strength and be in the office for McCormack Choses Song Hit of the Season

Waltz Ballad Written by Trio of Artists Selected

New York City.-They put it up to John McCormack this year to select the world's most representative popular song. There were thousands of con-

testants for the honor and innumerable new tricks of lyric

Altogether the jolly Irish tenor was as embarrassed by riches as the man to whom falls the duty of selecting the Follies chorus. 94-3* But finally, Mr. McCormack, records.

judging on the general beauty of sentiment and melody, awarded the crown to "Wonderful One," song written by three masters of their arts, Paul Whiteman, op chestra leader; Dorothy Terris lyricist, and Marshal Neilan, motion picture director.

The decision summed up "Wosderful One's" merits as those of sincerity, simplicity and real musical quality.

"The song of the year holds both the dancer and the singer," declared McCormack, and to show his approval, he recorded "Wonderful One" on the phonograph

Slump in Its Use

Failures of Lightning Rod Cause

Though 75 years ago there were lightning rods in every hamlet in the United States, it is said that a government report, citing many failures of conductors to protect property, he caused such a slump in their use that today the government census does not record one factory making the apparatus. Invented by Benjamin Franklin in 1752, this protection against the dangerous electrical flashes was widely used until the report of the Lightning Research Committee in 1905 caused the public to lose faith in its value.

Forty-Thousand-Mile Flight Gets Bee Pound of Honey

Flights totaling more than 40,000 miles must be made by a bee to gather enough nectar from the flowers to make a pound of honey, experts have recently figured. Gathering the sweet liquid within a radius of two and a half miles from its hive, it is estimated that the little housekeeper travels at least one and one-half miles for each drop. It takes one-half gallon of this substance to make one pound of honey. At the same time, it is id, the busy worker also carries plant pollen and water with which the young brood is fed.
