MALE TRIO THIRD—NUMBER OF LYCEUM—The Buckeye Male Trio, third number of the winter lyceum, under the auspices of the local American Legion post, will be at the Armory New Year's night. The program will begin at 8:15. Male

trios and quartettes always have been the more popular entertainments in every lyceum and chaucataqua program, and the Ellison White people put a great deal of stress on the quality of this trio's musical and entertaining ability. The trio is first and second baritone in vocal work. In the doubling on brass one plays saxophone and trombone, another slide, cor net and trombone and the other banjo. This number of the lyceum comes on a night when good music and good entertainment essentially are part of the day's activities and nothing could be more

appropriate than such a musical event as this to top off the day's events. Hall's Catarrh Medicine is a Combined Treatment both local and internal, and has been successful in the treatment of Catarrh for over 40 years. Sold by all druggists F. J. CHENEY & CO., Toledo, Ohio

Man's Best Friend Checks Crime Wave

At last the dog, man's most loyal friend, has won a recognized official place for himself in the scheme of affairs. He has just been heralded as an asset rather than a liability and it has been proved that it pays in actual dollars and cents to have a dog in the household. Dogs everywhere today should be wagging their tails with conscious pride, for a great insurance company has just announced that it will give lower rates for residence burglary insurance to those who have a dog in their family. The U. S. Fidelity and Guaranty Company of Baltimore after an extensive survey has decided that it will give lower rates to homes where there is a dog. A careful analysis of police reports and departmental records show that all thieves dread a dog. They may

circumvent the police or dodge the caretaker, janitor or watchman, but they do not get by the ear of a loyal, unsleeping watchdog. As a "burglar alarm," dogs have often thwarted attempts at burglary, theft and larceny. Dogs as Asset In a small suburb near Boston there were 12 burglaries within the year and not one of these took place where a family owned a dog. In one thickly settled residential section of a large city, a survey was made recently covering only ten blocks. The result showed that during three months' time there were more than twenty burglaries in this district and not one of them occurred where a dog watched the premises. "Laddie Boy" gained national fame as the custodian and guard of the White House. Today the dog even in cities, is proving his ancient value and great usefulness as man's best friend. The earliest reference to him is undoubtedly in the Zend-Avesta, the religious book of Zoroaster, a work so old that its origin is lost in antiquity. In this book, penalties are set forth in detail for injuries to dogs. His value to the householder is proven by the fact that if a dog was killed, the man who did it was obliged to pay for the dog as well as for any loss of goods which resulted from this loss of guardianship. The tombs of Egyptian kings have always contained pictures and sculptures of dogs and they invariably had a prominent place in the households of early Roman and Greek cities.
