TWO PEOPLE KILLED IN AUTO ACCIDENT

UNDERWOOD, Wash., Dec. 28.—Chester Silas was killed and Mrs. Minnie Howell died several hours later of injuries sustained when an automobile on the Chenoweth hill grade, in Little White Salmon valley, Christmas morning, Louie Sam, the third occupant, was in a serious condition today. Mrs. Howell's death evidently was due to gasoline burns and exposure. The victims were not found until nearly 12 hours after the accident. The mishap is said to have occurred about 2 o'clock at night. Silas met death when the machine overturned, it was indicated.

80,938 DEATHS DUE TO CANCER IN 1922

Report of Bureau of Census Shows Increase Over 1921.

WASHINGTON, D. C., Dec. 28.—The Department of Commerce announces that compilations made by the Bureau of the Census show that 80,938 deaths were due to cancer in the death registration area in 1922, which comprised about 85.3 per cent of the total population of the United States, and if the rest of the United States had as many deaths from this cause in proportion to the population the total number of deaths from cancer in the entire United States was 95,000 for 1922, against a corresponding estimate of 93,000 for 1921.

The death rate from cancer in the registration area in 1922 was \$6.8 per 100,000 population as against 86 in 1921. Only five states show lower rates for 1922 than for 1921. In comparing the death rate from cancer in one state with that in another, the Bureau uses "adjusted" rates in order to make allowance for differences in the age and sex distribution of the population, because, generally speaking, only persons in middle life and old age have cancer, so that a state with many old persons may be expected to have more deaths from cancer, so that a state with many old persons may be expected to have more deaths from cancer than a state with comparatively few old persons.

The highest adjusted cancer rate for 1922 is 106.9 per 100,000 population for the state of Rhode Island and the lowest is 53.1 for Tennessee. For a few states adjusted rates have been calculated separately for the white and colored populations. In this group of states the highest adjusted rate for the white population is 92.5 per 100,000 for Maryland and the highest for the colored population is 81.7 also for Maryland. The lowest adjusted rate for white population is 52.8 for Tennessee and the lowest rate for the colored population is 40.8 for Florida.

MUCH INSANITY DUE TO CORN "LIKKER," CHARGE

BIRMINGHAM, Ala., Dec. 27.—"Corn liquor drives people insane," declared Judge H. B. Abernathy, who passes upon hundreds of liquor cases in the courts of Birmingham each month. "An average of two or three victims of 'corn' are sent to the Alabama Insane Asylum each month from Jefferson County alone, asserted the judge. A total of five persons were sent to the asylum during the past week. In each case the victim was a heavy drinker, according to the judge.

Noted Musician Claims Great Masters Often Used Syncopation

Easy Mel-o-day, it haunts me, all-ways on my mind.

Interpretation of Jazz by Symphony Orchestra "Made" Popular Music

New York City.—Irwin Talbot, who directs the orchestra at the Rivoli Theatre, one of the world's largest motion picture houses, says that if jazz were taken out of America right now something would snap. "Syncopation or jazz is an essential for life as we live it," he declares. "It sets the measure for everything we do and supplies beauty in the bargain."

FARMERS PAYING EXCESSIVE RATES

Spend Millions Needlessly for Interest on Store Credit, Says Department of Agriculture.

BANK RATES THE LOWEST

Department Urges Thrift, Industry and Reliability on Farmers to Win Credit Standing—Bankers Asked to Help.

The cost to farmers of credit from stores is more than 25 per cent when calculated on the basis of a yearly interest rate, while banks charge little more than 6 per cent, says the official report of the Department of Agriculture on its recent survey of farmer credit in North Carolina.

"Farmers would profit greatly if they could place themselves in position to borrow from banks and pay their bills with cash," the report continues. "Merchants would be benefited, since they could then give their attention strictly to merchandising and avoid the risk of loss which they now assume. Bankers would also profit, due to the resulting improvement in farmers' financial condition and the increased business which these farmers would give the banks."

A Matter of Habit Discussing the question as to why farmers rely on store instead of bank credit, the report says that many do so out of habit and do not realize how high the cost of the store credit is. "There are others, however, who cannot obtain credit from banks," it goes on. "This is often due to the fact that no contact has been established and the farmer's credit rating has not been determined. Banks prefer character and gen-

NEWS LETTER

PARIS, Dec. 27.—Now is the time for all good Parisians to be digging into their pockets for Christmas tips to be distributed among all their many servants. First the postmen, always two or three, who come to the door with homely little calendars handed out by the Postal Department. Then comes the bread-carrier bringing only a smile, but there is no mistaking what that smile means. And the tailor's boy not to speak of all the various domestics in the household and last, but by no means least, the "concierger," that eternal ogre who plays janitor in every French house. This is the most important gift of all, for upon its greatness depends all happiness for the year to come. It is he (or she) who holds the key.

Once in a great while these bug-bears of Parisian life receive their desserts, and then one cannot help rejoicing. The story is running around the city about a concierge who announced that she had an apartment to rent, but demanded 1,000 francs tip, "le dernier a Dieu," which every householder must pay. A certain Monsieur Bernard who saw the sign decided to notify the police, who gave him ten bills of 100 francs each, on the back of which was written: "You will not take these into Paradise with you."

"Take these to the concierge," the police said, Monsieur Bernard did as he was told, and as soon as the concierge had them in her hands the police agent went in and asked for the bills. Terrified and trembling, she gave herself up and muttered something about suicide.

"Of course, we had to let her off," said the police, "for she is the mother of three children; but she got a good scare just the same."

"Musique extra dry" is what the Paris public is demanding these days, and French musicians who play in cafes, restaurants and dance-halls are complaining that the era of jazz and other forms of "extra dry" music is seriously affecting their efforts to get a living. This is undoubtedly a gentle allusion to America and prohibition. But jazz is not regarded as the worst enemy of the French performers. More harmful still are the low paid tziganes from Jugo-Slavia and Czechoslovakia, saxophonists from Hungary, guitar and mandolin strammers from Italy and Spain, and talented Russians, who are grateful for a mere crust of bread after their hardships under Soviet rule.

A few of these unfortunates may be able to find employment in some of the shops, for shopping to music is the latest luxury that has been added to life in Paris and there will be a time perhaps when we shall have music wherever we go. Strains of Chopin or Massenet greet the women who enter an attractive shop of silk stockings in the centre of the capital. A small orchestra hidden somewhere in the background fills the little place with its melody.

SOUTHERN PACIFIC HAS SURPLUS OF CARS

SALEM, Dec. 28.—The Southern Pacific company in a report filed in the offices of the public service commission today, indicated that the corporation now has a surplus of 1499 cars in Oregon. Of this number 909 are closed cars while 590 are open cars. Two months ago there was a shortage of carriers on the Southern Pacific lines in this state.

TO BEGIN FILLING STREETS AT ASTORIA

ASTORIA, Dec. 28.—The Glin Construction company will begin the filling of the streets in the devastated district about the middle of next month. Sand will be pumped from the river with a suction dredge, which is located just east of the O. W. R. & N. wharf, where there is said to be an abundance of material.

HIGH SCORE WON BY WESTON, ORE., POTATOES

PENDLETON, Dec. 28.—Certified seed potatoes from the Weston mountain district entered in an official test in the Yakima valley with lots from 17 other districts in Oregon, Washington and Idaho, produced the highest score in the tests, according to information that has been received by Fred Bennion, county agent. The tests were supervised by W. L. Close, district horticultural inspector.

HELP KIDNEYS BY DRINKING MORE WATER

Take Salts to Flush Kidneys and Help Neutralize Irritating Acids

Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate, and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obligating you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of soft

water, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effects whatever. Here you have a pleasant, effective, lithia-water drink which may quickly relieve your bladder irritation. By all means have your physician examine your kidneys at least twice a year.

ody an helps madame to choose ribbed ones, or plain wool or silk. There is a most accommodating hen living at Laille (Ile et Villaine). She lays eggs of three varieties adapted to the appetites of the several members of the family. There is her normal egg, such as any hen would lay, weighing about two and one-third ounces, and very suitable for children; her second variety is a fair allowance for a grown-up, weighing about one ounce more; then there is the out size for out-size people, consisting of a double egg—a small one, with shell complete enclosed in a large one, weighing no less than six and one-third ounces. A few more hens like this one would not come amiss in these days of dear living.
