## to the Lowest Bidder?

MHE printer has lost much in the past because of his mistakes in business judgment, but his customers have lost far more in failure to turn his skill to their advantage. Business men can get vastly more out of a printer than a low bid, and it is reasonably certain that they can get less from the lowest bidder than even the low price calls for; because while he may find it necessary to sell his product at a low price, his dilemma forces him to strike as hard a bargain in delivery as his customer does in buying.

Choose a good printer; he can help you build a better business if you will let him.
