# THE CALIFORNIA OREGON POWER COMPANY

7% Preferred Capital Stock
Price \$98 per Share
YIELDING 7.14%

The proceeds of the sale of this stock will be used exclusively for new, income-producing additions to and betterments of property and equipment.

THE COMPANY The history of The California Oregon Power Company shows a substantial growth in facilities and earnings resulting from the large sums of money invested in its properties and from the development of the territory which it serves.

Steady Growth in Customers Served The territory now served by The California Oregon Power Company includes parts of Jackson, Josephine, Klamath and Douglas Counties in Oregon, and Siskiyou County and parts of Shasta and Trinity Counties in California. This is an area equal to the combined areas of the States of Massachusetts, Rhode

During the ten years from 1913 to 1923, the number of consumers has grown to the present total of 18,225, an increase of 177%. Due to the increasing use of electric power for industrial, agricultural and domestic purposes, the Company's output has grown from approximately twenty-six million kilowatt-hours in 1913 to one hundred and fifty-two million kilowatt-hours in 1923—an increase of 475%.

In addition to its local consumers, the company enjoys a large and advantageous wholesale contract demand from other power companies, thus greatly expanding and diversifying its field.

Increase in Facilities The company owns and operates eight hydro-electric plants in Southern Oregon and Northern California. In building these hydro-electric plants, natural resources are developed which will be productive

The Company's main trunk high tension and distri-bution lines at the end of 1923 were 1550 miles in length.

The actual investment in the construction of these

facilities has increased from \$4,787,624.35 in 1913 to \$11,752,616.19 in 1923, exclusive of valuable water rights and intangible assets.

Immediate Future Development The Company is now engaged in building a new 4,250 horse-power plant on Link River at Klamath Falls, and an additional power plant with a generating capacity of 40,000 horse-power at Copco on the Klamath River, together with an important extension of its high-tension lines. A large part of this increased production has already been contracted for, in the case of the new Copco plant, and it is estimated by the of the new Copco plant, and it is estimated by the Company that the new facilities alone will increase its net earnings by more than \$400,000.00 a year.

#### THE STOCK

Par value \$100 per share. Dividends have been paid on The California Oregon Power Company Preferred Capital Stock each quarter since issuance, without interruption, at the rate of \$7 per share per annum. Dividend checks are mailed

every three months. Proceeds of all securities sold are devoted exclusively to additions to and betterments of the Company's

The stock is not assessable by the Company for any purpose whatsoever. It is non-callable, and if purchased at the present price, yields a return of 7.14%

It is exempt from Federal Normal Individual Income Tax.

It takes precedence as to assets and dividends over common stock amounting to \$4,441,100 par value. This means that all dividends on the Preferred Stock must be paid in full before any dividends may be declared on the common stock; and that the Preferred Stock has a claim on the assets of the Company prior to the common stock. The equity in assets back of the Preferred Stock amounts to more than \$9,000,000.00 as of May 31, 1924—over two and one-half times the par value of the Preferred Capital Stock now outstanding.

Upon the completion of the new Copco power house, the new Link River power house, and other projects now commencing construction, approximately Five Million Dollars in new and productive property will be added to the company's physical assets.

The stock may be purchased in any amount from

It may be purchased either for cash or on our special savings plan, namely, \$5 per share as first payment, and \$5 per share per month. Interest is not charged by the company on unpaid balances.

Interest is paid by the company, however, on all partial payments under the savings plan at the rate of 6% per annum. Interest checks are mailed to subscribers under the savings plan every three months. Subscribers who find it necessary to cancel their installment subscriptions will be allowed a refund of all payments made, plus interest earned, either in cash or in paid-up stock. (A deduction of \$1.00 per share will be made to cover the expense of cancellation.)

The stock is listed on the San Francisco Stock and Bond Exchange.
