ENGLAND TO STAGE SEAPLANE MATCHES

COWES, Eng. Sept 4.—Two hundred miles an hour is the speed which, it is expected, will be attained by seaplanes on September 27 and 28, when Britain faces international rivals for the Schneider Cup.
All four of the American officers who have arrived, and who will fly Government machines, expect to attain this speed. If they do, then the cup will leave Britain speedily.

Last year the cup was won by the Napier engine seaplane Sea Lion II. Piloted by Captain Bird her maximum speed was 145.7 miles per hour, a rate which will stand no chance on the forthcoming occasion. Against the American service machines, with engines ranging from 240 to 650 horsepower and including two Curtiss engines of about 400 horsepower, the British machines appear to stand little chance.

In all there will be eleven machines taking part—three British, three American and three French and two Italian. The course decided upon is from the point of Cowes down to Selsey, along the front of Southsea, turning at the South Parade Pier and back to Cowes. The course of 37.2 nautical miles is covered five times to make a total racing distance of 186 nautical miles.

The Italian machines will start first and, at intervals of fifteen minutes, will be followed by the machines of America, Great Britain and France.

Forced To Live On Bread And Milk For Year And a Half

MRS. NORAH GARDNER

Mrs. Norah Gardner, 825 Thirtieth Street, Oakland, Cal., despite her 72 years of age, has gained 10 pounds by taking Tanlac, and now does all her housework and also enjoys working in her garden. She says: "For years I suffered terribly from indigestion. For over 13 months I never ate a thing but a little bread and milk. I lost weight and was so weak I could hardly turn a hand."

"I not only gained 10 pounds by taking Tanlac, but actually feel better than I have in years, I have a hearty appetite and sleep like a child. My housework doesn't tire me, and I work in my garden every day. I wouldn't take anything for the good Tanlac has done me."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.
Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

WOMEN RE-MARRY OPTENER THAN MEN, REPORT SHOWS

DES MOINES, Iowa, Sept. 1.—As a popular sport marriage is much more popular with women than with the male folks, according to records compiled by Leslie M. Deaton, jury clerk of the district court.
For the first half of July there were eighty marriages in this county, and of this number twenty-seven of the brides were getting their second husbands, while only seventeen of the grooms were trying martial bids for the second time.

"These figures are not unusual," Deaton declares. "Rather, they show the women remarrying less than usual. They marry almost twice as much as the men."

PRICES ADVANCING SAYS AGENT REPORT

PORTLAND, Sept. 4.—It is indeed an extraordinary economic condition that wages and all living expenses should steadily advance, month after month, while the products of the farm, on which millions depend for food, are so low that the most of them bring less than the cost of production to the growers.
All industries except agriculture are generally prosperous; there is nation-wide demand for labor, and wages in most industries are high. Farming alone seems to have collapsed. Wheat at one dollar a bushel, with other farm products at present prices, would be all right for producers if other products were in proportion. As the unjust situation now is, the grower gets less than it costs him to produce wheat, beef apples, small fruits, and many other products, while he has to pay nearly double for implements and other working and living necessities.

A binder that cost the farmer \$175 in 1914 now costs \$260, according to the statistics of Chas. T. Michaels; a sulky plow that was \$35 is now \$54; a wagon that retailed for \$80 before the war now costs \$135 and labor that cost the farmer \$1.50 per day now comes at double that scale.

Wheat at 90 cents per bushel to the farmer, when freight is deducted, is 1 1/2 cents per pound while the wholesale price on middlings (\$38 at this writing, \$36 at the mill) is nearly two cents per pound—a higher price than the grower gets for his whole wheat. While the grower gets but 1 1/2 cents for wheat the price of flour is nearly four cents per pound and the price of bread from seven to nine cents.

The obvious cause of this unequal condition of values is that nearly all industries of the country are so strongly organized they can fix and maintain selling prices, and labor likewise through organization can demand and obtain high wages. Only unorganized labor has a low wage scale.

And the manifest remedy for the deflated and desperate condition the farmers are in, is to follow the rule of big business industries and big labor organizations to take the deflation of the whole nation.

COWBOY IS HELD ON BAD CHECK CHARGE

NEVADA CITY, Cal., Sept. 1.—Ted E. Williams, cowboy, aged 21 was arraigned in the justice court of Judge Lee A. Garthe yesterday afternoon on the charge of issuing a fictitious check. He passed a check for \$40 upon Jack Magonigal, cattleman. Sheriff W. G. Robson has been chasing him over three counties to the north of here. He was arrested by the Oroville police and brought back to this city. He will have his preliminary examination Tuesday, September 5. He is held in the county jail in default to bail.

OLD YALE LANDMARKS MAY BE RAZED SOON

NEW HAVEN, Conn., Sept. 1.—Antiquarians of a row of stores on Chapel street, opposite Yale University, property which once was the home of Roger Sherman, signer of the Declaration of Independence. The original homestead is hidden behind a one-story addition, and for many generations has known the tramp of the feet of Yale students, whose favorite photographers and clothiers have been quartered there.
