WHERE THE RAINBOW TOUCHES THE GROUND

The family cat died. The farmer who owned the cat in digging the grave discovered a substance which proved to be gold. This farmer had been mining limestone a long distance for his alfalfa fields. In conference with his country agent, he discovered that marl would take the place of lime in correcting the acidity of his soil. This experience led him to the use of marl that existed on his own farm and saved him much time and considerable expense in hauling.

Similar opportunities have existed and still exist. Many farmers in the middle west will recall what a pest sweet clover used to be. Now this pest is being used profitably as hay and pasture for livestock and as a crop to be plowed under for increasing the fertility of the soil.

Kansas is called the "Sunflower State" and those who have lived there will well remember how they have fought this weed. Today sunflowers are being grown as a crop, as feed for chickens and it is also being utilized with or without corn as a suitable crop for the silo.

It is surprising to discover how many things which were frowned upon in days gone by are now serving a useful purpose. These changes have been brought about by observation and study. Brasils count on the farm as elsewhere. The man who thinks while he is performing physical work is not only opening up the way for larger profits but he is removing the word drudgery from his vocabulary and is transforming what used to be a drudgery into a profitable pleasure.—The Banker-Farmer.

WATKINS PERSISTS IN SPITE OF OPPOSITION

WASHINGTON, Dec. 6.—In the face of announced opposition by President Coolidge, Representative Watkins, of Oregon, continued to advocate a soldier's bonus by presenting plans for raising the necessary money which he claims will not bear heavily on taxpayers.

establishing agriculture," the President recommends that the War Finance Corporation be given power to extend liberal credit to aid in the exportation of surplus American crops. He also approves the creation of co-operations.

Portland—Two apartment houses, totaling \$56,000, to be erected on East Side.

SOCIETY

(Continued from page 3)

matter is receiving their serious consideration. The plans for the reconstruction of the room the Auxiliary will occupy includes tinting, painting and new hangings. The Legion has offered to bear half the expense of this redecoration.

The Auxiliary is also solidly behind the lyceum lecture course and the members are working to stimulate interest in that.

They have enthusiastic plans for coming social activities. Their meetings will be on Mondays evenings hereafter, twice a month.

Alpha Chapter Elect Officers—

At the regular meeting of Alpha Chapter No. 1, O. E. S. Tuesday evening in Masonic Hall the following officers were elected: Worthy Matron, Mrs. Effie Brown; Worthy Patron, Dr. W. E. Blake; Associate Matron, Mrs. Margaret Whittle; Secretary, Mrs. Leah Caldwell; Treasurer, Miss Lydia McCall; Conductress, Mrs. Nellie Peters; Associate Conductress, Mrs. Mazie Bates.

After the business session, a very pleasant social hour was spent. Delicious refreshments were served at the close of the evening.

Highways and Forests
 The President pledged the support of the Government to plans for highway development and reforestation.

In concluding his address the President voiced an appeal for a "more practical use of moral power" in settling the problems of the world.

"Our authority among the nations must be represented by justice and mercy," he said. "America has taken her place in the world as a Republic—free, independent, powerful. The best service that can be rendered to humanity is the assurance that this place will be maintained."

Reclamation
 Steps should be taken to extend financial relief to occupants of Government reclamation projects. The President said this would involve a Government investment of

more than \$135,000,000.
