OBSTINATE CASE RELIEVED QUICKLY

Says Korex Did More Than Everything Else Tried In 5 Years.

"For five years I suffered from gland troubles," says Mr. J. Johnson of Dundee, Mississippi, "and could not get much relief, although I underwent three X-Ray examinations. Then I tried korex compound and it did me more good than all the treatments I had tried in the 5 years. I cannot say too much in praise of it. Although I am now 50 years old, I feel I am only 25."

Many remarkable restorations to vigorous health and normal activity are being credited to korex compound almost daily by enthusiastic users. Sufferers from weakness after the flu, low vitality, lack of appetite, aching muscles, glandular inactivity, and premature old age, will be interested in learning that the American distributors of korex compound have arranged for korex compound to be sold in Ashland at East Side Pharmacy. Just ask for korex compound.

GINGHAM SLIP-ON FROCK

Eugene—Construction to start immediately on \$75,000 theater and store building.

Indigestion May Lead to Appendicitis

Repeated attacks of indigestion often lead to serious inflammation and intestinal tract. This inflammation may finally extend to the appendix, which usually becomes infected through the presence of foul, irritating matter in the bowels.

It doesn't pay to ignore even the most simple warnings of digestive trouble. Neglect is responsible for much misery. Uneasiness at the pit of the stomach, sour taste in the mouth, excessive gas, heartburn, nausea, vomiting, bitter risings, constipation, biliousness, dizzy spells and palpitation of the heart after eating are some common symptoms of poor digestion.

If you are subject to any form of stomach distress, don't fail to try a bottle of Smith Bros.' M. A. C., the guaranteed stomach treatment. This wonderful medicine usually gives prompt relief from all discomfort. In fact, it is sold on a positive guarantee of money back if the first bottle fails to do so. A large bottle costs but \$1.25. East Side Pharmacy will supply you, (mail orders accepted.)

MOOTED HEN-EGG QUESTION SETTLED; EGG CAME FIRST

CHICAGO, July — The age-old question, "Which came first, the chicken or the egg," is answered at last.

In an admittedly off-hand manner, Professor Conrad E. Thoroldsen, of the department of zoology of Northwestern University, lecturing on "Hereditry" to Summer school students at Harrison Tech High School, gave the answer:

"The hen comes from the egg, and not the egg from the hen." First it is. The egg came first. "I realize," Professor Thoroldsen continued, "that I'm settling in a rather off-hand manner one of the momentous questions of all time. But my research work compels me to reiterate that the hen

comes from the egg, and not the other way around.

"The hen carries new germ cells, which produce other eggs and, presumably, new hens; but all hark back to the original germ cell, which we call the zygote. It's the same in human beings. The person dies, but the germ cell lives on in a circuit as complete as eternity."

"Life Never Dies" This continuous circuit of germ cells, Dr. Thoroldsen asserted, proves that "life never dies"—that "life is a continuous stream of cell divisions extending back to that remote and unknown period when vital organization first assumed form. The individual may die, but the germ cells live on as the vehicles by which the hereditary traits are transmitted

from generation to generation. "And the parental influence," he said, "is the 'bunk.'"

"The mother," he went on, "might as well construct a cradle to influence a prospective son to become a carpenter as to study music to bring forth a musical prodigy. As long as the embryonic child is well nurtured that is all the mother has to do with it."

Whereas zygote is the original cell from which the egg came, subsequently followed by the hen, according to Professor Thoroldsen, the chromosomes are the predetermining qualities in the human make-up and through mating of proper chromosomes scientists some day may be able to predict the results of mating humans.

Which will leave for future generations to answer only those two other all-important and age-old questions, How old is Ann? and, Why does a chicken cross the road?
