PROSPERITY OF OREGON ON INCREASE

Report of Business for Past
Week Shows Good Growth
in State

PRICES ARE RAISING
FARMERS HOPEFUL

Portland Cargo Record Broken
in \$725,000 Wheat Ship-
ment to Orient

Western states are humming with agricultural and mineral development. Building operations, railroad and electrical development are getting under good headway and farmers feeling more hopeful with prices advancing.

Oregon has received \$168,111.95 from the Forest Service, as its share of receipts from national forest resources during the fiscal year of 1923. Oregon contains 13,137,447 acres on national forest lands.

Lumber cut of 134 sawmills last week manufactured 113,203,158 ft. of lumber; sold 119,181,963 feet; and shipped 106,660,661 ft. Production was 25 per cent above normal. New business was five per cent above production. Shipments were 11 per cent below new business.

Beaverton—Citizens bond town for \$65,000 for new water system.

Corvallis—Pac. Tel. & Tel. Co. supplying 2700 subscribers here.

Silverton—New high school proposed.

McMinnville—160,000 fish planted in Yamhill county streams.

Astoria—Erection of new \$210,000 hotel assured.

Oregon's apple crop for this year estimated at 6700 cars.

Commercial fishermen on upper Rogue River received \$10,777 for salmon catch this year.

Work on Redwood highway from Grants Pass to state line to commence soon.

McMinnville—Ground broken for \$100,000 Baptist church.

Oregon City making rapid progress on new water system. Completes 600,000 gal. steel tank.

Albany has furniture factory with \$5,000 monthly payroll.

Astoria to have new grade school in west end of city.

Oregon City—\$30,000 Congregational church to go up.

Contracts to be let Nov. 1 on Redwood highway from Grants Pass to state line.

Talent—634 acre fruit ranch sells for \$240,000.

Prineville—Daguerres (Pr. Co. plans \$100,000 power plant.

Newberg—Council votes to improve more streets.

Roseburg—Calif. Ore. Pr. Co. files application for permit to develop power of North Umpqua.

Estimated potato yield in this state placed at 4,500,000 bushels.

Marshfield—Englewood coal mine starts actual production of soft coal.

Banks votes \$32,000 bonds for installation water system.

Oregon wheat yield estimated at 26,300,000 bushels compared with 19,774,000 bushels, last year; oats at 10,500,000 bushels.

Klamath Falls celebrates laying first rail on Natron Cutoff extension of Southern Pacific railroad from Eugene to Weed.

Work started on Portland \$300,000 showcase factory.

Stayton—\$80,000 young salmon turned into Santiam.

Corvallis—New Methodist church has 31 rooms.

Albany—Charles Alexander, Editor, Sunday Democrat, has a novel published, "Fang of the Forest."

Bend to have a state approved filtration plant.

Oakridge growing rapidly—railroads build towns.

Corvallis—Odd Fellows to build hall on site of old M. E. church.

Salem—North 20th street to be paved.

Portland—Willamette Iron Works awarded \$251,403 pipe line contract.

Salem—Per capita expense of state institutions except prison and tuberculosis hospital reduced.

Cottage Grove cannery packing 8 tons prunes daily.

Dallas to spend \$50,000 on sewage system.

LaGrande to spend \$66,234 on paving.

Portland—Willamette Iron & Steel Works to add \$100,000 new equipment. Annual payroll in excess of \$1,500,000 with 1,000 workers.

VETERANS ARE EXPECTED TO WAGE WINNING BATTLE IN CONGRESS THIS WINTER

WASHINGTON, Oct. 16.—Veterans of the World War, though the consolidated efforts of their various organizations, are expected to wield a more powerful influence when Congress convenes in December than they have any time since the 5,000,000 men and women received their discharges from the army and navy and returned to civil life.

The only shoat in the course that has already been charted for the veterans is the possibility of friction over whether the omnibus measure to carry relief to the disabled veterans is to give way to the bonus bill. Some leaders of the veterans profess to believe the disabled veterans will receive first consideration at the hands of Congress, after which will follow the battle of the bonus.

The power of the World War veterans has steadily been strengthened during the last few months, since all recognized national veterans' organizations came together in Washington at the suggestion of the Disabled American Veterans and, for the first time since peace was declared, gathered around the council table to work out in common legislation to solve the problems of the disabled. These leaders of the veterans say, have never been satisfactorily solved. They now call for appropriations from the Federal Treasury of nearly \$5,000,000 annually, a large part of which the veterans feel is wasted through needless overhead expenses.

Following the initiative of the Disabled American Veterans, national representatives of the American Legion, Veterans of Foreign Wars, United Spanish War Veterans and the Military Order of the World War are now working on a codification of the laws of the Veterans' Bureau for the purpose of preparing a general measure that will clear up all matters of dispute through legislation.

Once this bill is completed it is planned to have a former service man introduce it in Congress upon the opening day of the next session, and then every veterans' organization will get squarely behind the measure.

The alliance of veterans' organizations, leaders point out, is wholly bi-partisan and is expected to receive its greatest active strength in both Senate and House from former service men who now hold seats. The number of former soldiers in Congress is steadily increasing and such combinations as Representative Royal Johnson, (Republican), of South Dakota, and Lamar Jeffers (Democrat), of Alabama, are expected to give aggressive support on the floor should there be a disposition to delay the action which the veterans will demand, veteran leaders assert.

H. R. REACHERT FOUND DEAD
NEAR HOME MONDAY EVENING

H. R. Reacher, north of Ashland, was found dead in a field, about two hundred yards from the Reacher home last evening, shortly after seven o'clock. He was found by Mrs. Reacher who had become fearful of an accident at his prolonged absence. Mr. Reacher had gone into the field about five o'clock. He would have been forty-seven years old in December. The Reachers have lived on the community for thirteen years. They have no children. Dr. Gregg was called and pronounced the cause of death as heart failure.

Funeral services for the remains will be held form Stocks funeral parlors Wednesday afternoon at 2:30 o'clock. Burial will be made in Ashland.

PROPHESIED LIGHTNING
STROKE COMES TO PASS

SUPERIOR, Wis., Oct. 15.—Neighbors used to merely grin when they heard Joseph Marshall a farmer living near Saunders, Wis., predict that some day lightning would strike him.

Now they are taking his abilities as a forecaster more seriously. Marshall was seated on the porch of his home in a thundershower when a bolt enveloped him in flames. He was painfully burned and his right leg was shattered. Physicians attending him said he had an even chance for recovery.

HIGHWAY BRIDGE NAMED
AFTER HERO OF ARGONNE

PUTNAM, Conn., Oct. 16.—A new precedent was established here when the State Highway Department named a new bridge built to carry a re-paved highway over a river after a local war hero. Harry Clinton Hopkins, who died in the Argonne in October, 1918, is the one for whom the bridge is named. Other Connecticut towns will follow suit.

An electric range can be kept looking clean and bright by rubbing it once a week with vaseline or a cleaning oil and then polishing it with a soft dry cloth.

MODERN LIVING DRIVES PEOPLE MAD IN CHARGE

Hospitals Overflowing as Civil-
ization Speeds Up, As-
serts Physician.

TEETH OFTEN TO BLAME

More Men Than Women Go
Insane, but Are More
Easily Cured

MASSILLON, O., Oct. 16.—Civilization is "literally driving people mad."

Dodging street cars, sidestepping automobiles and eating rich foods are modern contributors to an increasing percentage of insanity, Dr. A. G. Hyde, for ten years superintendent of Massillon State Hospital, told International News Service.

"Each year there is a larger number of patients admitted to the hospital," Dr. Hyde said. "We are 400 over normal capacity now, and more are being admitted daily. There is no doubt that the speed with which the world is living is responsible in part."

Infected teeth often cause insanity, he said, and bad teeth—due to eating rich foods—are more prevalent today than ever before. For that reason a dental clinic is maintained at the hospital. As soon as a patient is admitted his teeth are examined and suspicious molars and bicuspids are extracted.

Tonsils are next examined. Bad tonsils cause insanity in many cases, Dr. Hyde said, and in all cases where the tonsils are found to be diseased they are removed.

Largely Physical

The study of insanity is a matter of elimination," he asserted. "We correct all physical ills so far as possible, and in a majority of cases an improved mental condition results. In fact, mental disease is now viewed in the same light as physical disease."

"Many more cases of mental trouble are being cured now than formerly. This is due to the fact such diseases are better understood and also that patients are sent to the hospitals in earlier stages of their trouble than was formerly the case."

"It is when mental troubles are treated in the stages of inception that cures can be wrought, although even advanced cases can be helped if treated vigorously."

More men go insane than women but men are more easily cured, Dr. Hyde said. Women patients cause more trouble than male patients.

More Males Insane

The proportion of male to female insane is now about three to two, he estimated.

"Fear or sudden shock may cause insanity, but unless there is something in the brain that is not just right the mind will not snap," Dr. Hyde said. "The same is true of disease. There are many diseases that cause insanity, but if the person is free from hereditary taint of insanity and has a strong healthy mind in most cases the disease will not affect the mind."

"The rush of life in the larger cities is responsible for much of the insanity, and that is why when a city grows rapidly and people begin living faster we have more insane from that city."

Keeping the patients cheerful is one of the big things in treatment of the mentally diseased, he said, and for this reason plenty of wholesome entertainment is provided.

Contrary to general impression, Dr. Hyde declared that strait-jackets were not used.

"I have never seen a strait-jacket in use in an asylum in my life," he added. "Certainly we never use one here. We do not resort to solitary confinement either. When a patient becomes violent we give him a shower bath. That usually quiets him."

AUSTRALIA PUTS BAN
ON KANGAROO EXPORT

CINCINNATI, Ohio, Oct. 15.—Australia has placed a ban upon the exports of kangaroos, according to Ellis S. Jacobs, noted Australian hunter, who has just sold fourteen of the residents of the antipodes to the Cincinnati Zoological Gardens.

In a letter to Sol Stephan, general manager of the zoo, Jacobs stated that this would be the last shipment of kangaroos from Australia.

UNIVERSITY OF OREGON,
Eugene, Oct. 16.—Dwight W. Gregg of Ashland, a student in the University of Oregon Medical School at Portland has been pledged to Alpha Kappa Kappa, men's national medical fraternity. The Oregon chapter of the organization is known as the Upsilon chapter.

BRIDGEPORT BOYS HAVE
THE NUMERALS COMPLEX

BRIDGEPORT, Ohio, Oct. 16.—Local youngsters have the figure fever.

Every boy, of grade school age, who owns a jersey has had one or more figures sewed, or painted, on the rear exposure of his outer garment in emulation of the players on the local high school eleven whose jerseys are adorned with numerals.

JOINS ALPHA KAPPA

UNIVERSITY OF OREGON,
Eugene, Oct. 16.—Dwight W. Gregg of Ashland, a student in the University of Oregon Medical School at Portland has been pledged to Alpha Kappa Kappa, men's national medical fraternity. The Oregon chapter of the organization is known as the Upsilon chapter.

Sells Posies for Disabled Vets

Miss Florence Fisher

Miss Florence Fisher is one of the hundreds of thousands of pretty girls who will sell forget-me-nots for America's wounded and disabled veterans of the World War on National "Forget-Me-Not Day," to be observed throughout the United States Saturday November 10.

National "Forget-Me-Not" Day Will Yield Funds to Aid Veterans of War

CINCINNATI, Oct. 15.—America's wounded and disabled veterans of the World War will be benefited a hundredfold by the coming "National Forget-Me-Not Day," of the Disabled American Veterans of the World War, to be observed throughout the United States Saturday, November 10, according to National Commander James A. McFarland, of Dalton, Ga., national head of the disabled veterans' organization.

Commander McFarland is here to start preparations for "Forget-Me-Not Day," which is the annual "day" of the disabled American veterans, assisted by committees of citizens and women in various cities and towns and sponsored by National, State and civic officials. The National Information Bureau, recognized authority on the merits or demerits of movements of this type, has heartily endorsed "Forget-Me-Not Day," and pointed out that the Disabled American Veterans' organization is solely interested in the relief, welfare, legislative, educational and organization plans of the nation's wounded and disabled World War veterans.

REV. KOEHLER RESIGNS
NEVER ATTEMPT TO
JAIL PORCUPINE

Marysville, Cal., Oct. 15.—The Marysville police station usually the last place one would look when in quest of a decent, modern writing pen, has "quills to burn." They're scattered all over the place, the result of an arrest made by Patrolman DeHoff, who acts as a special officer in the western portion of the city.

At an early hour in the morning DeHoff came upon a porcupine. The porcupine contested DeHoff's beat, and for it, was placed under arrest, first being lassoed. At the station the prisoner repelled searching, shooting quills to the great discomfiture of Desk Sergeant Ed Wemple, newspapermen and others. Soon the police office was the porcupine's. In the way of compromise he was led to the Yuba River bottoms and turned loose.

TEACH LOVE IN CHURCH, URGES SYRACUSE D. D.

It's Going On, Anyhow, and
Ought to Be Fostered,
He Declares.

BEST FIELD FOR CUPID
AND YOUNG PEOPLE

Matches Inspired Amid Such
Surroundings Are Most
Successful, Claim

SYRACUSE, N. Y., Oct. 15.—Love-making should be fostered in every church in Syracuse and the art of it taught in the Sunday schools, declares Rev. Albert H. Wright, pastor of the Immanuel Baptist church.

"Courtship is going on in our churches and Sunday schools constantly whether we know it or not," the minister declared today. "It really does not have to be taught to develop, but some guidance should be given in order to have it take the right channels.

"Without the spirit of love-making our Christian Endeavor Societies would have to close their doors, for there would not be enough people to sing anything but a solo. Church Love Purest

"Under the influence of the Sunday school and the Christian Endeavor Society the young people of both sexes are brought together under proper conditions and learn love in its purer sense. This is not always understood and fostered by the heads of the religious organizations.

Sunday school is the best and finest place in the world for love-making, in my opinion. It is the match-making that lasts that is developed with a religious atmosphere.

"What is more natural than for love to develop when young people of sixteen years or over get together in the proper atmosphere? Would Cut Divorces

"Divorces would be greatly decreased if more marriages began in the shadows of our churches and in our Sunday schools. The trouble today is there is not enough religion in the homes and the result is both men and women are too willing to sever the marriage tie.

"Love making was fostered in the churches of Europe during the war, especially in England, where I served most of the time. The soldiers were able to meet the young women under proper conditions either in the churches or in the 'hostess houses.'

"If the church would take an interest in love affairs of young people there would be more happy homes and better, well-cared-for children," said Rev. Wright.

COMMUNITY INTEREST
URGED AS WAR CURE

COLUMBUS, Ohio, Oct. 16.—Attributing responsibility for the World War to "lack of community of interests primarily," State Supreme Judge Florence Allen, addressing the Woman's Association of Commerce here, declared that "if the white race is to maintain its supremacy the Caucasian nations must cultivate this spirit."

Asserting that the white race cannot survive another such conflict as the recent World War, Miss Allen stated that "peace must be assured whether the assurance is brought about through a League of Nations or some other such tribunal."

FAMOUS FRENCH RECIPES

Salmis of Game

PARIS, Oct. 15.—September is the month for the real gourmand to visit Paris for there is a wealth of delectable food on all restaurants—fresh oysters, capons and all kinds of fresh game.

Salmis of wild game is one of the best French dishes and can be made with pheasants, woodcock or partridges.

Roast the game for twelve to fifteen minutes so that it is just bleeding. Brown in oil a few small onions shallots and a bit of garlic with laurel and parsley. Moisten with a little warm water and then add some brown sauce which has been made before hand. Let cook one-half hour.

Remove the skin from the fowl and cut up. Chop and crush the bones and add to the sauce. Boil for a moment and pour over the fowl. Add cooked mushrooms and arrange with crisp croutons about

it.

"Metal Mike" is the picturesque title of the automatic helmsman, a cross between a gyroscope and an electric automatic compass of the Harry Luchenbach. The ship has just made a 12,000 mile trip under the control of the mechanical pilot.
