

LOCAL AND PERSONAL

Comes In From Hospital— Jess Smith, who had the misfortune to break both legs in a fall from a hay wagon a few weeks ago, was brought down town Friday afternoon in his wheel chair, and spent a few hours at the Ninger & Warner billiard hall. Mr. Smith is getting along nicely and will be able to get out again in a few weeks.

When our label is in your coat, you are well dressed. Paulserud's. 61tf

Embroidery Club Meets— The Friday Afternoon Embroidery club met yesterday afternoon with Mrs. F. L. Nelson, on the Boulevard. A pleasant afternoon was spent, after which the refreshments of the season, consisting of pumpkin pie with whipped cream, etc., were served. Those present were: Mesdames C. A. Cotter, O. W. Long, Roy Hale, Guy Jacobs, Mark Smith, M. J. Love, Earl Hosler, J. C. Poor, A. M. Dyrud, and Mrs. Nelson. The next meeting will be at the home of Mrs. Walter Furlan on B street.

Ask your grocer for Golden Sheaf Bread. 52tf

Will Move to Los Angeles— J. C. Mather arrived last week from Los Angeles, Calif., to assist Mrs. Mather in packing to return to the City of the Angels. Mrs. Mather is a sister of Mrs. J. Z. Wing, and has been residing on Allison street. She moved here last summer for the benefit of the health of her family. Mr. Mather is in the employ of the Southern Pacific company and anticipated a transfer here, but failed to make the exchange. He has returned and his family will follow shortly.

Ashland Granite Monuments, finished to order. S. Penniston, phone 444-Y. 46-26

WHAT IS ROUGH DRY?

This is a class of laundry work that we are giving to a large number of patrons here in Ashland.

In this grade of work, we give the same careful attention to the washing that the regular finish work receives. The flat pieces are neatly ironed; fine starch work is starched and dried, and the soft garments are dried.

When you get ROUGH DRY service, you are relieved of the drudgery of washing, the uncertainty of drying in unsettled weather, and of a large part of the ironing.

Give us a trial next week, and you will be convinced.

Our prices are reasonable.

"PORTRAITS THAT PLEASE"

29 Shopping Days Before Xmas

Grants Pass Ladies Here— Among the ladies of Grants Pass, members of the Daughters of the Nile, who arrived in time to partake of the luncheon, were Mesdames George S. Riddle, P. B. Herman, J. P. Jester, Louis Steinbaugh, James Chinook, Alva Gunnell, Swope, A. C. Hough, A. K. Cass, Clarence Wine-trout and Elmer Balsinger.

The WISE man wants to look well—our suits will help him. Paulserud's. 61tf

Visits with Relatives— Mrs. Mary Beaver and son Rowland, of Salem, spent a few days this week as the guests of Mr. and Mrs. A. M. Beaver at their home on Iowa street. Mrs. Beaver and her son were en route to Los Angeles where they will spend the winter.

Cleaning, pressing and repairing at Paulserud's. 61tf

Called Here from Roseburg— Mrs. Harry Randlett and Mrs. J. G. Patterson were called from their homes in Roseburg to attend at the bedside of their sister, Mrs. Ray Jeter, who has been quite ill, but is now convalescing.

Dance Jackson Hot Springs Saturday night. Everybody's going. 63-4

Leave for Portland— Mr. and Mrs. Irving Findley left this week for Portland, where Mrs. Findley will enter Dr. Coffey's hospital for treatment.

Newtown Apples—75c box delivered. Phone 9-F-11.

Visitors from Dunsuir— Mr. and Mrs. Carl Smith, of Dunsuir, spent a few days this week in Ashland visiting with Mrs. Smith's parents, Mr. and Mrs. L. J. Heer, and other relatives in the city.

Fluff Rugs, made from your old worn out carpets. Telephone 208. 41-eod-lmo\*

Mr. and Mrs. R. H. Grubb arrived in Ashland a few days ago for a visit and Mrs. Grubb was taken to the Sacred Heart hospital, Medford, a short time later to be operated on for appendicitis. She is reported to be getting along very nicely.

Piano Tuning— Now is the time to have your piano tuned. Carl H. Loveland, Studio, 135 East Main. Phone 465. 66tf

Leaves for Dunsuir— Mrs. Walter Maxey left this morning for Dunsuir on a business trip, and will be gone over Sunday, as the guest of Mrs. C. Robert Shaw, combining business with pleasure.

Good reliable dentistry at reasonable prices. Dr. Henry B. Purl, Beaver Bldg. 44tf

Passes Through Ashland— George Smith, representative of the Kelly-Springfield Tire company at Roseburg, passed through Ashland Friday en route to Klamath Falls, where he will spend a few days shooting. The feathered tribe will have to look well to their flight while George is about.

PRINCIPAL FIGURES IN MONTANA SLAYING

- (1) Mrs. Margaret Carlton, "Handsomest Woman in Montana," who shot and killed Rev. Christler and then committed suicide, according to a coroner's verdict.
(2) Rev. Leonard J. Christler, slain clergyman, of Havre, Montana, known as the "Bishop of All Outdoors."
(3) St. Mark's Church, of which the "Bishop of All Outdoors" was rector.
(4) Home of Rev. Leonard J. Christler, where double shooting occurred.

Attend Football Game— Leslie Heer and Domino Provoost left early Friday for the north to attend the Ashland-Roseburg football game, and to attend the game at Corvallis today.

Visitor from Medford— Gus Newbury, of Medford, was a business visitor in the city Friday.

Cliff Payne makes fire screens.

Evening Sewing Class— An evening sewing class is being contemplated by some of the ladies of Ashland and any one who is interested in the class is asked to call Miss Hicks at the library.

Orres cleans clothes. Phone 64.

Purchase Buck Lake— The California Oregon Power company has purchased Buck lake and expects to turn its water into the Klamath river to augment the present supply of that stream. This eliminates another source of possible water for Ashland.

Sweet Cider, made fresh every day, two gallons 75c, one gallon 40c, delivered. Phone 9-F-11.

Here from Saskatchewan— Walter McLean, of Saskatchewan, Canada, is in the city visiting with the C. A. McLean family. Enters Medford Hospital—

UMPQUA NATIONAL FOREST HAS 12 INCHES OF SNOW

PENDLETON, Or., Nov. 18.—The snowfall on the Blue mountains in several sections of the Umatilla national forest is now over 12 inches deep, according to J. C. Kohns, forest supervisor. In the Heppner range the rainfall and snow came too late to bring the grass up for the last feeding of cattle, which was very poor this season, but the sheep range in the Heppner country held up well until late in the year.

STILL MATTER FOR RESEARCH

Astronomical Science, Although Enormously Developed, Has Yet a Great Deal to Discover.

A century of continuous achievements in the knowledge of other worlds has brought us, as Professor Eddington suggests, to the threshold of expectations which a generation ago would have been deemed fantastic.

We have giant telescopes beyond the imagination of fifty years ago. The camera has, in the minds of many of the public, almost brought the sun and his satellites onto a dissecting table. Above everything else the spectroscope has revolutionized astronomical science by revealing the materials of which the sun, moon and stars are composed.

But we must calmly await the information of science which admits the existence of vegetation in Mars as to the mysterious "signals" of its inhabitants. There may be men in the moon in the breathable atmosphere of its stupendous craters. The field of astronomical research excludes nothing but the impossible. We all share the "feeling" to which Professor Eddington gave expression, "that we are on the verge of something greater than our dreams can shape."—London Mail.

WOODEN LEG A HANDICAP

Physician Had Forgotten That Appendage Would Not Help Duck in Its Native Element.

A distinguished doctor of Baltimore, Md., has a flock of Muscovy ducks running around his country place and hearing a great commotion in the chicken yard one afternoon hurried hence to see one of his ducks doing a line of dare-devil stunts in mid-air. The "falling leaf," "tail-spin" and such performances were following one another with startling rapidity when the doctor discovered that the cause of it all was a big rat which was hanging on the duck's leg. The rat held on until the leg came off, when the rodent dropped to the ground and escaped. The doctor tied the injured member and his surgery was a success in that the bird recovered, but it had a great handicap in its possession of a single leg. The doctor made a wooden leg for the fowl which answered all purposes on the land, but when the bird ventured into the water its efforts to paddle with one leg caused it to describe one circle after another so that it finally did reach the shore it was by the merest accident.

Swallowed by London.

Cheam was once a delightful village in Surrey; today it is fast becoming a suburb of London. But it still has some respect for the days when it was simply a decorative feature on a beautiful countryside. When it was found that Cheam's beautiful fourteenth century cottage was in the way of the road being widened, Cheam did not say either "Down with the cottage" or "Let the motorcars go round another way." It simply decided to put the house on rollers and move it back a little way, as was done a few years ago with Trinity house, in the old cathedral city of Worcester. Everybody gains, the motorist by having a wider road, and artistic folk by contemplation of a fine specimen of fourteenth century architecture; while Cheam should be happy in having entered a practical protest against an act of vandalism.—Christian Science Monitor.

The Last Straw.

It had been a trying day and Raymond's father was rather irritable. He stood for a few questions from the youngster, but when the latter asked what caused the desert of Sahara, he laid down his paper and answered: "I guess it formed when the Israelites lost their sand. And if you don't quit asking me so many questions I'll see your mother puts you to bed before I get home hereafter."

"But, pa," came the question, "how can you see her put me to bed if she puts me to bed before you get home?" And that question was Raymond's last—for that evening.—Boston Transcript.

In Different Classes.

A visitor in an Australian home inquired of his host's little son, "Do you go to school now?" "Yes, sir." "And what do you learn—reading, writing, sums?" "Oh, yes, and I learn religion, too." "Religion?" "Yes. I learn the little religion which teaches that we all come from Adam. But my older brother is in a higher class; he learns the big religion and that teaches that we all come from monkeys."—Boston Transcript.

Wonder of Small Things.

The greatness of our life depends on so little! In the midst of the humblest incidents of ordinary days, the verse of a poet may suddenly reveal to us something stupendous. No solemn word has been spoken, and we feel that nothing has been called forth; and yet, why has an ineffable face beckoned to us from behind an old man's fears? Or why does a vast night, starred with angels, extend over the smile of a child?—Maeterlinck.

A Sign.

"I think that small boy of ours is going to be a poet." "That so? Why?" "He never wants to have his hair cut."

If it is for Ashland, we are for it.

O. A. C. CO-ED SCALDED; FALLS INTO BATHTUB

OREGON AGRICULTURAL COLLEGE, Corvallis, Nov. 18.—Dorothy Johnson of Salem, freshman in commerce, fell in a bathtub of scalding water at Margaret Snell hall, and is now in the Corvallis general hospital with bandages around one arm. Attending physicians said she would recover rapidly.

Miss Johnson is the daughter of Mr. and Mrs. C. V. Johnson of Salem.

SPECIAL COUNCIL HELD TO CONSIDER WATER

(Continued from Page 1)

by Mr. Dillard for the benefit of the incoming mayor and council, as the present council had practically agreed at an earlier meeting that it would be in favor of buying water for some 400 acres of land in the city from the Talent district, should the Bellevue district make it possible by taking water themselves.

The 400 acres of water, which the present council proposes to contract for from the Talent district, they say would be used in irrigating the larger acreages in the city, and in supplying the prior rights of some 200 acres lying below Ashland and which must be supplied from Ashland creek. It is claimed that this would greatly reduce the amount of water used through the water mains in the city and would supply more water to the small acreages. City Engineer Walker and Water Superintendent Hosler stated they did not believe the plan could be worked out successfully.

Mr. Walker was asked to make a report on what had been done in connection with the survey ordered to see if it were possible to bring water from Neil creek into Ashland creek. In making his report, Mr. Walker stated that he and an engineer from Grants Pass, who he obtained to do the survey work, went up Neil creek and after making an examination, decided that the point where water should be taken out was at the lower sawmill. From this point, the engineer ran a line around the hills, with a slight drop, and found that the Neil creek water could be emptied into Ashland creek a short distance above the power plant and the upper intake. The distance would be about ten miles and it was Mr. Walker's opinion that the water should be brought in a pipe, which would cost approximately \$10,000 per mile, or between \$125,000 and \$150,000 for the pipe line alone. Other expenses would probably bring the total to nearly \$200,000 for the entire project. The water obtained from such a source would be about 200,000,000 gallons, or double the amount that could be obtained by building the large dam in Ashland creek canyon, and the cost would be just about double, making the cost of water practically the same in either case, according to Mr. Walker.

Mr. Loomis and the new council were asked to express their opinion on the matter and, despite the fact that they had no advance information on the situation, they stated they would endeavor to carry out any plan that the present council started, if they found that it was for the best interests of Ashland.

Mr. Joy reported that the Bellevue district expected to close its campaign Saturday, November 25, and give their report to the Talent district immediately afterward, and the council will probably turn in a favorable report at the same time.

Valuable Cross Breeding. The crossing of the yak with common cattle as practiced in Mongolia, Siberia and Tibet produces an animal more serviceable than either of the parent stock.

Evidently a Strenuous Preacher. An announcement in the following terms was posted outside an English church: "Next Sunday the Rev. — will preach here, morning and evening; after which the church will be closed for six weeks for necessary repairs."
