POLO GROUNDS. New York, Oct. 5.—The Giants and the Yanks battled ten innings to a tie in the second game of the world's series here today. Umpire Hildebrand called the game at the end of the tenth inning on account of approaching darkness. The score was three to three.

The decision ended a great uphill fight waged by the Yanks that filled the eye and gladdened the heart—a fight that saw their relentless uphill struggle to overcome a three run lead piled up by the Giants in the first inning as a result of Irish Meusel's screaming homer into left field bleachers, with Groh and Frisch on bases.

The blow was struck at the expense of Bob Shawkey, who seemed to be in for an early departure via the showers, but the ex-sailor settled down and proceeded to pitch the Giants absolutely dizzy for the remainder of the game, confining them to three hits through the last eight innings.

Two-base hits were made by Dugan, Ruth and R. Meusel. E. Meusel and Ward each knocked a homer. Earnes struck out six and Shawkey four.

Following the game, the crowd surrounded a box in which Judge Landis, baseball commissioner, was sitting, and razzed and booed him. Apparently they blamed him for permitting the game to be called when the teams were tied. A majority of those present seemed to think the game could have been continued for another inning.

ROSEBURG SEEKING NEW MUNICIPAL LIGHT PLANT

ROSEBURG, Oct. 5.—Roseburg voters at the coming election will pass upon a measure authorizing the city council to condemn the present light and water company supplying these utilities to the city, and create a municipal plant, which it is proposed to supply with power from the California Oregon company's power line.

Several years ago the city was authorized to issue bonds in the sum of \$500,000 for the construction of a municipal plant, but this sum was not deemed sufficient. With the power line of the California Oregon company within a short distance of the city, it is now deemed advisable by the council to condemn the present distribution system of the Douglas County Light and Water company and take over the service, and the authority of the residents to do this will be asked.

There remains but 24 hours for candidates to make their filings with the city recorder. No aspirant for local politics can place his name on the ballot after Thursday afternoon.

With the closing of the time limit for filings but a few hours distant, the possibility of a dark horse candidate was being discussed in certain circles today, several declaring themselves in favor of a third seeker after the mayor's office. FIREPLACE BURNED BIG HOLE IN FLOOR

The fire department made a run to the home of Steve Erickson, at the corner of Iowa and Morton streets at about 2 o'clock this morning, in answer to a hurried telephone call from the Erickson home, stating that the house was on fire.

On arriving at the house, the firemen found the basement filled with smoke, but hardly any of the smoke had penetrated to the rooms above. Investigation showed the fire had been caused by a hearth laid on the floor of a room, the bricks becoming hot enough to start the wood floor beneath to burning.

The firemen put out what fire could be reached from the basement and were then compelled to cut a hole through the hearth to make sure that no fire remained. The fire damage was practically nothing, but considerable work will be necessary to repair the damage done by the firemen in getting to the fire.

Contractor A. L. Lamb, who built the house, has agreed to repair the damage and see that the fireplace is put in condition that a fire of this kind cannot occur again.
