Another guest who recently arrived from Portland is Mrs. H. P. Palmer.

HE WAS GAME TO THE LAST

Dying Book Agent Pines His Profession With Sorrowing Friends and Even Tackles Undertaker.
The book agent was dying. (They are tough, but they do die.) "It is hard, very hard," he muttered, "to have death come just as I had been given the exclusive right to canvass Haysed county for Ripanporter's Universal history—a work that was bound to sell like hot cakes."
Then glancing at his sobbing friends who stood round his bedside, he said: "Soon all that will be left of me will be a faint memory. I shall have departed, as Shakespeare—whose works, in 15 volumes, half Russia, at \$2 a volume, or \$24 the set—remarks, 'to that bourne from which no traveler returns.' But do not weep. I have only one last request to make. Promise me that you will grant it."
"Who will," replied all present, in choking accents.
"I have your word—yours, Uncle John, and yours, Aunt Maria, and Bill's, and Cousin Jenima's, and Doctor Slaughter's?"
"You have," was the unanimous response.
"Then," said the dying man, with a look of contentment, "I shall have you all put down for a set of Strawpaper's magnificent 'History of Pikes and Superstitions,' in 12 volumes, full morocco, at \$36 the set. The entire work will be delivered to you with a week."
One by one the sorrowing friends fled out, too full for utterance, which "That little stroke of business will get me an AI monument," said the book agent to his wife. "And now, suppose you send word for the undertaker, and I'll see if I can't land him for a set of the Blarney library at \$60, and get him to take it out in trade."

SHOWS EARMARKS OF AGE

Collector of Genuine Antique Furniture Knows Little Points That Cannot Be Faked.
How long ago was the circular saw invented? If you aspire to become a collector of genuine antique furniture you should know the answer to the question. The circular saw was invented as far back as the year 1777. Therefore, no piece of Seventeenth century furniture should bear the tell-tale curved lines that a bent tooth in a circular saw makes. The maker of false antique furniture may copy the form of the original piece with comparative ease, but he has difficulty in giving it the appearance of genuine age. Boring wormholes is now regarded as dangerous; other methods of aging are preferred. For example, a gentleman who was visiting the shop of a prosperous country dealer in an antique furniture noticed several rabbits inside an interesting carved coffer. "You know more about such things than I do," he remarked to his host, but unless I am strangely mistaken that is an original Sixteenth century coffer. How in the world can you put it to such a use?" "It will be a Fifteenth century coffer when the rabbits have finished with it," was the cool reply.

STRANGE MIRAGE SEEN IN ITALY

Images of hills, groves, buildings, ships and other objects in the vicinity, some erect and some inverted, are under certain atmospheric conditions seen in the Straits of Messina, between Calabria and Sicily. This strange species of mirage is sometimes seen in the water and sometimes in the air, and forms a kind of moving spectacle. The Italian name of Fata Morgana is given the mirage, because it is supposed to be the work of the fairy Morgana, the pupil of Merlin and the sister of King Arthur.

Required Too Much Effort

Mrs. Envie—And have you been in South America?
Mrs. Newrich—Many times. In fact I know it from end to end.
Mrs. Envie—Then of course you went up the Amazon?
Mrs. Newrich—No, as a matter of fact, I didn't. My husband went to the top, but I never cared much for climbing.

THE DIFFICULTY

"They say music makes the cow give more milk."
"Still I imagine it is going to be difficult to persuade some of our temperamental artists to accompany a cow."

SOCIETY

(Continued from Page 2)
The party closed by everyone viewing the Gruelle's finely equipped Larabee truck, which made the trip across the continent from Norway, arriving in Ashland two weeks ago having traveled a distance of 6000 miles and bringing the family here to safety thru a variety of unusual experiences.
Ashland is indeed fortunate to have the "Gruelles" as residents-for the coming winter.

BIRTHDAY PARTY

One of the jolliest of little parties occurred at the home of Mr. and Mrs. Albert Johnson, on Walnut St., last Thursday evening, the occasion being the sixteenth birthday of Merle Gilbert.
A number of his schoolmates were invited for the evening and needless to say they had a wonderfully good time.
It took the guise of a "Porch Party" and their games and plays were staged on the spacious veranda.
Music, too, had its part in the general enjoyment.
Refreshments were served at the close of the happy evening to which the youthful guests did full justice.
He was therefor of many appropriate gifts from his young friends on this occasion.
Those who shared the enjoyment with the young host were John Billings, Donald Vestal, Howard Wiley, Mary Wiley, Ellen Wiley, Velma Jordan, Lois Wiley, Bobbie Winebarger, Rollin Jordan, Marion Frost, Arthur Gilbert, Mrs. Gilbert, Mr. and Mrs. G. O. Van Natta, Mr. and Mrs. Albert Johnson and Merle Gilbert, the host.

NEW POSITION IN CALIFORNIA

O. F. Blumfield is leaving for Long Beach, Calif., where he will accept a position with the Northern Pumping Station. Mr. Blumfield is well known in Ashland, having been connected with civic duties during his residence here.

NORTH BEND—GOVERNMENT WORK ON COOS BAY JETTIES SHOWING PROGRESS AT CHARLESTON BAY AND ON BOTH SIDES PIERS AND DOCKS ARE UNDER CONSTRUCTION

Immense telescopic cameras forty and sixty feet long, gigantic reflectors and a number of smaller instruments will be moved into Mexico for the purpose of photographing the sun during its total eclipse next September, according to plans announced here by Dr. A. E. Douglas of the University of Arizona, says a Tucson correspondent of the New York World.
Doctor Douglas will head an expedition, while a second will be conducted by Prof. W. A. Cogshall of the University of Indiana.
The Douglas expedition will take with it a forty-foot-focus camera which will reproduce the sun with a five-inch diameter. An even larger camera, with a sixty-foot focus, will be taken by the Cogshall expedition.
These cameras will be held in position by means of specially constructed towers.
San Felipe, 134 miles south of the international boundary, has been selected as the site of the Cogshall expedition's observation. Doctor Douglas has not definitely selected his location.

Phone 211 41 East Main

Yes, Why?

"Do you think I shall live until I'm 90, doctor?"
"How old are you now?"
"Forty."
"Do you drink, gamble, smoke, or have you any vices of any kind?"
"No, I don't drink, I never gamble, I loathe smoking; in fact, I haven't any vices."
"Well, good heavens, why do you want to live another 50 years?"

The Test.

Villager (standing at his gate holding a dog on a leash, to passing neighbor)—"Won't you step in and chat a moment, Monsieur Paul?"
Neighbor—"You're sure your dog won't bite me?"
Villager—That's just what I want to find out. I only got him this morning.—Pettit Parisien, Paris.

Impending Catastrophe.

It was in the midst of a nose dive, and Reginald, who was making his first flight, tugged frantically at the pilot's sleeve.
"We better get away from here," he shrieked; "the earth's swelling up like a balloon and it's liable to bust any minute."
