ASHLAND'S FUTURE RESPONSIBILITY

The President of the State Chamber of Commerce, who by the way is a resident of Ashland, is home from a ten day tour and visit to the principal towns of Willamette valley and the Coos Bay district.

The important phase connected with the leadership so freely accorded Ashland is, however, the responsibility carried with it. The other towns and districts of Oregon are expecting that Ashland will continue to set the pace and maintain her position as a leader in catering to the tourist and in appealing to them and other visitors thru our beautiful parks.

It is imperative that immediate action be given to the matter of financing the park board to an extent that enlargements and improvements recommended for this year can be completed at an early date.

ARGENTINA HAS A "SHERMAN LAW"

Argentina has a new trust law. The Sherman Act may have been the starting point from which the Argentine legislation was developed, while pending in the Argentine Congress for three years, but in the processes of Argentine legislation, let alone in the course of translation into Spanish and back again, it has pretty largely disappeared.

The Argentine statute declares any combination of capital tending to establish or sustain a monopoly and to permit of its profitable manipulation is a misdemeanor. It goes on to define acts which constitute a monopoly, or tend to create a monopoly.

The educational system of Argentina is to benefit from enforcement of Argentina's anti-trust statute. The proceeds of all fines collected are to go for public education.—The Nation's Business.

INCREASING OUR DIVIDENDS

What would be the dividends payable to Ashland if every citizen on December 31, 1924, could truthfully say he or she had not violated a community resolution for 1924 to "buy at home?"

The increased business which would obtain for home-town merchants from such a community resolution might seem inconsiderable to those who buy seldom if ever thru the mails but to that person acquainted with postal money order statistics and the number of mail order catalogues annually pouring into the resulting loss to the community is staggering.

At this time, when community co-operation and loyalty are doing so much for community growth and prosperity, it seems that an intensive and concerted campaign for one solid year for 100 per cent inculcation of the "buying at home" habit would discover for every community the

hidden "fountain of prosperity." Presupposing that the mail order catalog cover has been clamped down tightly for one year by the whole community the probable benefits which would accrue to the community are amazing.

Is there anyone who doubts that Ashland would be a bigger and better town to live in in 1925 if everybody bought at home in 1924?

MISS NORMAND HAS NERVOUS COLLAPSE

LOS ANGELES, Jan. 18.—Mabel Normand suffered a complete nervous collapse and failed to appear in the justice court as a witness in the preliminary hearing of Horace Greer, her chauffeur, who shot and seriously wounded Courtland Dines, a wealthy sportsman, New Year's night. The collapse of Miss Normand and the announcement that Dines was in too serious a condition to give testimony made it doubtful whether a hearing would be had as scheduled.
