

# ASHLAND DAILY TIDINGS

THE TIDINGS HAS BEEN ASHLAND'S LEADING NEWSPAPER FOR NEARLY FIFTY YEARS.  
(International News Wire Service)

MALARIA GERMS cannot survive three months in the rich ozone at Ashland. The pure domestic water helps.

ASHLAND CLIMATE, with out the aid of medicine cures nine cases out ten of asthma. This is a proven fact.

NO. 15

## ENGLAND TURNS DOWN PROPOSAL OFFERED BY U. S.

### Extension Of Legal Limit For Searching Ships Not Desired

### WILL REFER MATTER TO IMPERIAL MEET

### Desire Of United States To Extend Present Three Mile Limit To Twelve Miles Not Received With Favor By English Government.

Washington, Sept. 19.—Great Britain has virtually turned down the proposal recently made by the American government to extend the legal limit of searching ships at sea to twelve miles, the state department announced today.

#### Refusal Softened

The refusal of the British Government to honor the American request was softened by the promise to submit the proposition to an Imperial conference in London to be held in October to be attended by the premiers of all the British colonies.

## HAWLEY SPEAKS AT LITHIANS LUNCHEON

Congressman Hawley was the guest of honor at the Lithian banquet held this noon at the Hotel Ashland at which the wives of all the Lithians were also present. Congressman Hawley in keeping with Constitution Week emphasized law enforcement in his talk and also emphasized the growing need of moral uplift in the nation.

Fred Holmes, president of the Chamber of Commerce told the Lithians what they could do to assist the Chamber of Commerce in boosting Ashland and the community as a whole further along the line which they have already been following.

Secretary J. H. Fuller of the Chamber of Commerce gave the talk with which he won the national cup for the best impromptu speech at the school for chamber of commerce secretaries held by Northwestern University at Evanston, Illinois this summer.

High Fliz, V. D. Miller, of the Lithians made a few remarks at the opening of the meeting complimenting the members on their "pep" and urging them to make the organization as good a boosting asset to the community as possible.

The Lithian Octette was selected to represent Ashland at the State Fair, on Thursday, September 27, and they will have their expenses furnished by the organization.

Mr. Lincoln the Kiwanis organizer for the district was present and complimented the Lithians on the spirit which they were showing in the organization as a whole.

The Lithians decided that there would be no dance in the Pavilion this week.

## MRS. MILLER OFFERS ARTISTIC DISPLAY

Lovers of artistic and fascinating remembrances, will be glad to know that Mrs. J. T. Miller, a new resident of Ashland, is displaying novel sachet bags, coat hangers, pillows and many novelties, specially prepared by herself.

The tokens, are the hand work of Mrs. Miller and the various articles are made with bright colored organza and ribbon, filled with flowers grown in the park and prepared so that the natural odor and shape of the flowers are retained, making the interior of the bags resemble a flower garden. Pansies, roses and shasta daisies are among the flowers used and they can be handled without becoming broken or misshapen.

The method in which Mrs. Miller prepares the flowers for use is one of her own formulas, learned many years ago in Georgia and handed to her through generations. Six weeks are required in the preparation from the time that the flower is gathered until it is ready to fill its niche in the use with the maker.

These various novelties were on display at the fair, but no prize was given for their exhibition, the main idea in displaying them being to familiarize the public with the work conducted that few persons re-

## FOOTBALL TEAM TO BE STRONG

### Seven Lettermen Out First Night, With Others Soon To Come

With the biggest turnout, both in numbers and size, that the local high school has ever had for football the first week of practice, prospects for a winning team are very good according to Coach Walter Hughes, who has guided the destinies of the Ashland athletes for the past three years and took the basketball team through to a state championship two year ago.

With seven lettermen out the first night and indications that at least two more will be out before the end of the week the prospects for a veteran team are bright. The seven lettermen who reported for the first practice are Thornton, Marske, Moffet, Wild, Chapman, Carlon and Dix and both Hobson and Beeson have signified their intentions of returning soon.

Several of these men have played two seasons and should produce a real team this year and should have an especially strong and heavy line as all the men with the exception of Marske who are out at present are linemen but the return of Eli Beeson will greatly strengthen the backfield.

Marske handled the quarterback position throughout the season last year and with the experience gained should be able to put over some real heavy work this year especially with the strong line which will be on hand to open holes for the backs.

Barton Frulan is one of the most promising of the second string at present and should be able to fill one of the backfield positions left vacant by the graduation of Chuck Rush and Clem Clark. Hobson who is expected to enter school soon is an experienced end and has already filled that position for two seasons so should be the best in Southern Oregon this year if he plays as he should.

Ermal "Bo" Carlon who hails from Eastern Oregon, has had two years experience already in handling the center position at present and with broncho busting experience behind him should be able to keep other teams from making yardage through the center of the line.

Another man who is new here this year but has all the earmarks of a real football player is a young fellow from Hillsboro by the name of Goodin. He plays either full back or tackle and shows quite a bit of ability for a new man.

The regular Alumni game which has been played for the last four or five years was called off this year by Coach Hughes as in the game last year he greatly underestimated the powers of the graduated men and when they won from the High school team by a large score it served to put a damper on the spirits of the younger men for some time. Because of this reason and also because the first scheduled game is only a little over a week off the Coach has deemed it impractical to play the games until later in the season.

## NORTHERN CALIFORNIA BASEBALL TEAMS PLAY

REDDING, Calif., Sept. 19.—Two ball games were played in this part of the state Sunday by pro-league teams that made far flung journeys by automobile. In Dunsmuir Susanville played Weed for the alleged championship of the northern part of the state. There never before was such a jam of people in the Dunsmuir baseball park. The score was: Susanville, 4; Weed, 0.

A great deal of money changed hands. Dunsmuir and Weed sports backing Weed.

In Weaverville, Grass Valley played the Weaverville Highways. The score was: Weaverville, 7; Grass Valley, 2.

Weaverville, flushed with another victory and mildly incensed that Susanville and Weed claimed to be fighting in Dunsmuir for the Superior California championship, at once telegraphed a challenge to Susanville for a real championship contest and for a purse of \$500. It is reported here that Susanville has accepted the dare.

A. J. Breidwieser of Susanville said here: "Susanville has accepted Weaverville's challenge to play baseball for a \$500 purse and the championship. Susanville offers Weaverville \$250 expense money to come to Susanville for the game."

Time and place will be determined when Breidwieser passes through Weaverville on his way to Eureka.

Miss Emma Vasovic & Mrs. Roy McGlone.

Miss Emma Vasovic, 19, and Mrs. Roy McGlone, 30, were found brutally murdered in the apartment of Mrs. McGlone. Police are searching for Joe Brindisi, a Sicilian, with whom Mrs. McGlone is said to have been friendly for several years, on the theory that the crime was committed by a jealous-raged man. Mrs. McGlone was the wife of Roy McGlone, athletic instructor, of Denver. The couple had been married eight years, and according to McGlone, Mrs. McGlone had lived in fear of Brindisi for many months. McGlone was out of the city when the double tragedy was enacted. Miss Vasovic had been a chum of Mrs. McGlone.

## COOLIDGE BREAKFAST INVARIABLY THE SAME

BOSTON.—"Two Special No. 1 for Mrs. Coolidge and an orange for me."

This was the "invariable" breakfast order of Calvin Coolidge, when, as Governor, he lived at the Adams House with Mrs. Coolidge.

Take it from one who knows—"Mac," their regular waiter, who rushed the coffee and cereal, and had the entrée to the gubernatorial room when the executive was sick.

No one is better acquainted with the gastronomical tastes of the President of the United States and the First Lady of the Land than "Mac"—not even the housekeeper, who declares that "Silent Cal" has a weakness for custard pies. "Mac" served breakfasts and dinners, and sometimes luncheons, to the Coolidges for some sixteen months.

"Mac," incidentally, is known to hundreds of diners out all over Boston. For years he has been employed in first-class hotels. Now he is the Ganymede who rushes fllet mignons a la Woodcock, and Baked Alaska, to epicures at Rich's Grill on Federal street, where patrons love to sound him on his somewhat conservative political opinions.

He believes "Coolidge will make a fine President," but his spontaneous enthusiasm is for Mrs. Coolidge.

"There's one lady that is in her right place at last," he declared. "Mrs. Coolidge is a fine woman, a real lady, and the White House is just where she belongs."

His real name is Austin McKough and he lives at No. 96 Marshall street, Winthrop, where in leisure hours he digs in his vegetable garden and disciplines six little McKoughs.

## LABOR FEDERATION PLANS CONVENTION

Portland, Or., Sept.—Plans are being rapidly formulated here for American Federation of Labor which will meet at the Labor Temple, October 1 to 14. It will be the forty-third annual gathering of the organization.

President Samuel Gombers will be in attendance and labor leaders are of the opinion that he will be elected unless a dark horse arises. At present no suggestion has developed that there will be any opposition to re-electing him. The last effort to oust him failed two years ago, when President John L. Lewis of the United Mine workers was defeated.

The usual skirmishes between the radical wing of the labor movement and the conservatives are expected. Efforts will likely be made to obtain adoption of a resolution favoring recognition of Russia, with the consent.

The widest divergence is said to exist between Russian recognition which the American Federation of Labor heretofore has opposed and Mexican recognition which it has favored. Leaders point out that conditions are not at all on a par because in Mexico the workers retain their freedom and actually benefit by the revolutions, whereas, in Russia it is held they have become more enslaved than ever they were under the czarist regime.

## CRESCENT CITY ROAD WILL BE COMPLETED

One of the most encouraging signs pointing to the rapid completion of the Grants Pass-Crescent City highway, received in many months was seen today in a letter received by Resident Engineer J. G. Bromley, of the local highway office, from the state office. Mr. Bromley was asked to prepare an estimate as soon as possible of the cost of the road from Grants Pass to the California line. This is taken to mean that the state is now interesting itself in the building of the road to connect with the work being done on the California side of the state line.

The only part of the road which must be surveyed by the local highway office lies between the Applegate river and Kerby. The survey has been completed to the Applegate and a large amount of work done on the highway, which has been graded and widened. From Kerby to the line the survey has been laid out. The party will get to the rest of the highway as soon as possible.

The Plaza Confectionery operated by Minard and Taylor is in the process of a big program of improvement at present consisting of the construction of a banquet hall and dining room at the rear of the building which will be unsurpassed in Southern Oregon in its service to the public according to the efficient manager.

The room is to be finished in hard wood and will have a hard wood floor in order that dancing may be indulged in by the special parties, which are to be held in the room.

The room at present in a state of construction will be ten by 38 feet and the total cost of finishing and equipping the new feature of the Plaza service is estimated to cost close to \$1000 by the management.

It is the plan of the management that special parties will be held in the room and also special banquets tables will be installed which can easily be removed making the space available for dancing.

The construction is going on rapidly at present and it is estimated that it will be finished in the process of another week.

The room is to be opened only on special occasions Mr. Taylor says as the expense of operating the place will be considerable.

**INTOXICATION CHARGED TO LODI TRUCK DRIVER**

LODI, Cal., Sept. 19.—James Devino of Woodbridge, was arrested yesterday by local officers on a warrant charging him with driving an automobile while under the influence of liquor. A. E. Schroeder, 215 North Union Street, Stockton, swore out the warrant after sustaining painful injuries as a result of a collision with Devino's truck Sunday.

After the warrant for his arrest was issued Devino sought an opportunity to settle the damage claim outside of court. The two parties were referred to the district attorney by Justice J. H. Salkmore, who issued the warrant.

## CITY COUNCIL WORRIED OVER WATER PROBLEM

### Question Whether To Build Reservoir Or To Buy From Talent Company

### MAYOR BELIEVES BOTH NECESSARY

### Construction Of Warehouse On Second Street Starts Immediately To Be Used For Storage Purposes By Three Departments.

Rather a mean battle was waged at the regular Council meeting last night over the water proposition of Ashland as Chairman S. A. Peters Sr. of the Water committee and most of the members of the committee came out strongly in favor of the idea of constructing a new reservoir on the south fork of Ashland creek while City Water Superintendent Hosler was evidently in favor of the plan of securing an additional water supply from the Talent irrigation company.

### May Use Both

According to Mayor Loomis the present indications are that both methods will have to be used in order to secure a sufficient supply of water for the city if the use increases in the future as much as it has in the past.

### Stiff Fight Ahead

The Mayor believes that before many years the entire supply from Ashland creek will be necessary for the household and domestic purposes while the supply taken from the Hiatt project can be used for irrigation purposes only. Other members of the Council think differently though so it looks as if a stiff fight faces the city in the securing of additional water supplies.

### Storehouse to be Built

The Council authorized the construction of a one story cement warehouse at the corner of C and first Avenue streets the building of which is to start immediately. This warehouse will serve as a storehouse and warehouse for the Water Electric and Street departments of the City. The construction of the building has been placed in the hands of Easterling, Walker and Hosler superintendents of the respective departments.

### Much Pipe Bought

City Water Superintendent Hosler was granted permission to expend \$8751 for the purchase of pipe for the work of replacement and addition to the city water mains. Part of this pipe will be of the ten inch variety.

### Pfeffy Gets Contract

J. D. Pfeffy was awarded the contract for the construction of the sidewalk on High street and the Council also decided to put additional sewers in district 26 as soon as possible.

### MANY NEW BOOKS NOW AT LIBRARY

The Public Library has added several new books that will interest the scientific reader, as well as owner of the ever-popular motor car. Every volume is complete in itself and is bound in high grade composition material.

Scientific instruction in the use of radio outfits and transmission are treated at length in two volumes. Minerals and rare ores, their composition, and formation will interest the student who knows the possibilities held in position of the earth.

There is also a study in Geology and a book giving detailed information in the repair lines of Ford cars, trucks and tractors.

All of these books have just come to the library and will soon be placed on the circulation list.

### Mountain Product to Market

Charles and Vernon came to Ashland the earlier part of the week from Dead Indian. They brought a band of goats which were raised in Dead Indian.

### Generosity Displayed

A number of boxes of fine peaches were given last week by an Ashland fruit man for the Children's Farm Home at Corvallis. This gift was very much appreciated by the ladies of the W. C. T. U. who have this home in their care.

## PORT ORFORD BOOSTS ROAD

### Curry County People After Improved Highway To Coast

To be present while Oregon cedar to the amount of 3,000,000 feet, which will be used in the reconstruction of districts in Japan devastated by earthquake, is loaded into the hold of the "Frogner," a Norwegian steamer of 9300 tons, Port Orford, Curry county, has extended an invitation to the people of Klamath, Josephine, Jackson, Coos and Curry counties to be at Port Orford, Saturday, September 22nd.

During the gathering, plans will be further developed for the proposed construction of a paved highway that when completed will link Klamath Falls with the Orford, using that part of the Pacific highway already constructed from a point south of Ashland to Merlin, a short distance north of Grants Pass.

To insure a local representation, the Ashland Chamber of Commerce has been requested to send a delegation to the meeting next Saturday. It is expected that Ashland, Grants Pass, Klamath Falls, Marshfield, Medford and other parts of Southern Oregon will be represented.

Advocates of the proposed highway are urging that it be such paved capacity as will carry trucks of five-ton capacity and stand the traffic, thus insuring to Southern Oregon a permanent outlet to the ocean at Port Orford, which port when improved will be large and deep enough to accommodate the largest vessels afloat.

Strong efforts will be made to secure federal and state aid in building the highway, which will greatly decrease the sum to be raised by the counties affected.

United States Senators Charles L. McNary and Robert N. Stanford, C. H. Purcell, District Engineer Bureau of Post Roads; George H. Cecil, District Forester, the State Highway Commission and others have been invited to be present to become familiar with the possibilities of Port Orford as an important shipping point and the advantages of the proposed highway.

## NEGRO NOT ARRESTED AFTER WEED FIGHT

WEED, Cal., Sept. 19.—Joe Thornton, colored, was not arrested here on September 7th on a complaint sworn to by Sherry Platt, manager of the Weed Company Store charging that Thornton had threatened the life of C. Young, a clerk in the store, as was stated in a published announcement.

This is the statement by Justice of the Peace J. P. Bradley, who also says no one else swore to or made complaint against Thornton in his court or any other court known to him. Platt also denies swearing to a complaint.

The announcement of the arrest was made following an encounter in the store between Mrs. Hester Thornton, wife of Joe Thornton, and Young, a clerk, during which each is said to have hurled vegetables and canned goods at each other.

## ASHLAND DAHLIAS TAKE FIRST PRIZE

Dahlia as from an Ashland garden that of Mrs. Homer Elhart took two first prizes in the Jackson County Fair exhibits of flowers held at the County Fair grounds last week as her entries in both the General and the Cactus collections took off both first prizes although they were entered against the flowers of professional growers.

There were fifteen varieties of Dahlias represented in the General class and five classes of five blooms in the Cactus Collection, in both of which the flowers of Mrs. Elhart, were judged the best.

In the general collection the HI Gill Gesla and Issulinda stood out distinguished particularly for their beauty and coloring and in the Cactus varieties the Hohannsburg Reischer Froshim and the F. W. Fellows are preeminent in their class.

Mrs. Elhart also took first and second prizes with her entry of red basketry in the Fair.

Deschutes county votes \$130,000 road bond issue.

## KLAN FIGHT IN OKLAHOMA WILL BE CONTINUED

### State Labor Federation To Back Governor Walton In Campaign

### PRESS CENSORSHIP LIFTED AT TULSA

### State National Guard Being Mobilized In Case Force Needed To Enforce Orders Of Governor Against Ku Klux Klan.

Oklahoma City, Sept. 19.—Supported unanimously by the State Federation of Labor in his determination to drive the Ku Klux Klan out of Oklahoma, Governor Walton today "took heart" declaring himself more firmly determined to fight than ever. He showed not the slightest sign of backing down in his fight to eradicate "Mob Justice" from the state.

### Press Censorship Lifted

Tulsa, Okla., Sept. 19.—Censorship of the Tulsa Tribune started yesterday by military forces, enforcing martial law here, was lifted tonight by orders received by Adjutant General Baird H. Markham from Governor J. C. Walton.

Major Turner Rorark was withdrawn from the Tribune offices and editors were informed they might print whatever they wished. No explanation of the lifting of the censorship was made public.

### Troops Gathering

Oklahoma City, Okla., Sept. 19.—Thirty-three hundred Oklahoma national guardsmen began gathering in their armories at this hour to carry out the edict of martial law for the state, issued by Governor J. C. Walton. Orders went from the capitol immediately to all commanders to get their men ready for duty.

## STRIKES AT BEE AND TURNS CAR ON SIDE

MARYSVILLE, Cal., Sept. 19.—Bennett Coffman, Oroville youth, is having a costly experience for demurring to the entrance of a bee into his automobile as he traveled along the highway.

While traveling at the rate of about thirty miles an hour on the Marysville-Oroville highway, Coffman struck at the bee. In a twinkling he lost control of his automobile. It landed on the side of the road upside down, with Coffman pinned beneath the door.

A party of Marysville autoists happened along while the wheels of Coffman's machine were yet twirling in the air. With the aid of an iron bar they removed the car from Coffman's body and took his to an Oroville hospital. Internal injuries are feared. His automobile was wrecked.

### PACIFIC MAIL LINER CUBA IS TOTAL LOSS

LOS ANGELES, Sept. 19.—The Pacific Mail Liner Cuba, which went ashore on a reef off San Miguel Island, has been abandoned, a total loss. This loss is estimated at \$400,000.

It is said the ship's destruction was not due so much to the pounding of the waves against its sides as to the swelling of a cargo of coffee which became water soaked and exerted such force against the holds that the hull and decks were forced out of line.

## KLAMATH FALLS SAFE ROBBED SUNDAY NIGHT

KLAMATH FALLS, Sept. 19.—One thousand dollars was taken some time Sunday night or early Monday morning from the safe in the City Laundry, a Japanese concern, located on Main Street, near Link River.

Frank Nakata, owner of the laundry, reported the robbery yesterday the discovery of it not being made until the safe was opened late in the day. The safe was in the window in full view of any one passing along that section of town has very little traffic after midnight.

The police have no definite clue but a roundup of suspicious characters is being made.
