Grown to a Draw!

EVEN FRITZI RIDGEWAY can't decide the winner of this whisker growing contest. It was one of the most hair-raising contests staged in Hollywood in a long time, but it came to an end with the completion of the filming of "The Old Homestead" at the Paramount studios. The brush on the left is worn by T. Roy Barnes, who has the role of "Happy Jack." Miss Ridgeway plays the part of "Ann."

Leaving for San Diego— Miss Marjorie Coleman, who has been making her home in Ashland for the past year, expects to leave for San Diego, Calif., Thursday or Friday of this week, where she will join her father.

OWNERSHIP OF LAND AND AIR

Point Made by Henry George May Yet Be Made the Center of Legal Controversy.

In the course of a lecture in the hall at Aston-under-Lyne, England, the late Henry George put his audience in roars of laughter when he remarked: "The man who owns the land owns the air as well. There has been only one attempt that I have ever heard of to make air separate property. Near Strasburg, in Germany, about the Twelfth or Thirteenth century, there was a convent of monks who put up a windmill. One of the lords in the neighborhood—they would be called 'robbers' now—finding he could not get any tribute from them, set up a claim to the ownership of the air, and when they put up their windmill, said: 'All the wind in these parts belongs to me.' The monks sent in hot haste to the bishop, and told him of this claim. The bishop 'got up on his hind legs' and cursed in ecclesiastical language. He said the baron was a son of Bellal; that he did not own the wind in that province; that all the wind that blew over it belonged to Mother Church; and that if the baron did not take back his demand for rent he would launch with bell, book, and candle the baron would have needed to set up a claim to the wind. Men cannot breathe the air unless they have land to stand on."

CHOOSE THEIR OWN LEADERS

Eskimo Tribe Has Made Conspicuous Success in an Effort at Self-Government.

From Point Hope, 300 miles north of the Arctic circle, comes a remarkable story of a self-governing Eskimo community which has been successfully carried on there for the last six years.

Under the tutelage of missionaries equal suffrage has been established among the Tigaras, who annually in town meeting elect from among themselves the omalik, or council of leading men, who in turn enact the local laws and see to their enforcement among the thousand natives who inhabit the region.

Originally the omalik was composed of seven men. It is recounted. But it was found later that five was a better number. From the beginning of the experiment the right of suffrage was given to men and women alike, in the selection of the council. Christmas was fixed as the day of the election because on that day all of the tribesmen come into the settlement for feasting and merry-making. The names are written on a blackboard, and the five securing the greatest number of votes are declared elected, while that one of the five who receives the greatest number of votes becomes the chief councilman.

Spiders and Music. It has been asserted that spiders possess a sensitiveness to musical sounds. Some species seem to respond to the note of the piano, the harp, the flute, and so on, in a manner suggestive of their ability to recognize these sounds or the harmonic vibrations on which they are based. But a member of the College of France, who is said to have made a special study of the instincts and the supposed "psychism" of spiders, thinks that the apparent sensitiveness of these creatures to music has been misunderstood. It is his opinion that when musical instruments are played near their nests the spiders simply feel the vibrations through their webs, or otherwise, without recognizing the musical notes as sounds. The effect upon them is similar to that of the buzzing of an entrapped fly. He does not ascribe much "intelligence" to spiders.—Washington Star.

LITTLE TALKS ON THRIFT

By S. W. STRAUS, President American Society for Thrift.

IN a large Middle Western city can be seen on almost every principal corner the letters "A. B. C." painted on the street pavements in large, bold strokes.

S. W. STRAUS and one is then told that the letters mean "Always Be Careful."

In the United States, so we are informed by the statistician, a human life is needlessly sacrificed every six minutes. In the year 1920 there were 76,000 accidental deaths, and the toll is increasing. That America is lagging behind in this important phase of thrift work is shown by a comparison with conditions in England and Wales, where the combined death rate during the period of 1911 to 1920 was 369 accidental fatalities for one million deaths. In the United States the rate for the same period was 714. In other words, England and Wales have shown us that through the proper application of the principles of thrift along the lines under discussion, it is possible to eliminate almost 50 per cent of accidental fatalities. If this standard of efficiency were applied in the United States, it would mean the annual saving of approximately 35,000 lives, in addition to the saving of a vast amount of property otherwise destroyed by preventable causes.

Too Long Without Paint Are You Insuring Against Depreciation

THERE'S no middle ground. Either your buildings are well protected by paint or they are going to require costly repairing or rebuilding within a few years.

Paint saves your property. It is an investment in long service—not an expense. The expense results from allowing buildings to rot. Paint now. Save repairs.

The next question is what paint to use. Use the best. It costs less in the long run. It spreads easily—saves labor cost. It covers more surface per gallon than "cheap" paint.

And the best paint will serve you five or more years longer than "cheap" paint.

Why some people sleep 'lightly'

THE PRINCIPAL REASON is irritated nerves, and the common cause of nerve-irritation is coffee and tea drinking. For each cup of coffee or tea contains from one and one-half to three grains of caffeine.

Caffeine has a tendency to agitate the nervous system, when the nerves, normally, should be relaxed. The result is that you fail to get the deep, restful sleep that restores health and vigor.

If you have any idea that coffee or tea is injurious to your health, drink delicious Postum, instead. Postum is the pure cereal beverage that helps the nervous system, by permitting you to get sound, revitalizing sleep.

Serve this fragrant, mealtime beverage. You and the family will be surprised and pleased with its delicious, coffee-like flavor. And better health is worth while.

Postum comes in two forms:—Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages, for those who prefer to make the drink while the meal is being prepared) made by boiling fully twenty minutes.
