IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally by Drinking Quarts of Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of scalding, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year. No. 107

SENTENCED TO A LIVING DEATH

Rescued By Korex After Flu Nearly Got Him

"After having the flu four months," says Henry R. Haines of Cardin, Oklahoma. "I came out in a condition worse than death. I had no vigor, strength or courage. After taking korex, I gained 10 pounds right away and it seemed to put new life into my nerves and made my blood circulate faster. Now I am full of pep again." Today, many months later, Mr. Haines still feels as "good as new," according to his own statement.

According to enthusiastic users the benefits of korex are complete and lasting. Thousands the world over are now using this wonder compound. Weary and worn-out men and women, sufferers from muscular pain, lack of appetite, lessened vigor and low glandular activity, will be interested in learning that the American distributors of korex compound have arranged for korex compound to be sold in Ashland at East Side Pharmacy. Ask about korex compound the next time you are in this drug store.

SAYS UNIVERSITY EDUCATION DOUBLES EARNING POWER

EUGENE, Ore., June 4—A college education increases earning capacity from fifty to two hundred per cent, in the opinion of alumni of the University of Oregon, who were asked to comment on the value of their education. Of 568 University of Oregon men reporting the amount of their incomes to the alumni office, 329 reported incomes of more than \$3,000. In some instances the income reported was as high as \$50,000, but the greatest number, about forty per cent of the total, reported incomes between \$3,000 and \$7,000. Most of the graduates said that they believed their college education had increased their earning power at least one hundred per cent.

"These returns from our graduates bear out the assertions of the United States Bureau of Education as to the value of college training," said P. L. Campbell, president of the University. "Figures prepared by the bureau in 1917 show that the average earning of grade school graduates at the age of 30 is \$750, of high school graduates \$1250, of college graduates \$2150. Their investigations show that during a lifetime of forty years a college graduate produces \$50,000 more wealth than does a high school graduate. This means that, because of higher training, the college graduate is able to produce \$50,000 more in taxable wealth for the state than is his less educated brother. Education at the state university thus yields to the state in the lifetime of the student taxable wealth more than forty times as great as the cost of his education.

"In Oregon where natural resources are practically unlimited and depend for their development on the intelligence and initiative and skill of the citizens, these figures have special significance. Our whole prosperity, the development of our water power, minerals, timber, all the utilization of resources that mean a wealthier state, depends on the highest type of trained intelligence such as our colleges and universities are producing."

Letterheads, statements, to your order at the Tidings Office. We have a good job printing department.

Thousands Have 'Tobacco Stomach'

The excessive use of tobacco is one of the most common causes of indigestion and stomach inflammation. Whether you smoke or chew makes little difference. The highly irritating juice of the weed is swallowed with the saliva, often setting up an acute inflammation of the stomach which may end in gastritis or chronic stomach inflammation.

"Tobacco stomach" produces a number of distressing symptoms—first a loss of appetite, then an occasional attack of indigestion. Perhaps your food sours at times and you notice a peculiar burning in the stomach. These attacks occur with greater frequency as time goes on. Finally, if neglected, the condition becomes chronic, resulting in loss of flesh and general poor health.

Smith Bros. M. A. C. Stomach Tonic has proven wonderfully successful in all forms of digestive trouble. It is sold on a positive guarantee of money back if the first bottle fails to relieve stomach inflammation or dyspepsia. The very first dose should convince. Nothing on earth like it. You can get a large bottle for \$1.25. East Side Pharmacy will supply you. (Mail orders accepted.)

CAUSE OF FRUIT POISONING DISCOVERED

PORTLAND, Ore., June 2.—Research workers at the University of Oregon Medical School have succeeded in discovering the cause of so-called fruit poisoning, a disease which attacks hundreds of

Fruit Poisoning is a Painful Skin Infection

Fruit poisoning is a painful skin infection which attacks workers who pare and cut fruit in canneries. Those who hull strawberries are also liable to be infected. The disease causes the persons infected to be completely incapacitated for a month or two and often results in loss of finger nails. Before the investigations of the University of Oregon men were made, the cause of the disease was unknown. The infection causes large economic loss to the fruit industry and its workers.

When Sufferers from Fruit Poisoning are Brought to Portland Hospitals

When sufferers from fruit poisoning were brought to Portland hospitals last year, Dr. Thienes and Dr. Kingery became interested in discovering a cure for the disease, which was then unclassified by medical science. They made trips to Oregon orchards and canneries, and studied cases of the poisoning, finally isolating the organism which caused the trouble. They are now experimenting at the Medical School to find the best means of exterminating the organism from the human body so that cures may be effected.
