LEONARD WILL WRITE AUTOBIOGRAPHY SOON

NEW YORK, July 11.—Benny Leonard, world's heavyweight champion, has mapped out an ambitious programme this year.

First Leonard has been booked for a series of five fights with more or less eminent contenders. Secondly, he intends to make a drive for literary honors, and thirdly, he has accepted an offer to go on tour with a musical production.

Alex Hart, Philadelphia boxer, has been carded as the lightweight king's first opponent. Benny believes Hart will give him a good workout in preparation for his more formidable opponents, but friends of Hart, whom Leonard encounters in Philadelphia early in July, say that another champion is due for a surprise.

Lew Tendler, who is regarded as the real contender for the title will face Leonard at the Yankee Stadium, in New York, July 23. If Leonard gets by the Philadelphia southpaw he will take on in order Charley White, whom Billy Gibson, Leonard's manager, calls the "Bombardier Wells of America"; Sailor Friedman, the Chicago slugger, and Mickey Walker, who dethroned Jack Britton and ascended the heights to the welterweight championship.

After these fights Leonard plans to retire—for some months at least. Soon after that he will publish his autobiography, which he will call "Six Years a Champion." In September he will take the road with a Broadway musical comedy, under Shubert management, and will continue as the plan for at least three months.

It was on May 28, 1917, that Leonard knocked out Freddy Welsh, the Pontypridd glove-wielder, and became lightweight champion of the world. He has reigned for a little more than six years—a long tenure in a class so much in favor with pugilists.

REDDING SMELTER ASKS ASSESSMENT REDUCTION

REDDING, Calif., July 12.—The supervisors gave a hearing yesterday to the United States Smelting, Refining and Mining company of Kennett on its petition for a reduction in assessment from \$728,360 to \$422,861. No action was taken. The matter stands submitted, but the supervisors must act one way or the other by the third Monday in July.

The company introduced evidence through R. E. Hanley, superintendent of the Mammoth Mine, and O. J. Eggleston, general manager. Superintendent Testifies Hanley testified that within a year after the mine and smelter started up the ore bodies would be exhausted and he did not anticipate that any new ore bodies would be discovered. At the end of a year, he said, mine and smelter would be abandoned and the machinery and buildings would be worth only what they would bring as junk. General Manager Eggleston testified to the same effect.

The Mammoth was assessed last year for 749,000. It is assessed this year for \$728,000.

AW, WHAT'S THE USE

NEW STORY STARTS IN TODAY'S PAPER

A new continued story called "Plunder," starts in the Tidings today. The story is written by Herbert Crocker, who adopted the story from the Patheserial by Bertram Millhauser. The story of the "Haunted Valley," which many readers have followed with a great deal of interest was finished when the final installment was run yesterday. The new story is interesting to the extreme, the plot dealing with the adventures of a young and live American girl who goes from one adventure to another, with a rapidity which is startling. The story follows the girl through a maze of adventure in which she engages in a fight to help a friend retain a large amount of jewels.

A Part of Summer School—

It will be a matter of interest to know that our library has a part in the work at the Summer Normal.

Classes are held mornings on "book mending", particularly helpful in the care of school libraries.

A number of teachers are taking advantage of this opportunity.

This is not a new feature, for since the Southern Oregon Summer School has been established this work has been carried on, every year.

There are a number of phases to this work, re-incasing, mending of leaves, putting on new backs, etc.

It is one of the many ways in which our library proves its efficiency and helpfulness.

Under music there are a number of volumes that will prove wonderfully helpful and interesting.

Creative Music for Children. Prince Melody in Music Land, and First Studies in Music Biography, are the titles, but that does not tell the story of the fascinating content.

There are also: Flower, Bird and Animal Books, Twin Travelers in China and Japan, with pictures from actual photographs. Good Stories of Great Birthdays, an unusual book, Jungle Roads and other Trails of Roosevelt, a story for boys by Daniel Henderson, Bold Robin Hood and his Outlaw Band, by Louis Rhead.
