High, local dealer in Hudson, Essex, Maxwell, Chalmers and Gray cars.

League Re-organizes— Debts and credits that bounce in the business man's head, were given a severe jolting last night when the Y. M. C. A. business men's league met for the first time this year to play volley-ball in the gymnasium of the old Normal building. This is the third successive year that business men have used an athletic standing as one of the means to become better acquainted and inter-membership games have given a touch of rivalry to the activities. Twenty men are invited to join the league which meets regularly two times a week. Recreation and amusement are the chief goals worked for by the contenders.

Miss Luman enjoys Vacation— Miss Grace Luman enjoyed a prolonged vacation this summer that covered many miles of the "Pacific Main Street." Leaving Ashland the middle of August, Miss Luman journeyed to Canada, Vancouver, B. C. and Victoria being a sight-seer and having her fill of romantic bits of legends and Parliament buildings. After seeing the greater portion of those cities she returned to Tacoma, Centralia, Seattle and stopped in the Yakima Valley to visit the home of her brother. Typhoid fever overtook the local traveler and ended her frivolities for a time. She returned to Ashland with her brother, Charles Luman of Medford, who had arrived during her illness to visit at the same home.

Fully recovered from her illness and eager for another vacation, Miss Luman accompanied her brother and wife, Mr. and Mrs. Will Luman of Medford on a motor trip to California, Sacramento, Modesto, Oakland, and San Francisco were visited in California and the party were in Berkeley soon after the fire. Coming north the party visited at the home of Mr. and Mrs. Clayton Smith, Mr. Smith being manager of the Keno Power Plant at Keno, and had the good fortune of bringing 17 trout home as post memorials of their long outing.

Caught on the Rounds— The exterior of a portion of the Hardy Bros. grocery store is being re-decorated today with a covering of green paint. It is hard to tell today how much more of the building will be painted. The Lithia Bakery in their new home at 383 East Main Street have added a daylight sign to their advertising schemes. The sign has a background of yellow with black letters, making an effective display. Holmes Grocery is hastening to complete the new roof being laid on their establishment. Hot tamales are advertised since the coming of wet weather and attract the eye of the cold-blooded creatures. According to reports they are hot and you'll find them at Rose Bros.

(Continued from Page 1) GOLF LINKS AND HOTEL ARE NEEDED The latter on the West and by Nevada Street on the North, and on the South by Bear Creek, which with a creek running diagonally across it supplies the necessary water hazard. There are enough other natural hazards or traps in the shape of brush and trees to make few artificial bunkers necessary. What is a bunker? It is a man-made depression in the "fair way" placed there to trap the ball on the unwary as a test of his golfing ability, and too often, alas, of his powers of expression. Apropos: Two worthy Scots were recently indulging in their favorite game of "golf." One asked the other's caddy: "Tom, whaur is McTavish, is he lost?" "Na, I just left him in a bunker wi his machie and his Maker." The Scotch visitor then related a story of a minister, who is an ardent follower of the game and who, when playing very indifferently on one occasion exclaimed: "I must give it up." "What," his opponent asked, "the golf?" "No, the ministry!" Mr. Cormack said: "There is a saying that if golf interfere with your business give up the business, but that is not necessary. In fact there is no better antidote for a man's business worries than a round or two of golf. "I am offering no suggestions, but ways and means could be devised for the acquisition and necessary development of this or any other suitable tract either by the city, a club, a syndicate, or individual. The upkeep, of course, could take care of itself by a charge of so much per day or round. In Portland the city charges 25 cents for nine holes. Golf is not a rival of the more strenuous games of football, baseball or tennis, but fills a niche in the athletic world all its own. It can be played by young men or old, man or woman, boy or girl, and it is one of the most democratic pastimes known. "I do hope that my dream will come true, and that Ashland will in the near future add to its many natural attractions by acquiring both a modern golf course and a hotel."

Graduate Nurse Finds "The Perfect Remedy."

"From my long experience as a professional nurse, I do not hesitate to say I consider Tanlac the most efficient and natural stomach medicine and tonic to be had. It is undoubtedly nature's most perfect remedy," is the far-reaching statement given out for publication, recently, by Mrs. I. A. Borden, 425 Pontius Ave., Seattle, Wash., a graduate of the National Temperance Hospital, Chicago. "I have used Tanlac exclusively for seven years in the treatment of my charity patients," said Mrs. Borden, "and my experience has been that for keeping the stomach, liver, kidneys and bowels functioning properly, and for toning up the system in general, it has no equal. "About a year ago I had a lady patient who could not keep a thing on her stomach fifteen minutes, not even water. I prevailed on her to try Tanlac and after the sixth bottle she could eat absolutely anything she wanted without the slightest bad after-effects. "I had another patient who simply could not eat. I got him started on Tanlac and by the time he finished three bottles he was eating ravenously and able to work. "These two instances that are typical of the wonderful merits of the medicine. My confidence in Tanlac is unlimited." Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold. Tanlac Vegetable Pills are Nature's own remedy for constipation.
