The power to relax will give one greater efficiency and power in any endeavor or occupation, not merely because of the saving of energy that would otherwise be wasted.

First, while standing without tenseness, raise one arm at a time to the level of the head, and after a moment relax the muscles, letting it drop loose and limp to the side.

Next walk slowly and carefully across the floor with the entire upper body relaxed.

LA GRANDE HOST TO TWO CONVENTIONS

Ph.D.s and M.A.s Breaking into Vaudeville

irresistible red curls, "and really we had to worm our way into vaudeville, but I am convinced we've chosen well. With our college degrees, we got so much that we could never use as Latin teachers—poise, the ability to make friends and a certain knowledge of life that would simply be lost if we became 'profs'."

"Besides, Ginger and I have a theory about taming jazz that we want to try out. We believe that a college degree decorated with common sense is going to make a lot of money for those owning them by proving to intellectuals that jazz is the most moving, stirring music in the world."

"Take this melody from 'No, No, Nora,' the new fox trot:

No, no, No-ra, no-body but you, dear.

You know, No-ra, yours truly is true, dear

"It's certainly got more 'kick' than Latin or Greek ever had."

TRADE RECORD Trade of the United States with Mexico

Big gains in the percentage which we supply of her imports and take of her exports. We buy her natural products and pay for them in manufactures.

Trade of the United States with her next door neighbor at the south, Mexico, aggregated about \$250,000,000 in the calendar year 1923, and \$250,000,000 in the decade ending with 1923.

While our trade relations with Mexico have always been good, the exports thereto about \$120,000,000, bringing our total trade with Mexico in 1923 up to the quarter of a billion line against about 125 million dollars in 1913.

In fact, the percentage which we supply of the imports of Mexico is greater than our share in the imports of any other important country. Canada takes about 69% of her imports from us while as ready indicated Mexico takes 75% of her imports from the United States.
