Indigestion
May Lead to
A'pendicitis

Repeated attacks of indigestion often lead to serious inflammation and intestinal tract. This inflammation may finally extend to the appendix, which usually becomes infected through the presence of foul, irritating matter in the bowels.

It doesn't pay to ignore even the most simple warnings of digestive trouble. Neglect is responsible for much misery. Uneasiness at the pit of the stomach, sour taste in the mouth, excessive gas, heartburn, nausea, vomiting, bitter risings, constipation, biliousness, dizzy spells and palpitation of the heart after eating are some common symptoms of poor digestion.

If you are subject to any form of stomach distress, don't fail to try a bottle of Smith Bros.' M. A. C., the guaranteed stomach treatment. This wonderful medicine usually gives prompt relief from all discomfort. In fact, it is sold on a positive guarantee of money back if the first bottle fails to do so. A large bottle costs but \$1.25. East Side Pharmacy will supply you. (mail orders accepted.)

Too busy to figure against floaters, blacksmith coal oil Johnnies, or friends, knowingly or unwittingly. You know what I mean. Swenning. 187-1f

At the Standard Oil Station—

Charles Rorne has been added to the local force with the coming of the summer season. Tourist travel has already effected an approximate increase of 40 per cent over the amount of business that was being done this time last month according to service station men who have watched the increase.

Hours of Evening Service Changed

Sunday evening services and hours for week-day prayer meeting have been changed from 7:30 to 8 o'clock according to traditional agreement favorably voted on by the Ministerial Association at their meeting this week. Ordinarily the summertime hours would have taken effect the first Sunday in April, but this year the meeting of the Ministerial Association occurred after the first Sunday of the month had passed. All churches represented in the association are effected by this change.
