Gasoline Goes Down—

Motorists were surprised Tuesday when they visited the local service stations to find that the price of the fluid that makes the old car go, had dropped. Yep, one cent lower per gallon. While this reduction does not materially benefit the casual driver, to those who employ cars for commercial purposes, the lowering of the per gallon price will make a noticeable difference. Though there was no information given out regarding the decline, it is generally understood that since Henry Ford reduced the price of his cars, more people will ride in flivvers, and incidentally more gasoline used. It is expected that the extra amount of gasoline consumed will more than balance up the reduction.

Granite Man Returns—

S. Penniston, Ashland's old time granite man, after having spent most of his time at Grenada the past three years, has moved back to Ashland and has taken the agency for the sale of Ashland Granite Monuments. He says he has never yet seen any stone anywhere that will equal Ashland granite for monumental purposes, and that he is glad to get back into the monument business, because he believes in his product.

Guard Picture Pleases—

Cries of "That's Jim," and "See George," "Watch 'em work," and many others were heard Tuesday night at the Vining theatre, when the management showed a film taken of the coast artillery units at work while at the forts along the mouth of the Columbia river. People who possess the idea that all the boys do while attending these practices is fish and swim, should go to the theatre and once and for all rid themselves of their erroneous belief. The picture will be shown again tonight and Thursday.

According to Quality. Flubb—Brown paid \$25 for one of his photographs. Dubb—Wasn't that rather steep? Flubb—Not at all! It happened to be a snapshot of himself kissing a bathing beauty at the beach!

Largely True. "They have a new car." "They have? They can't afford it." "I know; it's always the people who can't afford them who are buying cars nowadays."

More Like It. "A scientist claims he can weigh one's conscience." "By the ounce?" "No; by the scruple, I imagine."

Nation Builders in the Making

There is no institution which is building good, sound citizenship more steadily and consistently than Boys' and Girls' Clubs. It teaches its members not only how to produce good livestock, soil products or prepared articles, but they learn in it thrift, business principles, and, best of all, true manhood and womanhood.

In the center of the group shown here stands Dale Altman of Gresham, Ore. He is a member of the Multnomah County Jersey Calf Club, and the other two boys are members of the same club. Dale's calf won first in the county fair exhibit at the Multnomah county fair this year and won

championship in the open classes. It was placed fourth at the Oregon state fair.

He is expected at the Pacific International Live Stock Exposition held in Portland, Ore., November 4-11, to try his skill at showing with the winners from other parts of the Northwest.

The Pacific International Live Stock Exposition has always backed livestock club work in every way possible. This year for premiums and awards it gives the clubs for exhibits and judging, together with the associations and individuals, \$3525.

HISTORIC SANDS USED FOR HALL CORNERSTONE

SHASTA, Calif., Oct. 25.—Twelve pounds of sand was gathered up here yesterday in front of the historic Empire hotel building and shipped to the Native Sons in San Jose, where it will be used in making mortar for laying the cornerstone of San Jose's new Native Sons' hall.

At the dedication ceremonies in San Jose next Sunday, a like amount

of sand from other historic towns of the state will be used in making the mortar for the cornerstone laying.
