National Fruit Cleaning Machine

The National Fruit Cleaning Machine is putting on the market, a late model fruit cleaning machine, which cleans the apple of spray and dirt but does not bruise it, as has been demonstrated from last year's crop. There were 20 machines used in Hood River valley during the packing season last year and proved very satisfactory, even though they are of the old model. A small amount of fruit is still in some of the warehouses in perfect condition for so long a time, thereby proving to the most skeptical that it does not bruise the fruit or remove the wax or paraffin so necessary to the proper keeping of the apple or other fruit. The fruit is carried by a padded belt between three adjustable spiral brushes revolving in opposite directions, causing the fruit to rotate rapidly while being carried along and brushed. The capacity is 1200 boxes per day and can be increased by increasing the speed slightly. Further information can be had by addressing Miss Elizabeth Reuter, Jacksonville, Oregon. 30-fr-m

A TRUE RAT STORY

Auburntown, Oct. 19-22. Stearns Electric Paste Co., 8-22-22. Dear Sirs: Mr. Robert T. Donnell of Auburntown, came in our store the other day and wanted something to kill rats, so I sold him a box Stearns Rat Paste. And he put some paste on six biscuits that night and the next morning he found fifty-four big rats. And the second night he put out four more biscuits with paste on them, and the second morning he found seventeen more rats, making a total of seventy-one rats in two nights, and there were lots more that he did not find. This is some big rat tale, but, nevertheless, it is so. Just thought, would write to let you know that your rat paste is good. Respectfully, KENNEDY BROTHERS.
