed and wounded in the week-end fighting in Dublin, preceding an attack by adherents of DeValera. Officials believe the irregulars are trying to create a reign of terror.

Telegraphic communication between Dublin and England has been cut off since 6 o'clock Sunday evening as a result of the strike of Irish postal employees, who operate the Dublin telegraph station.

## 37 MILLION BILL PASSED BY SENATE

WASHINGTON, Sept. 11.—The new rivers and harbors bill, authorizing the expenditure of \$37,000,000 on waterway transportation in all sections of the country, was passed by the senate. As the house had previously adopted it, the bill now goes to the president.

## ANTLERED HERD PLANS EASTERN OREGON MEET

SEASIDE, Or., Sept. 11.—The Dalles has been chosen unanimously for the sixth annual convention of the Oregon State Elks' association at the final meeting of that organization held here last week. This action followed the invitation of R. A. Twiss, exalted ruler, of The Dalles. Officers elected for next year, at once inducted into office, follow:

President, W. F. McKinney, Portland; first vice-president, Ben F. Dorris, Eugene; second vice-president, A. K. McMahon, Albany; third vice-president, R. A. Twiss, The Dalles; treasurer, C. A. Hayden, Klamath Falls.

## PLAN MONUMENT AT RATTLESNAKE POINT

KLAMATH FALLS, Sept. 11.—Erection of a monument to the pioneers of Klamath county at Rattlesnake Point, scenic spot on The Dalles-California highway near here, is the proposal of R. H. Cook, local photographer. With this in view, Cook arranged to have Captain O. C. Applegate, Modoc war veteran, and Klamath's "grand old man," pose for photographs on a pile of rock at the proposed site. The picture showed Captain Applegate, clad in buckskins and carrying a rifle, gazing over Klamath lake. Cook believes a bronze monument erected at the spot would be a mark of esteem for the pioneers as well as a valuable advertisement for the highway.

In Portland for a Few Days—E. H. Bush is spending a few days in Portland looking over his old stamping grounds.

## HIGH POST OFFICE IS SENT BY MAIL TO TOWN IN UTAH

SYRACUSE, N. Y., Sept. 11.—Donald Chase, returning from a western trip in the interest of the American Legion, tells a story of a \$125,000 post office which is being shipped by mail. Vernal, Utah, is the town that is erecting its federal building through the assistance of the parcel post. The city is 150 miles from the nearest railroad. Government officials did not like the idea of paying big bills for the hauling of material from the railroad. So Vernal's federal building is being shipped in by mail, brick by brick, and while it may take time to assemble it, the materials will be taken to Vernal by parcel post employes in the ordinary course of their business.

## CONVICTS LIKE PEN: NONE LEAVE IN YEAR

SALEM, Or., Sept. 11.—When S. S. Corbin, serving two years for larceny from Multnomah county, escaped from the penitentiary September 8, 1921, he probably had no idea that he would be the last man to leave the institution without permission for more than a year. But such was the case. When September 8, 1922, rolled around there had been no escape during the preceding 12 months, probably the longest period in the history of the prison without an escape. An examination of the records for 10 years back shows it conclusively to be the longest record for that period of time.

## ILLINOIS PICNIC TO BE HELD IN LITHIA PARK

An Illinois picnic will be held in Lithia park Wednesday, September 13, and a big basket dinner is on the program at noon.

Every citizen of the valley who has ever lived in Illinois is invited to attend this picnic with his or her family, bringing a well-filled basket. It will be a chance to meet old friends and enjoy a day in the cool of the park.

The picnic grounds in the upper end of the park will be the scene of the festivities, and those who attend are assured there will be no long speeches and no cut and dried program, but a general good time is promised.

## NEAR EAST WANTS MORE PROTECTION

CONSTANTINOPLE, Sept. 11.—Fighting between Turkish Mohammedans and Christians, in which several persons were killed, is reported from Pera, a suburb of Constantinople.

GENEVA, Sept. 11.—Greece has appealed to the League of Nations to intervene in the Near East for the protection of Greek Christians in Turkey.

## FAIR VISITORS URGED TO PURCHASE TICKETS NOW

Prices for admission to the Jackson county fair have been announced by the board of directors, who urge those planning on attending the exposition to buy their tickets early, to help speed up the passage through the gates. General admission has been set at 50 cents for adults and for children between the ages of 10 and 16, a charge of 25 cents will be made. Adult admission after 7 p. m. will be 25 cents. Adult season tickets which permit the holder to leave and enter the grounds at will, are \$2.50, with \$1 for children's season tickets.

Each person in automobiles parked inside the race track will be charged 25 cents, with a minimum charge of 50 cents per car. No extra charge will be made for the admission of automobiles to the fair grounds. General admission to the grandstand is 50 cents, with a charge of \$1 for reserved seats in boxes.

## TWO DAUGHTERS MISSING: MAN IS HELD IN JAIL

### SECOND BODY OF YOUNG GIRL FOUND IN MISSOURI RIVER

### DEATHS OCCUR 2 WEEKS APART

Efforts Being Made to Link Up Finding of Bloody Sledgehammer With Disappearances; Bodies Not Yet Identified.

KANSAS CITY, Sept. 11.—The body of a young girl, with a hole crushed in the back of her head, was found floating in the Missouri river at Napoleon, 13 miles from here. She was about 11 years old.

It is the second girl's body found in the river in the last week. The mutilated body of a girl, about 14, was found in the river near Kansas City last Monday.

Immediately after the finding of the second body, police put Tony Nell, 47, then under arrest at Kansas City, Mo., through a severe grilling. His two daughters, of the same ages as the dead girls, have been missing more than a week. A sledge hammer covered with blood was found in a shed back of the Nello home. Although Nello stoutly maintained he did not kill his daughters, Mrs. Nello was taken to the morgue in an effort to identify the bodies.

### PORTLAND OFFERS PRAYERS FOR WIFE OF PRESIDENT

PORTLAND, Sept. 11.—Special prayers were offered in Portland churches yesterday for Mrs. Harding, wife of the president.

"There had been expressed a very keen interest in the condition of Mrs. Harding," said Dr. Ray E. Close, executive secretary of the Portland council of churches, "and a spontaneous movement was noted to have prayers for her in the churches Sunday."

## ENGLISH AIRSHIPS MAY BE SENT TO PROTECT THRACE

LONDON, Sept. 11.—The Greek army, which was massed in Thrace to menace Constantinople from the north, is withdrawing, according to advices received from Constantinople.

The newspapers predict the allies will concentrate a fleet of British airships along the Dardanelles and the Sea of Marmora to prevent the Turks from trying to cross into Thrace.

### HEAT RECORD OF 42 YEARS IS BROKEN LAST SUNDAY

Breaking all previous records for hot weather during the month of September, the mercury climbed to an altitude of 103 degrees Sunday, with a temperature of 97 for Saturday and 98 for today.

Not during the past 42 years has Ashland had such a hot day in this month, while the nearest approach to the recorded heat yesterday was in 1888, when a temperature of 102 was reached.

The hottest day this year was July 2, when a temperature of 106 was recorded.

### BAD BLACK BEAR IS KILLED AT THE DALLES

THE DALLES, Or., Sept. 11.—A big black bear, weighing more than 300 pounds, which had been killing sheep for several months past on the ranch of D. P. Ketchum, was finally trapped at the head of Mosier creek and killed, according to word received here today.

A tethered lamb was used as a lure, and the bear, thinking to make another killing, walked directly into a trap.

ASHLAND CLIMATE, without the aid of medicine, cures nine cases out of ten of asthma. This is a proven fact.

MALARIA GERMS cannot survive three months in the rich ozone at Ashland. The pure domestic water helps.
