Nature Demands Cleanliness. All the fur-bearing animals are most particular in the matter of cleanliness, and this is a necessity in the wild, for the fraction of a second in rapidity of movement often means the difference between life and death to the animal concerned. So the fur must be kept smooth and supple in order not to interfere with quick and quiet motion.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazing brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal-oil).

The inventor, V. M. Johnson, 31 N. Fifth St., Portland, Or., is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money, make \$250 to \$500 per month.

OLYMPIC

To the inexperienced poultry raiser, OLYMPIC mashes look coarse and rough. This is a mechanical condition that we maintain in milling, as it influences palatability and digestibility materially. This friable mash allows the hens to eat it readily and is never pasty; also, the digestive fluids are able to work on the loose mass more efficiently, thus insuring higher digestibility. This is one thing, together with the superior quality of ingredients of the mashes that makes it possible for OLYMPIC egg mashes to produce better and more uniform results. There is no surplus of unavailable protein to overtax or poison.

State Monopoly of Schools would cost— In taxes— Over \$1,000,000 a year for operation Over \$3,000,000 for buildings and grounds

THE first cost of state monopoly of schools would be something over three million dollars for new buildings and grounds. We would have to pay a yearly tax of over one million dollars for operation in addition to what we are paying now.

They propose that Oregonians pay this bill for "Real Americanism." But it is not Americanism to take away the right of the parent to control the education of the child.

They propose that we pay this bill to have "Compulsory School." But we actually have compulsory school right now under the present law.

Be not deceived. What this burden of added taxes will go for is an experiment in education along communistic lines—the substitution of state monopoly in education for parental guidance. Russia is trying this experiment. Let us profit by her failure. Let us maintain our democracy and save millions of dollars.
