Ironized Yeast Gives the Stomach Natural Digestive Power!

There's one organ in the human body that "kicks back" when it gets weak, and that's the stomach. No stomach on earth can operate with-out vitamines-and-iron. The same thing is true about the nerves. There is hardly anything that can happen

at once reflected to the stomach. Weak nerves! weak stomach! Nature has only one answer; more vita-mines ironized! But remember that Ironized Yeast is not a mere mixture of yeast and iron, but is yeast ironized, which is a substance all by itself. This is why Ironized Yeast produces almost immediate results in cases of loss of appetite, aversion to food, belching, gas on the stomach, fermentation, "lump-of-lead" feeling after eating, dypepsia, indigestion. There is only one Ironized Yeast in the world; it contains yeast - vitamines - with-organic-iron, the very natural food-power which every strong stomach and every strong nervous system possesses. The answer is, ironize! vitamin-ize! Ironized Yeast, is sold at all drug stores at \$1.00 a package. Each package contains 60 tablets, each tablet is sealed. They never lose their power. (This Was Written by a Woman)

"IT'S GOOD"

I was using a well-known household article when my friend came in.

"Why did you buy that kind?" she asked.

"Because it's good," I told her.

She asked me why. Without realizing what I was doing I gave her several technical reasons for the superiority of that ma chine. I listed a number of its mechanical advantages and one or more very special conveniences that I felt meant a great deal to me.

My reply surprised even myself. I had not realized I knew so much about it. After I had recited my reasons to her I analyzed my first answer, "it's good," and I found that answer typified all of the specific things I was able to recite about the ma chine which I had as a matter of fact recently purchased.

It had been widely advertised and I, as a large buyer for a household, always felt that any woman may be guided to safe and satisfactory investments for her own needs and the needs of her family if she will but use the messages which the manufacturers send to her in her newspaper or in her magazine.

Until I had said, "it's good," I did not

realize that I had been reading so much about the advantages of the machine which I subsequently purchased. One after the other those messages had gotten into my mind until when asked to do so I was capable of repeating them almost as if I had been a salesman for the company making that article.

However, I realized that the printed message had not really meant so much to me as the repeated appearance. Seeing that article over and over again meant to me that many other women had reached the point where they could purchase it sooner than I and were well satisfied with it.

Almost instinctively the thought took hold of me that when I saw the name of a product appearing again and again I could feel sure that that product was living up to its promise. I could feel secure in buying it.

If only all women would realize that in whatever they buy-machines or furniture -clothing or food-dress goods or hatsjewelry or toys-they may save themselves unwise expenditures by seeking the product which through its advertising and behavior after purchase compels its thousands of customers to say, "it's good."
