## STEAM BEGINS TO ARISE FROM POLITICAL POT

### CANDIDATES FOR CITY OFFICES HAVE FILED WITH CITY RECORDER

### TWO FULL TICKETS OUT FOR CITY OFFICES

#### Factions Promise Fight; Three Terms on Park Board Expire; Recorder and Treasurer Jobs Attract One Each to Date.

With but four more days in which candidates may file with the city recorder, the political pot, which has been simmering for some time, is almost at the boiling point, and a lively campaign is predicted to occupy the intervening time between now and the general election, Tuesday, November 7.

Candidates for the city government have stepped forth and declared themselves, two complete city tickets having been filed, the final names being received Saturday afternoon. One name appears for the office of city recorder and though there will be three vacancies on the park board, no names have been filed up to the present time.

In the race for election to fill the office of mayor and the seats for the city council, an effort is being made to inject new blood into the city government.

Supporting the ticket represented by C. L. Loomis as a candidate for mayor, are S. A. Peters Sr., M. C. Lininger, Dr. R. L. Burdick, H. G. Wolcott, Mrs. W. M. Barber and Mrs. W. J. Wallace, as candidates for city councilmen. The opposition faction, headed by Dr. W. E. Blake as aspirant for the mayor's office, is supported by Irving Findley, A. C. Joy, C. H. Pierce, L. A. Moss, A. M. Beaver and G. N. Frost.

Gertrude Biede, present incumbent, has again filed for the office of city recorder.

Though there will be three vacancies on the park board, aspirants for the offices are backward about filing their names. Hal McNair, G. S. Butler and Mrs. F. D. Wagner will not be on the board this next term, their duration of office having expired, unless they disclose their intentions of running for re-election. The holdovers are Frank Jordan and Mrs. Henry Vaupel.

Late this afternoon, Sylvester Patterson declared himself, and stepped into the political ring, when he filed for the office of city treasurer.

It is also understood that the supporters of Loomis met today, and unanimously endorsed the candidacy of Gertrude Biede for city recorder.

## CHAMBER OF COMMERCE TO MEET TUESDAY NIGHT

A meeting of the chamber of commerce is scheduled to be held Tuesday evening in the city hall, at which time Major William T. Morgan will address the members present. Matters relative to the advancement of Ashland interests will also be brought up for discussion at the meeting, and every member is urged to be present.

The regular meeting of the city council will be held the same evening in a downstairs room of the city building.

WASHINGTON, Oct. 2.—The United States does not intend to be stampeded into the warfare that now hangs over the Near East, and which is threatening to engulf Europe, it was made plain by the highest officials of the Harding administration.

Neither sentiment stirred up by League of Nations advocates, nor critical utterances by various church leaders will be able to move the administration to any hasty or precipitate action in the Turco-Grecian crisis, it was stated officially.

In view of this fact the government has decided to make a permanent record of what remains of their peculiar type of civilization. The film will be preserved for educational and historical purposes.

## HI SCHOOL BAND OF THIRTY PIECES ASSURED ASHLAND

Assurance of a high school band of nearly 30 pieces before the winter is over is made by Carl H. Loveland, director of that musical organization.

Though several of the boys were lost by graduation last spring, sufficient new material is available to make the band a success. Practices are held twice a week, on Tuesday evening and Thursday after school. A majority of the members at present were playing last year, and any boy that is interested in any band instrument is invited to try out for the organization.

The band boys met recently and put the players on a business basis, with an election of officers and the drafting of a set of rules and regulations pertaining to the members. It was decided to levy a small fine upon absent and tardy members who could not offer an unimpeachable excuse. Officers recently elected were: Marcus Woods, president; Vernon McGee, vice-president; Dale Leslie, secretary; Orville Hall, treasurer, and Joe Neil, manager and librarian. The personnel of the organization at present is:

## PROGRESS KEYNOTE CHARLES L. LOOMIS' MAYOR PLATFORM

Being a candidate for mayor of Ashland, I make the following statement of the policies I stand for, and the position I take on the issues of the campaign:

The first consideration of a city should be the health of its people. I am, therefore, in favor of taking every precaution to protect the water of Ashland creek from pollution. It must be kept pure.

I believe in the enforcement of the laws, particularly those against gambling and bootlegging.

I am opposed to factions in Ashland, and promise, if elected, to be the mayor for all the people, rather than for a part of them. My slogan is this: "The way to get action is to unite every faction."

I am in favor of the new hotel project. We have the scenery, the climate, the soil and the people—everything here except a modern hotel to attract newcomers. Let's get that hotel!

I am proud of Ashland's fine reputation everywhere in the matter of schools and education, and I favor any suitable action looking towards the re-opening of the normal school. I am in favor of having all offices and all positions on the city's payroll filled by citizens and taxpayers of Ashland itself. No outside place-holders!

I believe that when the people vote in favor of anything they should get it, and I am opposed to all forms of trickery, particularly the so-called "jokers" that are often used to deceive the voters. I believe that being on the level is the highest form of American citizenship.

The present water supply for Ashland is inadequate, and I favor taking immediate steps toward increasing the supply through such measures as the people may adopt.

I believe the mayor and city council should give their moral influence and support to all practical projects for profitably utilizing the fruits and vegetables of this community. At present, thousands of dollars worth of local products go to waste for lack of canning and preserving facilities.

On these principles I ask to be judged.

(Signed) CHARLES L. LOOMIS.

## DOVE OF PEACE HAS NOT YET SETTLED IN WAR-TORN EUROPE

LONDON, Oct. 2.—While the Near East situation has cleared as a result of arrangements for an armistice between the British and Turks at Mudania tomorrow, British officials have declared the danger of a war in Asia Minor is not yet completely passed.

Great Britain, it was stated, will not assist in putting down any Greek uprising in Thrace, unless the Turks leave the neutral zone along the Straits. Shipments of British reinforcements and munitions to the Dardanelles will not cease until the neutral zone is cleared of Turks.

Serious Greek disorders are reported from eastern Thrace, where the Greek troops, supporting the revolutionary administration at Athens, are clamoring for war against the Turks to prevent their occupation of Thracian soil.

CONSTANTINOPLE, Oct. 2.—The Greek commander in chief in Thrace has notified the allied high commissioners, that Greece is unable to respect the neutral zone in the Techalja region, north of Constantinople, unless attacks upon Greeks by roving Turkish bands in that district are stopped.

## Water Let Out from Dam

The gates at the Savage Rapids dam of the Grants Pass irrigation district are being let down. This was done after the water had been let out from behind the dam, so the flood would not wash anything from below. The water was turned through the gates under the dam, taking about 12 hours to let out what had collected. This slow draining of the dam pool will prevent the stranding of fish. ## S.R.O. SIGN IS HUNG FOR COMING SERIES

NEW YORK, Oct. 2.—There is not enough money in the world to buy a reserved seat for the world's series at either of the local baseball headquarters. Both have sold out to the tune of 18,000 daily, and only the fact that 22,000 unreserved seats are to be placed on sale the day of each game will give the late comer a morsel of comfort.

Regardless of the crying demand for seats, it is obvious that the old enthusiasm is not there. Local fans are a bit weary of championship ball clubs and the interest in the outcome of the series may be said to be almost nil.

## ELECTRIC RAILWAY MEN CONVENE AT CHICAGO

CHICAGO, Oct. 2.—Virtually every type of vehicle used in local transportation during the last hundred years got into the picture at the American Electric Railway Association convention, which opened on the Municipal Pier here today. ## TABERNACLE IS PACKED FULL AT FINAL SERVICE

### SUNDAY NIGHT GATHERING WAS LARGEST DURING PRICE CAMPAIGN

### CROWD ARRIVES LONG BEFORE THE HOUR SET

#### Greatest Religious Series in History Of Ashland Ended After Four Weeks; Evangelist Returns to Home at Lodi, Calif.

"The Acts of the Apostles continued" has been the greatest thing that has ever struck Ashland, socially, financially or religiously speaking. The apostles have gone, but the spirit and power of these meetings that have just closed, will live on throughout this generation, and will echo away beyond, and cast shadows a-down the history of Ashland in years to come. All the services have been filled with the illumination of God's glory through Dr. Price, and the effects have been "Price-less" in more ways than one—to us, our children, and to many afar off, whom the Lord had called to be in our midst.

Last night marked the close of the campaign, and was the most largely attended of any of the entire four weeks of the meeting. An hour before the time the building was almost full, and crowds kept coming, until it was a capacity house before the service was over.

On Saturday afternoon, after a testimony meeting, Miss Evelyn Carvell delivered the message, Dr. Price resting for the after-healing service. The talk was mostly for children, as it was children's healing day. She took as her subject, "a fish story," and illustrated plainly, so the smallest child could understand, that we could be just little worms, our life spent on hooks to catch and win souls; that we, as worms, did not catch the fish, but were just instrumental in the hook getting them. About 100 children were prayed for. One little girl with goitre was told by Dr. Price that by morning the goitre would be gone, and he called the child to the platform both morning and evening yesterday as a testimony, where all could see it had disappeared. One lady from Corvallis was the last in line to be healed, after the children, and the power of the Lord fell on her so great, she sat in her chair, scarcely moving, from 5 in the afternoon until 10 o'clock at night, after the services were over.

Saturday evening Dr. Price was greeted by a large audience. The meeting was opened by song, followed by prayer by Rev. Hammond of the Episcopal church; after which a vocal duet was rendered by Mrs. H. T. Galey and Percy Stratton. The text taken for the evening was from Jeremiah, 18th chapter, verses 1 to 6, "The Potter and the Clay." Dr. Price expounded the word so clearly as he preached the story. Of how we are clay in the hands of the Great Potter. All the grit and stones of sin have to be removed, and we have to be cleansed by being washed in the blood of Jesus. Then we are put on the great wheel of life, as the clay is put on the potter's wheel, and as we revolve round and round in our everyday life, if we go slower than the mold on the wheel, we fall off, and if we go faster, we fall off. As the clay has to stick closely to the mold, so we have to keep step with the great mold our Master Potter has made for us. And how each one of us should be content with the mold of our own vessel. Some are big, some are frail, and some are beautiful vessels in God's service. But when we are tried in the furnace of fire, we all come out beautiful vessels for use in the Kingdom.

The Sunday morning sermon was taken from Ezekiel, chapter 34, subject, "Shepherds False and True." Dr. Price explained that Jesus always was in existence. He came from the Father, conceived by the Holy Ghost, born of the Virgin Mary and lived here among men. The three dispensations, the Father as the first, Jesus as the second, and after the ascension, the Comforter or Holy Spirit as the third, to dwell in our hearts. And that Pentecost is an

If it is and we are for it. (Continued on Page 4)
