TURKS WILL NOT MAKE ADVANCE STATES KEMAL

ORDERS ALREADY GIVEN TO HOLD TERRITORY NOW OCCUPIED

LABOR PARTY DEMANDS PREMIER'S DISMISSAL

Immediate Peace Conference Wanted Also; War Plans Being Considered Daily by British Cabinet; Rumors Cause Market Slump.

CONSTANTINOPLE, Sept. 29.—Mustapha Kemal, commander in chief of the Turkish nationalist army and president of the national assembly at Angora, sent a communication to General Harrington, the British commander in Constantinople, informing him that the Turkish troops were under orders to hold the positions they have occupied in the neutral zone on the Turkish straits, and not to advance further. This indicated that the Turks will not attempt to force their way across the straits into Europe. The communication is also said to be conciliatory in tone, and leading to the belief that Kemal and Harrington will hold a conference in a day or two in an effort to reach an agreement.

LONDON, Sept. 29.—Kemal's communication, stating that the Turks will not advance further, is not acceptable to the British government, it was stated in Downing street today. British officials stated that the Turks must leave the neutral zone, but that Harrington had been instructed to use his own discretion as to the time limit for the withdrawal.

LONDON, Sept. 29.—The dismissal of Premier Lloyd George is one of the demands contained in a manifesto being circulated by independent laborites. It charges that the capitalists dictated the Near East policy. The manifesto also demands a recognition of Turkish peace, an immediate peace conference, and the summoning of the British parliament.

LONDON, Sept. 29.—The British cabinet is meeting daily to consider "war plans." It is reported that the government has placed tentative orders for war materials, mostly munitions. Most British officials have little faith in Mustapha Kemal. They suspect he is delaying replying to the allied peace note for the purpose of gaining time and strengthening his forces around the allied neutral zone on the Turkish straits.

LONDON, Sept. 29.—An unfounded rumor that England had declared war against Turkey caused a price slump on the London and Liverpool markets. British officials said they could not account for the rumor.

FOUR BOYS IN COURT CHARGED WITH SMOKING

Four boys, ranging in age from 11 to 16, appeared in Justice Gowdy's court Thursday afternoon, to answer to the charge of smoking cigarettes and having the same in their possession.

The boys claimed that an unknown lad had given them the cigarettes, and that they had found the package which they had with them when taken in charge by the officer.

The lads were released without any fine being assessed, but the court may not be so lenient, if they are found disobeying the law in this respect again.

CARMEL, N. Y., Sept. 29.—James A. Stillman, former multimillionaire president of the National City bank of New York, lost his suit for divorce against his wife, Mrs. Anne Urquhart Stillman, when the referee handed down a decision holding Stillman guilty of misconduct with Mrs. Florence Leeds, former chorus girl, thus completely exonerating Mrs. Stillman of the charges the plaintiff had filed against her.

The decision establishes the legitimacy of Mrs. Stillman's little son, Guy, which had been attacked by the banker, who alleged that Fred Beauvais, a Canadian guide, was the father of Guy.

COP IS COPPED FROM HIS BEAT BY LOCAL LODGE

While patrolling his beat Thursday evening, Webster Wertz, night officer, was met by about 50 persons, relieved of his club and star, forced to march down Main street, and then feed the entire aggregation at the Nelda cafe. After calling in several other officers, Wertz made his escape and the bunch disappeared.

"The entire crowd were dressed in robes and may be of the Ku Klux variety," declared Officer Wertz this morning. "It was impossible to identify anyone, but we were able to obtain several fingerprints by which their identity may be established. This was one of the boldest raids ever pulled off in the city, and may be a forerunner of what may be expected this winter from the large number of hoboes that are traveling through the country."

Though Officer Wertz feels confident that he knows a few of those who were in the crowd, no arrests will be made, the patrolman considering himself lucky to get away while still alive. Wertz finally admitted that those who kidnaped him were all ladies from a local lodge, and he took the joke in the same spirit that it was offered.

WINBURN DONATES \$5000 FOR PIERCE CAMPAIGN EXPENSE

Contribution of a check for \$5000 to the campaign fund of Walter M. Pierce, democratic candidate for governor, has been made by Jesse Winburn, who heard Mr. Pierce speak here Labor day, when he appeared in the capacity of a Woodman of the World, and again a few days later, when he made a political speech in Lithia park.

In his letter to Senator Pierce, accompanying the check, Winburn said:

"I am an eastern man, who has come to Oregon to live, because here I find in the climate, the scenery and the soil, an environment that appeals to me strongly. I came with the intention of making an investment in an enterprise of considerable magnitude, but upon investigation, I find that the taxes on the contemplated investment are so heavy as to make the profits on it highly problematical. As a matter of fact, taxes in Oregon, based on population, are higher, and its bonded indebtedness larger, I am told, than in any other state in the Union."

"Recently I heard you speak in Ashland on the subject of taxation, and your sound reasoning, your common sense views, your proposals for the equalization and reduction of taxation, and your general policies impressed me profoundly."

In concluding his letter, Mr. Winburn says:

"I well know that an administration which has increased taxation to the point now reached in Oregon is not the administration to put taxation down. So I favor a change and I believe that a change in governorship to Walter M. Pierce will do two things:

"Increase the population.

"Decrease the taxation.

"That is why I am for you, and why I hope you will accept my contribution."

If Siki is successful in the first bout, a match with Wills or Dempsey will follow.

MASONIC BUILDING ON PLAZA IS OVERHAULED

The Masonic building, on the Plaza, in which the post office and the Plaza confectionery is located on the ground floor, and the Masonic temple on the second floor, has been receiving considerable attention during the last few weeks in the way of general repairs.

A new sewer and drain pipe system for the building has been put in that will be a great improvement over the old system.

Owing to a complaint from the state, and from the company in which the building is insured, the entire property was recently rewired, making several changes in the location of lights and sockets and other changes requested by the state inspector and the insurance company.

INDIAN FOUND DEAD IN KLAMATH ROOMING HOUSE

David Solomon, a Klamath reservation Indian, aged about 30, was found dead yesterday evening in his room in the rooming house above the Houston & Phelps grocery store, Eighth and Main, says the Klamath Falls Herald. A post-mortem examination was being held this afternoon to determine the cause of his death.

The fact that the pockets of Solomon's clothing were turned inside out, and the presence of a bottle, which had evidently contained moonshine, pointed to suspicious circumstances, and it was determined to hold the post-mortem examination.

TOOTH OF ANCIENT HORSE IS FOUND NEAR BEND

BEND, Or., Sept. 29.—A mineralized tooth, more than four inches in length, found in Newberry crater by Peter Valley of Bend, has been classified by United States biological survey officials at Washington, D. C., as that of a horse, probably an extinct species.

MEDFORD DAY IS HUGE SUCCESS FOR DR. PRICE

PRESBYTERIAN CHURCH OVERFLOWING WHEN EVANGELIST HOLDS FORTH

CAMPAIGN WILL CLOSE NEXT SUNDAY EVENING

Another Divine Healing Meeting to Be Held This Evening, with Evangelistic Services Saturday and Three Services Sunday.

Thursday was Medford day in the Price revival campaign that is being conducted in this city, and Dr. Charles S. Price took his corps of workers over to the Presbyterian church at that place. Dr. Price conducted a healing service both in the afternoon and at night. The church was packed to the limit at both services, hundreds being turned away, and during the evening services, the crowds were surging on the street and even hanging onto the windows on the outside of the church to get a glimpse at the wonderful things that were happening on the inside.

After the evangelist had preached from the text, "And Phillip went down to Samaria and preached Christ," he told of the power of the old time gospel, and said that he believed that Jesus was the same today as yesterday, and would be forevermore.

The healing line followed. It was mostly for children, and the first girl prayed for, fell under the power and had to be carried to her seat. Dr. Price explained to the audience that these manifestations had attended all great evangelistic meetings in times gone by, and said it was the old time power of God. In all probability, one half of the people prayed for, fell underneath the power of God. Pain was instantly lifted from the sufferers. One girl started to melt as the evangelist prayed, and the preachers on the platform praised God for the wonderful things that they had seen. The great audience was moved. The preachers stated that it was the mightiest demonstration of divine power they had ever witnessed, and said it reminded them of the days of Pentecost. The altar was crowded with penitents to such an extent that the front seats had to be cleared and made into an additional altar.

The meeting last night was the greatest in point of power that the evangelist has ever conducted. The first 37 people who moved across the platform were so filled with the power of God that they had to be carried to their seats in the church. Out of 50 people prayed for, 47 fell under the power of God. The Lord was present in such a mighty way that twice Dr. Price collapsed and had to lay on the floor at one time to get control of himself. During the last half of the healing service, the evangelist was literally held up in the arms of two of the preachers. One deaf and dumb girl heard and spoke. One girl, suffering with tuberculosis, said she felt the glory of God go through her lungs, and she shouted notes of praise. One girl with a diseased hip, said it felt like an electric battery was attached to her limb and the power was running through her. As the power lifted from these bodies, some cried aloud and praised the Lord, and the audience frequently broke into applause.

One Presbyterian minister and his wife were in the healing line, and they both fell under the power and had to be assisted to their seats. One girl melted away to such an extent that the preachers were crying "Look, look!" and some of the audience broke from their seats and came forward to the front of the church. It was a great night in Medford.

Dr. Lawrence, the pastor of the church, asked the audience if they wanted the evangelist to conduct a campaign in Medford, and it looked as if every hand in the building went up. Half way during the healing service, the preacher asked if the people there believed in divine healing and that Jesus would heal the sick today. Every hand went up, it seemed.
