

**LOCAL AND PERSONAL NOTES**

A Daily Chronicle of those who come and go, and events of local interest.

**Oriental Braid—**  
In batik figures will ornament your made-over frock at a low cost.

**If Anything Could—**  
Make one long for cold weather, it would be the goodlooking winter coats which are constantly arriving in the store. It's a good plan to buy now—then you are ready for Jack Frost's first chilly greeting.

**You'll Constantly—**  
Find a new finishing or trimming use for bias tape. In every width, both white and colored.

**Lace Guimpes with Long—**  
Sleeves offer an easy way to make an old frock look like new. We see them in several styles at the neck-wear counter.

**A Pure-white Pyrex Tea-pot—**  
That is immune to breaking with intense heat, is waiting to sing you to sleep. Pyrex is substantial and secure and makes your table decorated. Midnight tea and a marshmallow roast doesn't sound like much, but when you see these charming tea pots, you'll urge your room mate to divide with you.

**One More Basket—**  
Will hold all your needles and pins and darning outfit; with a simple touch, lift out the upper portion of the basket and make a fruit divan of it. The novelty and cunning doesn't express the thrill you'll receive out of these baskets with their bunches of grapes and white poppies.

**For the Front and Back—**  
Porch to keep the heavy rugs and polished floors tidy, you'll find deep heavy mats to tread on before entering the house after you've been in the rain and dampness. They're pretty and the children will delight in fussing with their over-shoes to keep them spic and span. Any furniture store will gladly show you their display and you won't be able to resist the utility and harmony of design and purchasing price.

**To Cover Your Davenport—**  
Table, there are heavily embroidered scarfs of oriental exquissiteness. Think of a black marble mantle with a mirror in walnut frame beaming on a beaded fire screen. Fashion Tears a Leaf—
