USED ODD WEDDING COACHES

Steam Plow, Tractor Engine, Tractor, and Other Vehicles Have Transported Bridal Parties.

An American bridegroom who made his journey to the altar in a steam plow has had many rivals in matrimonial carriages.

It is not long since a bridal couple and their guests made a dramatic appearance in a Kentish village on a traction engine, and a procession of trucks gayly decorated with flags, flowers and evergreens, says London Answers.

A wedding party drove up to St. Mark's church, Birmingham, one Easter Sunday in mourning, the coaches and the horses being incongruously adorned with white rosettes. A prettily decorated tramcar was the chosen vehicle of a Wolverhampton bridal party, the driver and conductor wearing white gloves and smart button-holes and the journey to the church being heralded by the explosion of fog signals.

But perhaps the most novel journey of all was that of a young Austrian couple, whose wedding procession slid down a steep hill from the bride's home to Patsback church on seven toboggans decorated with pine branches and flowers.
