Westinghouse
Cozy Glow isn't a fire. It makes no fumes, nor does it stale the air. It's perfectly safe even if upset. It throws the heat in any direction—a cozy glow when and where you want it.
Pick it up and carry it to the room or to the corner that is chilly. Or send one of the youngsters to get it. Like all Westinghouse Heating Appliances, it makes a lot of heat for its weight. It's a convenience, of course, but a winter necessity also. Get a Cozy Glow now from one of the following dealers, and have warmth when you want it right through to next summer.

POULTRY FEEDS AND HOW TO USE THEM
The feeding of properly prepared and balanced feeds to domestic poultry is necessary for profitable results. Few poultrymen have the facilities or time for recurring, preparing and mixing the variety of ingredients necessary in the ration. The conscientious feed manufacturer specializing in this matter, gives a real service to the poultrymen by being able to purchase all necessary ingredients, properly prepare them with modern machinery, employ chemists for making analyses, and conduct practical feeding tests.

The School Monopoly Bill has a misleading name!

YOU have an interest in schools? Then be sure to understand the true meaning of the School Monopoly Bill which is called on the ballot the Compulsory Education Bill.

The reason that this name is misleading is because we already have compulsory education under the present existing law, and we already have compulsory teaching in English in *all* schools.

What this bill really proposes is to substitute *state* control over the education of your children for *your* control.

The people of Michigan have already overwhelmingly defeated this measure, because it attacked the freedom of education.

Protect your rights which are being endangered—do not be misled by the name of this bill. Read the proposed bill carefully. Read the campaign literature. Find out the intent of the bill which is disguised by the title.

You will find that that they propose school monopoly. A hidden attack upon freedom of education.
