IRRIGATION IS THEME OF TALK AT C.O.F.C. DINNER

REPRESENTATIVES OF BELLEVUE AND CITY CONFERENCE THURSDAY \$1000,000 ROAD BOND IS EXPLAINED BY GARDNER

Market Problem Vital to Community Is Opinion of Judge; Highway to Klamath Falls Will Help Solve This Is His Opinion.

"The marketing question is here, and I believe a highway to Klamath Falls will do much toward solving the problem of a market for small crops. Klamath and Lake counties need our products," declared Judge George A. Gardner, of Jacksonville, to nearly 75 men and women of the Bellevue district and the city, who attended a dinner sponsored by the chamber of commerce at the Armory Thursday night, in the interest of irrigation. By a special invitation, Judge Gardner was present to explain the \$100,000 road bond issue that will come before the people at the general election, November 7.

"The issue will be up to the people next month," continued the speaker. "If the matter is let go at that time, it will cost hundreds of dollars more for special ballots. Of the \$100,000, three-fourths will go to the Klamath Falls-Ashland highway, and the remainder to the completion of the Pacific Highway at Gold Hill. The original bond issue of \$350,000 was voted in 1920 to complete the Crater Lake highway at an expenditure of \$200,000, and the rest to go to the Klamath Falls highway. The Green Springs highway will run over \$400,000, and the county is co-operating with the state in its building on a 50-50 basis. Klamath county has voted \$300,000, and the contract is let for the work in that county. If the county has to stand the entire expense of building all the roads needed, without co-operation, it will mean a curtailment of the road building program."

In response to a proposed motion by J. H. Fuller, secretary of the chamber of commerce, the meeting unanimously indorsed the bond issue.

Following the short talk on the bond issue, the evening was turned over to those interested in irrigation, particularly those of the Bellevue district. V. O. N. Smith presided as toastmaster, and called upon many of those present.

E. C. Dillard, engineer for the Talent district, told in detail the history of both the Talent district and of the Hyatt Prairie project. He stated that the Hyatt dam will deliver 7000 acre feet of water each year, a foot and a half of water for each acre.

Success of the small tract holder in view of the limited quantity of water at present, was the theme of A. C. Joy, of the Bellevue district. That the people of his district were enthusiastic over the prospects of water was stated. Mr. Joy also voiced the need of the Ashland people to get behind the district. Production will be increased, he declared, and that will bring up the problem of taking care of the product. He favored a cannery as the logical solution to this problem, giving proof that the local product in the past was excellent and had always found a ready market.

Fred Homes, another booster for irrigation, expressed himself as being surprised that so many of the boosters for irrigation had never seen the Hyatt dam. He declared, that aside from this, the trip was well worth the while from a scenic point of view. A glowing picture of the future under more water was painted by Mr. Homes, who is a firm believer that the dreams will be realized through irrigation.

The sentiment of the previous speakers was expressed in a few words by C. A. Brown.

Speaking briefly, Louis Dodge stated that while the land was not worthless without water, it was not worth very much without it. He was followed by E. D. Briggs, who stated that while he had not been for irrigation in the past, he had become convinced of the necessity of water in the Bellevue district, and was behind it.

Irrigation was characterized by C. H. Pierce as being the most vital

'HAMMER MURDER' TRIAL IS RESUMED

LOS ANGELES, Oct. 20.—Apparently completely at ease and declaring her nerves more collected than at any time since her arrest last July, Mrs. Clara Phillips, 23 and former chorus girl favorite, of Los Angeles, but known now as the alleged "hammer murderer," today began her battle of wits.

Mrs. Phillips, dubbed the "tiger woman," faces a charge of having lured to lonely Monticito Drive on July 12, Mrs. Alberta Meadows, a comely young widow, whom she believed keeping company with her husband, and there beaten her to death with a hammer.

There was no delay when Mrs. Phillips appeared in court today. Her trial was to have started September 18 last, but on that date she appeared in court and pleaded for a continuance, stating that she was without funds, and requested that Public Defender Aggeler be appointed to represent her. The court appointed Aggeler, who requested and won a delay until today.

The state will hinge its case primarily on the evidence of Mrs. Peggy Caffee, confessed eye witness to the slaying, who is also a former chorus girl and confidante of Mrs. Phillips.

RAILROAD STRIKE BROKEN LOCALLY MANY MEN RETURN

The local yards of the Southern Pacific railroad company are again running full speed ahead, with a slightly larger payroll than before the recent strike, according to local officials of the company.

The car repair department had 44 men on its payroll before the strike, while it now has 66. The reason for the increase in the number of men is that much heavier work is being done in the local shops than was ever done previously. Two new air hammers and considerable other equipment have been installed in order that the heavy steel frame cars and other like work may be handled locally. Thirty men are now employed on what is known as the "rip track," where formerly nine or ten men handled the work. From 16 to 25 cars are being handled over this track daily. Fred Doan is the head of this department and deserves a great deal of praise for the amount of work he is able to turn off and the class of work which he requires to be done.

The flames were leaping 25 feet in the air when the fire fighters arrived. The fire had evidently caught under the stairway, burning that up and then leaping to the second story, doing very little damage in the first floor. It is thought to have been of incendiary origin.

This is the third time during the last year that the house has been on fire, and, as is usually the case, the third time proved the charm. The other two fires were put out before

ENGLISH EX-PREMIER CONTEMPLATES FORMATION OF NEW POLITICAL PARTY

GREAT CROWD CHEERS AS STATESMAN LEAVES

WILL DELIVER IMPORTANT SPEECH SATURDAY; INDICATIONS LEAD TO BELIEF THAT TORIES DO NOT ANTICIPATE LONG TERM IN OFFICE.

LONDON, Oct. 20.—Lloyd George, instead of taking a rest, will plunge into the political fray for the purpose of the formation of a new political party. He is certain he will be recalled to the premiership. Andrew Bonar Law, his successor, will attempt to form a new cabinet over the week-end.

The supporters of Lloyd George believe him to be more popular with the masses than ever before.

"The burden is off my shoulders, but the sword is in my hands, and my enemies will feel its weight," Lloyd George said before leaving for Leeds, where he will deliver an important speech tomorrow. A great crowd cheered him.

Law may hold the position of foreign secretary and also that of premier. This indicates the Tories do not anticipate a long life for the unionist government. Lord Derby, the former war secretary, is spoken of as the next colonial secretary, and Lord Carson as chancellor.

Law said he will ask for the immediate dissolution of parliament if he is elected head of the unionists Monday.
