

Local Personal Notes

A Daily Chronicle of those who come and go, and events of local interest

To Crater Lake— A man who drove from Sacramento just to see Crater Lake is J. B. Wilson, who stopped here Saturday.

Let us fill your pail with Swifts Silver Lea lard. Costs less than shortening, goes farther and is more nutritious. Detricks. 94-tf

Guiley Here— Paul Guiley, well known local-ly, who is now living in Montague, arrived in Ashland Saturday for a visit with friends and relatives.

HONESTY is my POLICY. Yeo, of course. 212-tf

Oakland To Portland— An Oakland man, J. Shaw, who is on his way to Portland on a business trip, and who is driving through, spent Sunday in Ashland.

Gloco, 50c & 75c, McNair Bros.

Visitor From Glendale— A visitor from Glendale, California, is J. B. Bibb, Jr. He is in Ashland transacting business this week, and plans to go North on a vacation trip later.

We deliver the goods—Detricks 94-tf

From Gladstone— T. B. Hayhurst, Gladstone, Oregon, resident, passed through Ashland today on his way home after a winter in Los Angeles.

Madden sells Balloon tires. 246-tf

On Vacation— Walter F. Paterson, U. S. Engineer stationed at Rio Vista, California, who is on his annual vacation, stopped here Saturday night and liked Ashland so well he will spend a week here.

Swimming caps 25c, McNair Bros.

Visitors From Washington— Visitors from Washington today were Fred Dunbar and party, of Seattle, and Mr. and Mrs. Clarence Johnson, of Tacoma. They were in different parties, but are both returning home after short vacations in California.

SPECIAL attention to AUTO. MOBILE insurance; better terms and lower rates. Yeo, of course. Phone 21 & 274-J. 212-tf

From Alberta— C. Westall, of Brooks, Alberta, Canada, who is returning home after a vacation trip, left Ashland yesterday after making Ashland his headquarters for a round trip to Crater Lake. He went by way of Medford and returned by way of Klamath Falls, and is authority for the statement that the road by Klamath Falls, while just as dusty, is in better shape, being smoother.

Orres tailors for men and women, upstairs over McGees.

Don't miss the big closing out sale on Tires, Tubes and Accessories now on at the Hardware Department, Enders Big Store. 258-4

From a Kansas City— B. A. Spence, of Kansas City, Missouri, was among the 228 motorists that Saturday registered his machine at the local office. Mr. Spence left Kansas City about two months ago, and came to the coast through Southern states. He intends to return by way of Canada and Northern states.

Sweet cream for whipping and coffee—also fresh milk, always on ice at the Plaza. 239-tf

Road Is Dusty— That the road to Klamath Falls, while much better than formerly, is getting dustier was the statement of Mayor C. L. Loomis, who Saturday visited the eastern Oregon city. Mr. Loomis made the trip for the first time in many years.

Regular Drill Night— This evening is regular drill night for Ashland's national guard unit, according to Dave Sargent, and all those who have not checked in camp equipment will be required to do so. Discussion of camp records and faults will be a feature of the drill, and light arms practice will start in preparation for the state rifle shoot, which will be held August 18 at Clackamas. If Ashland places any men at Clackamas, they will be entered in the national shoot, which is usually held in the East.

At Convalescent Home— Mrs. W. N. Phipps, who lives East of Ashland, is a patient at the Convalescent Home, having gone there recently for treatment.

Vicks Salve 35c—McNair Bros.

From San Diego— Mr. and Mrs. R. L. Hoffman, of San Diego, were Ashland visitors today, having stopped off here on a trip North to look up friends.

Grants Pass Man Here— R. Danofsky, of Grants Pass, was registered at the Holet Columbia Saturday night.

Visit Klamath Falls— Among the many Ashland people who Sunday attended the Klamath Falls Rodeo were A. C. Ninninger, Fred Neil and Bulter Walker. J. McMahon, state traffic officer, has been in Klamath Falls in an official capacity during the celebration.

Here From North Bend— James L. Caval and wife, of North Bend, arrived in Ashland Saturday evening, and intend to stay here a week, visiting friends and relatives.

Hoquiam Man Here— A Hoquiam, Washington business man, C. J. Hill, with Mrs. Hill, were Ashland visitors Saturday and today, attending to local interests. They returned to Hoquiam this afternoon.

No Printers Ink— This morning a telephone call was received from the Klamath Falls Herald, asking that some printer's ink be sent over on the stage. A supply of ink failed to arrive in the Falls, and until ink arrives from Ashland, today's edition cannot be printed.

To Portland— Dr. and Mrs. G. C. Phetteplace accompanied by the doctors mother, departed this morning for Portland. While in the city, Dr. Phetteplace will take special work in electro-treatment of pyorrhea.

Back to Hill— "Spud" Rose and Johnny Rueger, who were home for the celebration, returned Sunday night to Hill, where they are working this summer.

To Northern California— Ray McGee left last night for a northern California lumber camp, where he intends to work the rest of the summer.

Meet 28 Tourists— When J. W. McCoy drove to the Emigrant Creek dam last night, he counted the number of tourists between the city limits and where the road turns off. 23 travelers going North were met in this short distance. Mr. McCoy reports that work on the dam is rapidly progressing, and that the special machine to pour cement is almost ready for operation. The machinery if of the type used on all large dam construction projects.

Return to Seattle— Mrs. Shafer and daughter, who for the past two weeks have been visiting with Mr. and Mrs. F. E. Shafer, left this morning for their home in Seattle. Mrs. Shafer was very favorably impressed with Ashland, and especially with the spirit displayed here during the celebration.

Visit Crater Lake— A party consisting of Margaret and Carol Van Dyke, Esther and Doris Kleinhamer, Mrs. Kleinhamer and Clyde Young visited Crater Lake yesterday. They left here at noon, and returned at 12:30 last night. They report that they took a leisurely trip and visited all points of interest. The roads are reported to be in a condition that makes a good rate of speed possible.

Left This Afternoon— Mr. and Mrs. H. N. Swank, of Vancouver, Washington, left Ashland this afternoon for their home, after visiting with the R. E. Detrick family. Mrs. Swank is a sister of Mr. Detrick's.

To Oregon Caves— Mr. and Mrs. Kenneth McWilliams and Mr. and Mrs. L. N. Woodside visited the Oregon Caves yesterday. They made the trip in one day and report the roads in good condition.

In Ashland— James Manning and Buford Hargues of Klamath Falls, drove to Ashland recently to attend the celebration. They returned to their-home town last night.

To Crater Lake— A party consisting of Mr. and Mrs. R. E. Detrick and family, Mr. and Mrs. H. N. Swank and Miss Irene Roffler yesterday visited Crater Lake, going by way of Klamath Falls and returning by way of Medford. They left at six in the morning and returned about 8:30 in the evening. They report that the trip can be easily made in one day, allowing plenty of time to visit the lake and nearby points of interest, as well as allowing time to stop in cities that are passed through.

Helpful Suggestions for June

SAFEGUARDING MILK

Milk is a most useful food at all times, but is never more appreciated than in summer when heavy foods pall on the appetite.

Two things are essential in having good milk. The first, of course, is to be sure of the source from which the milk comes, that the cows are healthy and well cared for.

The next is the care of the milk after it reaches the household. The ideal container for milk is therefore an enameled ware covered milk kettle or an enameled ware pitcher.

PUREED PEA SOUP

A milk soup is acceptable in summer when soup stock is not so easily kept on hand.

When strawberries get really cheap and are so ripe that they must be used at once then let the housewife add some glasses of strawberry and banana jam to her assortment of preserves.

DELICIOUS STRAWBERRY AND BANANA JAM

When strawberries get really cheap and are so ripe that they must be used at once then let the housewife add some glasses of strawberry and banana jam to her assortment of preserves.

CUSTARDS—BAKED OR BOILED

Custards are not only an agreeable dessert, but they are very nourishing and taken by themselves make a light but satisfying luncheon on a hot day.

A boiled custard makes a nice substitute for cream on fruit or berries. Scald two cups of milk in an enameled ware double boiler.

NEW WAR ROCKET RAINS MOLTEN METAL ON FOX

LONDON, July 5.—A new terror to the air raider of the future is revealed by the announcement of the invention of a new incendiary rocket, which, it is claimed, will spread a rain of molten metal over an area of five to eight miles on bursting.

SAYS HEAD CAMP MAY CONVENE IN ASHLAND

There is a strong possibility that the head camp session of the Woodmen of the World to be held four years hence, will be held in Ashland, Oregon, is the word brought by H. G. Shidler, delegate from the local lodge, from the head camp session at Yellowstone park.

STATED THAT THE BRITISH, AMERICAN AND FRENCH GOVERNMENTS ARE INTERESTED IN THE INVENTION, AND THAT A DEFINITE OFFER HAS BEEN RECEIVED FROM THE UNITED STATES.

ENCOURAGED BY THIS DEMONSTRATION, THE METROPOLITAN LIFE INSURANCE COMPANY, THROUGH ITS SIXTEEN THOUSAND MANAGERS AND AGENTS IN THE FIELD, IS DISTRIBUTING ALL OVER THE UNITED STATES AND CANADA, MILLIONS OF PAMPHLETS DESCRIBING THE TESTS, CALLING ATTENTION TO THE HIGH MORTALITY RATE FROM DIPHTHERIA AND URGING HELP IN ROUTING CHILDHOOD'S MOST DANGEROUS ENEMY BY HAVING CHILDREN IMMUNIZED BY THE TOXIN-ANTITOXIN TREATMENT.

CHILD HEALTH CENTERS AND MEDICAL CLINICS ARE CO-OPERATING IN A NATION-WIDE MOVEMENT TO INDUCE PARENTS TO HAVE THEIR CHILDREN SCHICK TESTED.

The object of the campaign is to rid the country of the diphtheria scourge. The Schick reaction is an accurate method of determining whether a child is susceptible to the disease.

Over 150,000 pupils in New York schools have been tested, and those found not immune were protected by toxin-antitoxin treatments against the diphtheria germ.

The tests, conducted in Manhattan and Brooklyn by the city health department, established the fact that not all children are susceptible to the disease. It was definitely proved that some children were protected by nature and could never contract diphtheria, while others were susceptible to it.

In this latter class, the test was followed by toxin-antitoxin treatment, consisting of three injections, one each week, for three weeks.

Statistics show that diphtheria is foremost among the fatal diseases in children from 3 to 5, and ranks third among the fatal illnesses of babies from 1 to 3.

Annually more than 200,000 cases are reported and about 20,000 die of the disease.

Except in New York and Chicago where physicians have conducted the Schick demonstrations on a large scale, diphtheria occupies a foremost place among the communicable diseases. Yet in a recent report on the subject, it is made plain that science possesses a more complete power over it than in the case of any other contagious disease.

No diphtheria has developed among Schick Tested New York school children, figures show. The value of the injections is revealed by the fact that five times as many cases of suspected diphtheria have developed among those who were not tested as among those in the same schools who were tested, and when necessary inoculated following the test with toxin-antitoxin.

PORTION OF MEDFORD THREATENED BY FIRE

(Medford Mail Tribune) The largest and most dangerous grass fire of the season started about 5:35 o'clock yesterday afternoon in the four acre field back of the Pacific and Eastern depot, reaching to Jackson street on the north and to the rear yards of homes on the west side of Genessee st., rolling up a dense smoke which went all over most of the city and for a time threatened the P. & E. buildings adjoining barns and homes on the north side of East Main street, on the west side of Genessee street and the big Crater National forest garage and barn on the east side of the field near Jackson street.

A conflagration threatened because of the strong breeze blowing from the north, which carried the flames at a fast speed towards the south, and only the fact that the wind did not shift, prevented an immensely troublesome fire, of series of fires.

PARR'S HAND TAKEN OFF LAST SATURDAY

After a two-day attempt to save the left hand of Roy Parr, well known local boy who was injured July 3, it was amputated Saturday morning.

After it had been all but pulled off when Parr caught it on a rope while diving at a local swimming pool, the hand was sewed on, in the hope that circulation could be restored and the bones knitted back together.

When it became apparent that the surgeons in attendance that there was no hope of such a thing taking place, amputation was decided on as a last resort.

Parr's grit has aroused much comment since the accident. Not once during the painful happening, or afterwards, did he lose consciousness, and although dismayed at losing one hand, he has not broken down.

FOUNDATION WORK ON MODERN HOME ENDED

Work which ten days ago was started on the foundation of a modern bungalow to be erected by Everett Smith near his poultry farm on Oak street, was today completed.

Plans show that when completed, the Smith bungalow will be strictly modern, and will embody all the latest innovations. It is expected that the house will be completed in the early fall.

HOTEL WORKERS GETTING READY FOR FINAL DRIVE

Now that the celebration is out of the way, interest is again centering in the campaign to finance the proposed new tourist hotel and leaders are hoping that the fund will be substantially increased this week so that a corporation can be formed and the contract let at a reasonably early date.

Despite the celebration a number of subscriptions were received at the headquarters at the Chamber of Commerce, bringing the total to \$132,500 Friday. Additional subscriptions totaling \$1,000 were received Saturday, making the grand total \$133,500 on that day.

No report has been made today, but it is understood that several additional small subscriptions are being received. Promoters hope to complete the financial program within the next week or ten days.
