Medford Man Sentenced—
George Grigsby, of Medford, was sentenced to the county jail for 30 days and fined \$25 by Justice Gowdy this morning on a charge of driving an automobile without a chauffeur's license, preferred by J. J. McMahon, deputy state traffic officer for this district. Grigsby endeavored to raise the amount of the fine to \$50 and avoid a jail sentence, which, after being taken under advisement by Justice Gowdy, was refused after McMahon had told of Grigsby's past record. J. W. Hatcher, chief of police, took the prisoner to Jacksonville this afternoon.

Pays Fine in Court—
William Reinhart, proprietor of Plaza pool hall, was given a \$10 fine in Justice Gowdy's court today for allowing a minor in his place of business. The minor son of Rev. and Mrs. Koehler went into the pool hall to talk to Reinhart's son, who was slightly injured in an accident a few days previous and had started to play a game of pool when Mrs. Koehler passed by the place and saw him. She preferred the charge against the proprietor.

FOR WAR ON "LONG KNIVES"
Cache Where Indians Had Gathered Munitions Found in Cave in Wayne County, Kentucky.

Ruins of what once was a flourishing "munitions factory" are sheltered in a cave 14 miles east of Mill Springs, in Wayne county, Kentucky, in the opinion of Prof. A. M. Miller, head of the department of geology at the University of Kentucky.

This "factory," according to Professor Miller, produced arrow heads to tip the shafts of Indian braves whose no man's land, in the days before the squirrel rifle supplanted the bow, was Kentucky.

Professor Miller returned recently from a trip to Wayne county, where he prospected for caves, rockhouses and old Indian village sites, favorable ground for the finding of extinct mammalian remains.

The chigger is indiscriminately known as a chigo, chigoe, chicogo or Jigger, and is found in many countries and is sometimes called "red bugs" and incorrectly "ticks."
Philosophy of Philosophy.
Philosophy is no more than the art of making ourselves happy; that is, of seeking pleasure in regularity and reconciling what we owe to ourselves. —Goldsmith.
Monkeys Cleanly Animals.
Monkeys, in their wild state, are very clean animals, and explorers who have visited their forest homes, and observed their habits, report that they have often seen these animals dashing water into their faces, and having a good wash very much as mankind does, of course, without the soap!
Stray Bit of Wisdom.
It is from books that wise men derive consolation in the troubles of life. —Victor Hugo.

LUBRI-GAS
Trade Mark Registered
CORRECT LUBRICATION
More Power More Mileage
More Motor Life
DECREASED MOTOR TROUBLES
A Petroleum Product That Does Not Burn in the Combustion Chamber
Lubricates in Gasoline
Caution—You must use LUBRI-GAS in addition to your regular lubrication system
LUBRICATES IN GASOLINE
Carbon formed by oil coming up from the crank case and burning in the cylinders, sticks and hardens on the dry, hot surface of the combustion chambers and cylinder walls.
Hardened coating of carbon fouls spark plugs, pit valves, etc., causing a knock in the cylinders and decreases the efficiency of the engine.
LUBRI-GAS will completely coat the dry, hot surface of the cylinder walls and combustion chamber with oil.
LUBRI-GAS DOES NOT BURN IN THE COMBUSTION CHAMBER
In the manufacture of LUBRI-GAS the process which it goes through makes it impervious to the heat of the combustion chamber, and by our special process, we secure a perfect mixture with the gasoline.
INCREASE THE MILEAGE
LUBRI-GAS enters the engine with the gasoline in the form of vapor and being impervious to heat, sprays the entire inner surface of the combustion chamber, thereby allowing perfect expansion and contraction of the piston rings.
By the lubrication of the piston rings and cylinder walls all friction is eliminated, thereby preventing all possibility of carbon forming on them, which means more POWER and more MILEAGE with a decreased consumption of gasoline.
FRICTION VS. ENGINE LIFE
Friction wears your engine. Friction is reduced through lubrication. The reduction of friction produces an increase in power and speed as well as the life and efficiency of the motor.
CARBON TROUBLE
By the use of LUBRI-GAS carbon is kept soft and harmless. Instead of sticking to the cylinders and piston rings, it follows the exhaust out of the engine.
LUBRI-GAS IS A HEALTH FOOD FOR THE MOTOR
LUBRI-GAS contains nothing that will in any way injure the motor. Its use saves annoyances and is an economy in the saving of fuel.
One gallon of LUBRI-GAS treats 640 gallons of gasoline.
LUBRI-GAS increases your mileage 25 per cent. Therefore, one gallon of LUBRI-GAS is equal to 160 gallons of gasoline.
Use LUBRI-GAS in your gasoline engines and motorcycles.
OUR GUARANTEE
If after using LUBRI-GAS you are not satisfied with Results obtained, we will refund your money.
