### AN AUTHORITY THAT NO ONE EVER DISPUTES

There is at Washington one division of the government that is ever free from criticism as to its motives, even when its decisions are unpopular.

The head of the judicial branch of government—the Supreme Court—has had from its organization the reputation of being absolutely fair and unbiased in its findings, and its members enjoy the entire confidence and respect of the people of the country.

The interesting story of the Supreme Court is told in one of the series on Our Government being mailed monthly to the people of this community. It is an interesting, brief history of the court and its relation to the other branches of the government.
